A Souvenir Book Jeffrey Hirsch, 1998 American Museums and the Persuasive Impulse J. Donald Ragsdale, 2009-01-14 In American Museums and the Persuasive Impulse Professor Ragsdale assesses American museums as means of visual persuasion He demonstrates that museums their contents and their manners of display are as capable of influencing visitors as speeches or advertisements and that an awareness of their social influence provides an insight into the cultural roles of museums The book considers a diverse array of museums ranging from such national cultural icons as the Metropolitan Museum of Art and the Art Institute to such city museums as the Philadelphia Museum of Art and the Los Angeles Country Museum of Art and includes separate chapters on museums devoted to modern and contemporary art and to the specialized collections of individual connoisseurs In addition to these primarily art museums Professor Ragsdale assesses museums devoted to collections such as the National Air and Space Museum and to commemoration and remembrance such as the National World War II Museum and the US Holocaust Memorial Museum American Museums and the Persuasive Impulse makes an important contribution to the theory of persuasion and to visual communication art history and museology It utilizes a theory of visual signs based on the semiotic theory of C S Peirce In so doing it demonstrates that museum buildings the art and other objects contained within them and the spaces used for display may all be thought of in terms of means of social influence Seeing the Getty Center and Gardens Getty Publications, Featuring stunning color photographs throughout this beautifully illustrated volume takes readers on a visual tour through Los Angeles s iconic Getty Center and Gardens Designed for the Getty s visiting public this handsome gift book distills highlights of the existing Seeing the Getty Center and Seeing the Getty Gardens souvenir volumes to provide a visual tour of the Getty Center from the masterpieces in the galleries to the iconic architecture to the breathtaking gardens Dazzling details from the I Paul Getty Museum's collections are combined with unforgettable views of the site including the outdoor sculpture close ups of the diverse plants and flowers in the gardens plays of light and shadow on the travertine exterior the ocean and Los Angeles skyline and a stunning view of the Center at sunset Also available in Japanese Chinese Korean Spanish French and German this English edition provides a memento for guests and an inspiring introduction for those who have yet to visit the Getty Center European Glass in the J. Yonan, 2017-07-05 During the eighteenth century porcelain held significant cultural and artistic importance This collection represents one of the first thorough scholarly attempts to explore the diversity of the medium's cultural meanings Among the volume's purposes is to expose porcelain objects to the analytical and theoretical rigor which is routinely applied to painting sculpture and architecture and thereby to reposition eighteenth century porcelain within new and more fruitful interpretative frameworks The authors also analyze the aesthetics of porcelain and its physical characteristics particularly the way its tactile and visual qualities reinforced and challenged the social processes within which porcelain objects were viewed collected and used The essays in this volume treat objects such as figurines representing British theatrical celebrities a boxwood and ebony figural porcelain stand works of architecture meant to approximate porcelain visually porcelain flowers adorning objects such as candelabra and perfume burners and tea

Nelson, 2004-07-14 Hagia Sophia the Church of Holy Wisdom sits majestically atop the plateau that commands the straits separating Europe and Asia Located near the acropolis of the ancient city of Byzantium this unparalleled structure has enjoyed an extensive and colorful history as it has successively been transformed into a cathedral mosque monument and museum In Hagia Sophia 1850 1950 Robert S Nelson explores its many lives Built from 532 to 537 as the Cathedral of Constantinople Hagia Sophia was little studied and seldom recognized as a great monument of world art until the nineteenth century and Nelson examines the causes and consequences of the building s newly elevated status during that time He chronicles the grand dome s modern history through a vibrant cast of characters emperors sultans critics poets archaeologists architects philanthropists and religious congregations some of whom spent years studying it others never visiting the building But as Nelson shows they all had a hand in the recreation of Hagia Sophia as a modern architectural icon By many means and for its own purposes the West has conceptually transformed Hagia Sophia into the international symbol that it is today While other books have covered the architectural history of the structure this is the first study to address its status as a modern monument With his narrative of the building s rebirth Nelson captures its importance for the

diverse communities that shape and find meaning in Hagia Sophia His book will resonate with cultural architectural and art historians as well as with those seeking to acquaint themselves with the modern life of an inspired and inspiring building

The Central Liberal Truth Lawrence E. Harrison, 2008-07-08 Which cultural values beliefs and attitudes best promote democracy social justice and prosperity How can we use the forces that shape cultural change such as religion education and political leadership to promote these values in the Third World and for underachieving minorities in the First World In this book Lawrence E Harrison offers intriguing answers to these questions in a valuable follow up to his acclaimed Culture Matters Drawing on a three year research project that explored the cultural values of dozens of nations from Botswana Sweden and India to China Egypt and Chile Harrison offers a provocative look at values around the globe revealing how each nation's culture has propelled or retarded their political and economic progress. The book presents 25 factors that operate very differently in cultures prone to progress and those that resist it including one s influence over destiny the importance attached to education the extent to which people identify with and trust others and the role of women in society Harrison pulls no punches and many of his findings are controversial Contradicting the arguments of multiculturalists this book contends that when it comes to promoting human progress some cultures are clearly more effective than others It convincingly shows which values beliefs and attitudes work and how we can foster them Harrison takes up the question that is at the center of politics today Can we self consciously change cultures so they encourage development and modernization David Brooks New York TimesI can think of no better entrance to the topic both for what it teaches and the way it invites and prepares the reader to continue A gateway study David S Landes author of The Wealth and Poverty of Nations Monceau Carmontelle, 2020-12-08 Carmontelle s landmark publication Garden at Monceau beautifully reproduced to show the Parisian garden's artistic and cultural importance before the French Revolution Originally published in 1779 Garden at Monceau is a richly illustrated presentation of the garden Louis Carrogis known as Carmontelle designed on the eve of the French Revolution for Louis Philippe Joseph d Orl and duc de Chartres With its array of architectural follies intended to surprise and amaze the visitor the garden was a setting for ancien r gime social life Carmontelle's portrayal of his work in Garden at Monceau therefore serves as an expression of a key moment in the history of European landscape design garden architecture and social history This facsimile edition with its English language text and reproductions of the original engravings is accompanied by essays that interpret the landscape design and examine Carmontelle's larger career as a painter and theater producer **The Open Studio** Susan Stewart, 2005 Gathering most of poet Susan Stewart's writing on contemporary art The Open Studio illuminates a broad range of work from Ann Hamilton installations to the sculptures watercolours of Thomas Schu te the films of Tacita Dean At the Source Lynn Marsden-Atlass, André Dombrowski, 2023-02-14 In 2016 a landscape painting of the source of the Lison river in France was discovered at the University of Pennsylvania and was immediately suspected of being the work of Gustave Courbet A lengthy authentication
