## **Seersucker Whipsaw:**

**The Seersucker Whipsaw** Ross Thomas, 2011-10-04 From the Edgar Award winning author A highly readable novel of political adventure a cracking good story and the Africa mentality is fascinating Kirkus Reviews Clinton Shartelle doesn't seem like a good choice to run a political campaign in Albertia For one thing he's American and Albertia is a small coastal republic in Africa about to be cut loose from the English Crown For another Shartelle is Southern and fiercely proud of it and his ideas about racial politics veer unpredictably from progressive to rigidly old fashioned But Shartelle is the best and the political future of Albertia is too important to be left to anyone else If history is any indication this first fair election will probably be the country's last Rich natural resources make it attractive to businessmen on both sides of the Atlantic opening Albertia up to political corruption For his part Shartelle is hired to make sure that a British industrialist's favored candidate wins the presidency But the opposition is backed by the CIA for whom murder is just another political tool **Seersucker**

**Whipsaw** Ross Thomas, 2015 **The Seersucker Whipsaw** Oliver Bleeck, 1967 **African Settings in Contemporary American Novels** Dave Kuhne, 1999-05-30 Africa has long captured the Western imagination as a land shrouded in danger and mystery British and American novels written before World War II established popular conventions and stereotypes about Africa that have been increasingly challenged by contemporary American novels set in Africa Kuhne's book overviews the ways in which Africa has been employed as a powerful setting for American novels written since World War II Kuhne argues that contemporary American novels with African settings are largely didactic that these novels convey specific lessons about Africa and Africans and that they compare African and American cultures in order to evaluate and critique the two worlds The book begins by summarizing the conventions and themes Westerners have traditionally associated with Africa and by detailing how British and American authors from Aphra Behn to Ernest Hemingway depicted Africa before World War II It then looks at contemporary American novels set in invented African nations novels that typically suggest that the problems that trouble actual African nations are the result of colonialism A separate chapter then examines the African novels of African Americans which generally aim to correct the historical record refute stereotypes and detail the horrors of the slave trade The volume also looks at genre fiction set in Africa while a final chapter discusses postcolonial novels with African settings **Ah, Treachery!** Ross Thomas, 2007-04-01 Ah Treachery the last novel Thomas wrote before his death tells the story of one Captain Edd Twodees Partain drummed out of the Army and hounded by rumors of his involvement in a secret operation in El Salvador Twodees gets hired on to help a fundraiser for the Little Rock folks recover funds that were stolen from an illicit stash used to smooth over problems and pay off hush money Meanwhile Partain is involved in a storefront operation called VOMIT Victims of Military Intelligence Treachery trying to defend former intelligence operatives such as Partain from those who are trying to cover up the past permanently **Twentieth Century Crime & Mystery Writers** NA, 2015-12-25 **Twilight at Mac's Place** Ross Thomas, 2003-12-08 Anyone reading a Ross Thomas thriller for the first

The Pentagon and the CIA built two of the largest office buildings in the country there during and after the war that anchored a new imperial culture and social world As the U S expanded its power abroad by developing roads embassies and villages its subjects also arrived in the covert capital as real estate agents homeowners builders and landscapers who constructed spaces and living monuments that both nurtured and critiqued postwar U S foreign policy Tracing the relationships among American agents and the migrants from Vietnam El Salvador Iran and elsewhere who settled in the southwestern suburbs of D C Friedman tells the story of a place that recasts ideas about U S immigration citizenship nationalism global interconnection and ethical responsibility from the post WW2 period to the present Opening a new window onto the intertwined history of the American suburbs and U S foreign policy Covert Capital will also give readers a broad interdisciplinary and often surprising understanding of how U S domestic and global histories intersect in many contexts and at many scales American Crossroads 37
