## **Seirin Atlas Of Acupuncture:**

Seirin Atlas of Acupuncture Hans P. Ogal, Konemann Inc., 2000-03      **The Seirin Pictorial Atlas of Acupuncture** Yu-Lin Lian, 2000 The SEIRIN pictorial atlas of acupuncture is a new kind of manual. It illustrates the whole range of acupuncture points and main channels, the extraordinary vessels Ren Mai and Du Mai, and the extraordinary points in a systematic and clear way. Each of the 409 important points is clarified through a series of three different illustrations: a graphic indicates location on the body, an overview of channels illustrates the point in the context of its pathway, a photograph shows the acupuncture needle in position. By combining Chinese sources with the authors' experience in therapy, this book features a sensible balance between the most important indications and practical needs. The names, properties, and applications of the individual acupuncture points were then revised on this basis. The team of Chinese and German authors creates a bridge between Asian and western views of acupuncture. This acupuncture atlas not only provides beginners with an overview of the most important acupuncture points, but experienced practitioners can also learn about seldom used acupuncture points and thus extend their knowledge. Dust jacket      Atlas of Acupuncture Claudia Focks, 2008-01-01 Providing clear information on the full range of acupuncture points and main channels in a systematic and clear way, this acupuncture atlas not only provides beginners with an overview of the most important acupuncture points, but can also be used by experienced practitioners to extend their knowledge.      *Interactive Medical Acupuncture Anatomy* Narda G. Robinson, 2016-02-22 This presentation uses anatomically precise computer-generated reconstructed images of the human body for three-dimensional presentation of acupuncture points and channels. The CD component is fully interactive and allows the user to see through tissue layers, remove tissue layers, and rotate structures so that specific acupuncture points can be viewed.      *Acupuncture Pocket Book* Christopher M. Norris, 2005      The Principles and Practical Application of Acupuncture Point Combinations David Hartmann, 2019-09-19 A foundation textbook explaining how point combinations work in acupuncture practice. The book explains how each point works and how best to combine points for good clinical results. Students and practitioners need to respond to clinical challenges in creative and flexible ways, and this book guides them in the art of construction of effective treatment protocols. Clinically useful combinations are presented throughout, along with case studies showing the application of theory to practice.      *The Fine Art of Executive Protection* A. Hunsicker, 2007-12 The number of incidents and crimes carried out by terrorists and criminals such as physical threats, violent attacks, assassinations, kidnapping, and hostage situations are increasing by the minute worldwide. Each incident is a constant and ever-demanding challenge to the law enforcement and the personal security professionals in particular. A detailed but understandable manual for the Executive Protection Officer is a priority, and the answer to those challenging situations. *The Fine Art of Executive Protection* is a detailed but understandable manual for the Executive Protection Officer, providing answers to those challenging situations. Information about every aspect of executive protection is not only an important part of the professional

s training curriculum but plays also a vital role for the client who seeks protection This manual will provide a clear view of all aspects not only for the professional but also for prospect clients To make sure of this all available training and study material individual case studies and real scenarios combined with professional experience served as a foundation for this specialist s manual The Fine Art of Executive Protection in its comprehensive and straight forward form will guide the reader through the diversity of disciplines and skills which are essential for any professional of the executive protection and private security sector This book provides detailed information and knowledge necessary and indispensable not only for the novice but also for the experienced executive protection professional It provides the clear knowledge and a thorough understanding of the characteristics diversity and demands of this profession It contains all the essential ingredients necessary for an effective protection planning and successful service demanded by any executive protection specialist Providing all the tools techniques and applications needed for this specific job it also shall motivate some talents which may need to be developed further and to face not only today s protection needs but also those of the future The book not only contains detailed professional information for the person seeking a post in the glamorous world of the executive protection business but also provides all the information necessary for those under threat and in need of close protection and a secure environment A protection seeking client will find detailed information about Executive Protection and Physical Security Executive or Personal Protection was once considered a service only and exclusive for the rich famous and a few selected government officials But recent events and an increase in violence quickly transformed Executive Protection into a sought after service commodity worldwide Keeping this in mind any part of this guide is therefore easily adaptable and adjusted to any region or country in the world However one must carefully consider and act within the local laws to assure a successful protection service

**Touching the Invisible** Chris McAlister,Jeremy Halpin,Jan Nevelius,2021-01-29 Three experienced Shiatsu practitioners share knowledge and insights gained over thirty years of clinical practice and teaching to create a book they themselves would have wanted to provide practical guidance and philosophical perspective on this healing art The book s central themes are awareness intuition and intention in the practice of Shiatsu and how this body mind perspective can influence the wider health debate A modern rendering of the ancient wisdom underpinning Shiatsu and Oriental medicine this book goes beyond the technical details of Shiatsu as a specific therapy to the universal principles underlying it Presenting Shiatsu from different perspectives ranging from its philosophical underpinnings to the realities of daily practice this text represents the fruit of the knowledge we apply and continually re evaluate in our ongoing clinical work The question and answer format is based upon classical tradition the most famous text within traditional Oriental medicine Huang Di Nei Jing uses this method to illustrate complex ideas in an easy to read manner The text is organically formed through questions formulated by our student and fellow practitioner Filippa Freed These questions stemming from her training and practice facilitate a broad discussion that roams freely between technical principles case studies and informal anecdotes *Acupoint*
