Freeman, Eileen P. G. Vining, Diana J. Pillas, 2003-01-08 This remarkable book has been empowering parents with vital information for more

than ten years and the new edition promises to do the same It is committed to making parents active partners in their children's care and will be a vital resource for families everywhere Eric R Hargis President and CEO Epilepsy Foundation Winner of the 1991 National Book Award from the Epilepsy Foundation of America The award winning *Seizures and Epilepsy in Childhood* is the standard resource for parents in need of comprehensive medical information about their child with epilepsy Now in its third edition this highly praised book has been thoroughly revised and updated to reflect the latest approaches to the diagnosis and treatment of epilepsy in childhood including the use of the ketogenic diet as a treatment for children who either do not respond to traditional drug therapy or who suffer intolerable side effects from medications In addition to providing up to date information about new diagnostic techniques as well as new drugs diet and surgical treatments the authors have included a chapter addressing routine health care for children with epilepsy and a new chapter on complementary and alternative therapies Also new to this edition are discussions of the progress made in the evaluation for surgery a chapter on insurance issues and a section detailing additional resources No child's life should be defined by seizures If we understand how the brain works what happens during seizures and how to cope with epilepsy we can overcome the mythology of epilepsy and fight society's prejudices allowing every child with epilepsy to reach his or her full potential From *Seizures and Epilepsy in Childhood* *Growing Up with Epilepsy* Lynn Bennett Blackburn, 2003-06 *Growing Up with Epilepsy* provides parents with the tools needed to raise a child with epilepsy to support his or her social development provide effective discipline and negotiate the educational system **The Parents Answer Book** Suzanne M. Levine, *Parents Magazine*, 2000-08-12 Balancing an encyclopedia's easy reference with the friendly reassuring tone and format of *Parents Magazine* this authoritative guide reflects the most current thinking and research on aspects of parenting Includes informational boxes sidebars charts timelines checklists illustrations and resources Line drawings **Children with Seizures** Martin L. Kutscher, Gregory L. Holmes, 2006 This concise accessible handbook for families friends and carers of children with seizures provides all the information they need to approach seizures from a position of strength Part 1 discusses types and causes of seizures and what to do during a seizure The medical concepts and technical terminology as well as the available tests and treatments including anticonvulsant medication are clearly explained The author also addresses some of the emotional and social issues that may arise and there are chapters for kids and teens to read themselves or with their parents Part 2 covers some of the most common epilepsy syndromes in more detail Further reading and useful contacts are also provided This reassuring informal and upbeat book will reinforce and help clarify the discussion with the child's treating medical professional *Handbook of Clinical Child Neuropsychology* Cecil R. Reynolds, Elaine Fletcher-Janzen, 2009-01-13 Every chapter has been updated to reflect current thought and research in the field Chapters devoted to specialized tests in neuropsychology have been updated to reflect new editions of these popular instruments Special topic chapters have been added such as working in pediatric coma rehabilitation using the planning attention

sequential simultaneous theory of neuropsychological processes additions on ADHD and more appear written by the leading experts and practitioners in these fields to reflect the demands of current practice in clinical child neuropsychology A Practical Guide to Autism Fred R. Volkmar, Lisa A. Wiesner, 2009-05-18 Autism is in the public spotlight now more than ever as new research and information appears almost daily Although in many ways this is a positive development it also presents challenges to families and practitioners who want to keep up with the latest developments and are left to sift through new information by themselves to see what is credible and relevant for them Each of us needs a personal research assistant who can determine which information we need to pay attention to and let us know how it might affect our daily work and the children we are living with or serve Since we each don't have our own research assistants on staff I am delighted to recommend this wonderful book by Fred Volkmar and Lisa Wiesner Both of these talented professional leaders have combined their scientific skills and understanding of the field with great practical experience and ideas about how research can be translated into clinical practice The result is a book that provides the best and most comprehensive information about recent scientific developments and a splendid practical guide for how they are being implemented and what we are learning in the process The issues are presented in all of their complexity but translated into language that is clear direct and easy to follow The format also lends itself to understanding the complex issues and their implications through excellent charts question and answer sections and chapters that vary from describing diagnostic issues to stating very specifically how to expand and evaluate the services one is receiving The comprehensive references and lists of additional resources also add greatly to the overall package As a professional dedicated to understanding scientific advances and helping families and teachers to utilize them most effectively I am very pleased to have an ally like this book available I am very grateful to the authors for providing a very credible practical and relevant addition to our field to help the many advocates and family practitioners to better understand the exciting new developments and how they can be implemented in our day to day work Those taking the time to read through this superb volume will find it time well spent that pays back dividends in many different ways FOREWORD by Gary B Mesibov Ph D Professor and Director of TEACCH Treatment and Education of Autistic and Related Communication Handicapped Children University of North Carolina at Chapel Hill Foster Parent Handbook Mary R.
