Self Management And The Crisis Of Socialism:

Self-management and the Crisis of Socialism Michael Wayne Howard, 2000 While some conclude from the revolutions of 1989 that socialism is dead interest in socialism continues because of persisting problems of contemporary capitalism In this exciting text Michael W Howard offers critiques of liberal communitarian postmodern and some Marxist perspectives in order to develop a left liberal defense of a model of self managed market socialism that includes a basic income for all Specific applications of his view include analyses of its implications for the global marketplace the changing nature of workplaces and media restructuring and ownership This work is sure to be of interest to social scientists public policy makers and economists as well as to feminists ecologists and others concerned with how market socialism is relevant to their social issues

Culture, Society, Economy Don Robotham, 2005-03-23 Robotham offers here a clear headed expos of the limits of classical liberalism in the face of world production today His theme is both urgent and iconoclastic There is an unusual clarity about the exposition and a drive that comes from passionate engagement combined with long experience reading and reflection Keith Hart Goldsmiths College London In *Culture Society and Economy* Don Robotham examines the failure of recent social theory to grasp the problems of globalization and the emergence of corporate monopoly capital and sets out his own argument for a radical solution He argues that the neglect of economics by both cultural studies and social theory has weakened the ability to develop viable alternatives to present day capitalist globalization With deep awareness of and reference to current events and contemporary trends the author presents a detailed critique of cultural studies in particular Stuart Hall and Paul Gilroy Giddens theory of risk society Scott Lash and John Urry s economies of signs and space Manuel Castells theory of network society The final chapters make a unique argument that the solution to the problems of globalization lies in more globalization rather than adopting an anti globalization or localization position Don Robotham proposes more effective centralized institutions for governing the world economy in other words world government

Economic Justice and Democracy Robin Hahnel, 2013-05-13 In *Economic Justice and Democracy* Robin Hahnel puts aside most economic theories from the left and the right from central planning to unbridled corporate enterprise as undemocratic and instead outlines a plan for restructuring the relationship between markets and governments according to effects rather than contributions This idea is simple provocative and turns most arguments on their heads those most affected by a decision get to make it It s uncomplicated unquestionably American in its freedom reinforcement and essentially what anti globalization protestors are asking for Companies would be more accountable to their consumers polluters to nearby homeowners would be factory closers to factory town inhabitants Sometimes what s good for General Motors is bad for America which is why we have regulations in the first place Though participatory economics as Robert Heilbroner termed has been discussed more outside America than in it Hahnel has followed discussions elsewhere and also presents many of the arguments for and against this system and ways to put it in place

Socialism, Democracy and

Self-management Michel Pablo,1980 **Envisioning the Good Life** Matthew Croasmun,Zoran Grozdanov,Ryan McAnnally-Linz,2017-05-01 Who is God What is God's relation to the world How is God disposed towards us What does God ask of us These questions are not mere intellectual puzzles They matter for us A disinterested theology would be no theology at all for we are fundamentally at our very core invested in God God is the one who concerns us most deeply Put differently any theology worth the name is as Miroslav Volf has put it theology for a way of life We ask theological questions as those whose lives depend on the God whose character we try to articulate in the answers and also in the asking How we ask and answer these questions gives shape to our lives In this volume published in Volf's honor leading Christian Jewish and Muslim theological scholars reflect on the shapes flourishing human life takes in light of God Considering concrete questions from how to talk about suffering to the value of singing in congregational worship in light of their deep theological commitments the contributors exemplify the kind of theological reflection our cultures so deeply need Contributors to this volume Matthew Croasmun Ryan McAnnally Linz Marianne Meye Thompson David H Kelsey Michael Welker Christoph Schwobel Alon Goshen Gottstein Reza Shah Kazemi Jurgen Moltmann Natalia Marandiuc Nancy Bedford Nicholas Wolterstorff Lidija Matosevi Ivan Sar evi Linn Marie Tonstad **Markets, Planning, and Democracy** David L. Prychitko,2002-01-01 Markets planning and democracy essays after the collapse of communism edited by David L Prychitko The State, Identity and Violence R. Brian Ferguson,2003-09-02 In this book a collection of experts investigate the varied forces from global systems to local beliefs that lead to civil violence chaos and perhaps a new political order The State Identity and Violence explores acts of mass violence occurring within national borders and examines the links such acts have to personal identities and how they challenge the character or very existence of the state Building upon the anthropological premises of holism and cross cultural comparison this volume shows how violent challenges to existing states should be conceptualized as layered problems with multiple kinds of causes It not only goes beyond the ancient hatreds explanation but shows the inadequacy of the concept of ethnic violence and of theories which treat interests and identities as separate sometimes opposed variables *Humanity & Society* ,2004

Castoriadis, Foucault, and Autonomy Marcela Tovar-Restrepo,2012-03-29 This book examines Cornelius Castoriadis thought and the radical alternative it presents to the legacy of Michel Foucault focusing on three key notions that are central in both scholars theories the subject the production of social meaning and representation and social cultural change Castoriadis and Foucault faced similar theoretical and political challenges and tackled common questions yet their conclusions diverged significantly This important book establishes for the first time a critical dialogue between these two bodies of thought Through a detailed exploration of the Castoridian perspective Marcela Tovar Restrepo addresses the limitations of Foucault's poststructuralist thought exploring and comparing what those three central notions mean in each framework In so doing Tovar Restrepo elucidates a greater understanding of their differences and the resulting consequences for the social sciences and the role of social theory Ultimately this book presents Castoriadis philosophical and

theoretical position as an alternative to unresolved poststructuralist problems and to what Castoriadis saw as a deterministic ontology embedded in political relativism paving the way for an invigorating debate about autonomy and social change

Socialist Economics in Yugoslavia Marko Grdešić, Mislav Žitko, 2025-10-31 This book presents a critical history of Yugoslav socialist economics from its inception in the late 1940s to its dissolution in the late 1980s After the dramatic break with the Soviet Union in 1948 Yugoslavia found itself in urgent need of a third way A socialist trajectory which would not resemble the Soviet model nor succumb to the imperatives of capitalist modernization This monumental historical task resulted in the gradual constitution of the system of socialist self management This book is the first to provide a systematic response to key questions about this specifically Yugoslav form of socialist economics How did it develop How was it consolidated into a productive and influential academic discipline What were the theoretical concerns and empirical procedures used by economists in order to create a modern scientific discipline and advance the cause of socialist Yugoslavia And finally how did this body of work enter a terminal crisis and disappear simultaneously with the country itself Even given its failure socialist Yugoslavia constitutes one of the more important and sustained twentieth century attempts at building socialism Thus the Yugoslav way of thinking remains relevant for contemporary topics such as economic democracy comparative economic systems and post capitalist economic models This book will appeal to all readers interested in the history of economics economic sociology political economy the history of Yugoslavia and socialist debates **Regional**

Development In Communist Yugoslavia Dijana Pleština, 2019-07-11 The brutal war now raging in what was Yugoslavia the author argues is fueled not merely by interethnic hatred but also by longstanding disparities in economic well being among republics and regions The Communist leadership having stated its intention when it took power to eliminate economic disparities nonetheless failed to confront the conflict of interests that distorted the country's economic policy and thus never worked out a coherent strategy for regional development Interregional tensions were inflamed by the failure to close the gap between wealthy and poor areas directly contributing to the breakup of the country Basing her argument on longitudinal data and on in depth interviews with Yugoslav leaders at federal and regional levels Milovan Djilas Svetozar Vukmanović Tempo Bosko Gluscević Hasan Zolčić and several dozen others Dijana Pleština examines and assesses the economic inequalities as well as the effects that the leadership's regional policies had on them She shows that despite the mandate for equalization that was part of socialist doctrine Yugoslav leaders were at first unwilling and later unable to formulate policies that would enhance the economic well being of the poorest regions Instead they adopted a strategy of top down growth which enhanced the further development of the wealthier regions Later partially in an effort to placate the disadvantaged they shifted funds to some of the less developed regions Rather than promoting equality such ad hoc solutions fostered competition for scarce resources and intensified political cleavages Pleština also looks at how the devolution of decisionmaking from central to regional levels designed to increase government legitimacy and efficiency actually provided

an opportunity for regional leaders to build independent power bases This trend in conjunction with the economic slump of the 1980s further eroded the unity of the federation

Problems of Communism ,1985 **Economic Reforms in the Socialist World** Stanislaw,etc, Gomulka,2016-07-22 First Published in 1990 Socialist countries now account for about a quarter of the world economy about a third of the world population and about half the world military power What happens in those countries is therefore par excellence of importance to all of us This book is an outcome of a Conference on Economic Systems and Reforms in a Changing World held in Seoul in September 1987 The Conference was significant in several respects Foremost was the fact that this was probably the first such meeting of scholars from both socialist and non socialist countries held to discuss socialist economic reforms worldwide

Yugoslavia In The 1980s Sabrina Ramet,2019-03-15 The opening years of 1980 were difficult for Yugoslavia Open revolt has occurred in Kosovo province and economic hardship has added to a general crisis of confidence The system of self management once the pride of Yugoslav ideologists has come increasingly under fire in post Tito Yugoslavia as proponents of the system search for a new basis of

Self-Management in Yugoslavia and the Developing World Ukandi G Damachi,Hans D Seibel,1982-07-29 *Slovenia* Mojmir Mrak,Matija Rojec,Carlos Silva-Jauregui,2004-01-01 Thirteen years after independence from the former Socialist Republic of Yugoslavia Slovenia has become one of the most advanced transition economies in Central and Eastern Europe and will become a member of the EU in May 2004 This publication examines the country s recent political and socio economic history its transition to a market economy and the challenges that lie ahead It includes contributions from Slovenia s president a former vice prime minister the current and previous ministers of finance the minister of European Affairs the current and former governors of the Bank of Slovenia as well as from leading development scholars in Slovenia and abroad

A History of Yugoslavia Marie-Janine Calic,2019-02-15 Why did Yugoslavia fall apart Was its violent demise inevitable Did its population simply fall victim to the lure of nationalism How did this multinational state survive for so long and where do we situate the short life of Yugoslavia in the long history of Europe in the twentieth century A History of Yugoslavia provides a concise accessible comprehensive synthesis of the political cultural social and economic life of Yugoslavia from its nineteenth century South Slavic origins to the bloody demise of the multinational state of Yugoslavia in the 1990s Calic takes a fresh and innovative look at the colorful multifaceted and complex history of Yugoslavia emphasizing major social economic and intellectual changes from the turn of the twentieth century and the transition to modern industrialized mass society She traces the origins of ethnic religious and cultural divisions applying the latest social science approaches and drawing on the breadth of recent state of the art literature to present a balanced interpretation of events that takes into account the differing perceptions and interests of the actors involved Uniquely Calic frames the history of Yugoslavia for readers as an essentially open ended process undertaken from a variety of different regional perspectives with varied composite agenda She shuns traditional deterministic explanations that notorious Balkan hatreds or any other kind of exceptionalism are to

blame for Yugoslavia's demise and along the way she highlights the agency of twentieth century modern mass society in the politicization of differences While analyzing nuanced political and social economic processes Calic describes the experiences and emotions of ordinary people in a vivid way As a result her groundbreaking work provides scholars and learned readers alike with an accessible trenchant and authoritative introduction to Yugoslavia's complex history *Workers' Participation And Self-management In Developing Countries* Janez Prasnikar, 2019-04-25 Drawing on his background as an economist and a specialist on the Yugoslav system of workers self management Janez Prasnikar analyzes an extraordinary amount of dispersed information on the experience with workers participation in thirteen developing countries **Cultures of Economy in South-Eastern Europe** Jurij Murašov, Davor Beganovic, Andrea Lešic, 2019-11-26 The ubiquitous cultural turn of the 1990s did not spare the thinkers of economics however at the same time economic topics have gained a new importance in cultural studies This volume focuses on cultures of economy in regions of former Yugoslavia as part of South Eastern Europe supported by theoretical perspectives It examines narratives and poetics of economy in literature film and art as well as in public discourse The contributors spotlight different historical periods the late 19th and the early 20th centuries Socialist Yugoslavia and the transitional and neoliberal period since the 1990s **From Solidarity to Sellout** Tadeusz Kowalik, 2012 In the 1980s and 90s renowned Polish economist Tadeusz Kowalik played a leading role in the Solidarity movement struggling alongside workers for an alternative to really existing socialism that was cooperative and controlled by the workers themselves In the ensuing two decades really existing socialism has collapsed capitalism has been restored and Poland is now among the most unequal countries in the world Kowalik asks how could this happen in a country that once had the largest and most militant labor movement in Europe This book takes readers inside the debates within Solidar
