Confidence Culture Shani Orgad, Rosalind Gill, 2021-12-06 In *Confidence Culture* Shani Orgad and Rosalind Gill argue that imperatives directed at women to love your body and believe in yourself imply that psychological blocks rather than entrenched social injustices hold women back Interrogating the prominence of confidence in contemporary discourse about body image workplace relationships motherhood and international development Orgad and Gill draw on Foucault's notion of technologies of self to demonstrate how confidence culture demands of women near constant introspection and vigilance in the service of self improvement They argue that while confidence messaging may feel good it does not address structural and systemic oppression Rather confidence culture suggests that women along with people of color the disabled and other marginalized groups are responsible for their own conditions Rejecting confidence culture's remaking of feminism along individualistic and neoliberal lines Orgad and Gill

How Wars Are Won Damon J. Bullock, 2016-03-11 This book came into being because of an intrinsic desire to educate others on how the U S military has maintained its position as the world's premier fighting force This careful explanation will be achieved by using the structural functionalism approach as the sociological foundation and its relationship with the various social actors This approach reinforces the fact that team unity and cohesion can only result when various social actors work together for the common good of the mission I want readers to not only understand the military as a fighting force but also how the military is subject to social influences like any other social institution The U S military is often studied regarding its role in our society as a mechanism of protection without much emphasis as a social institution with actors or individuals who are subject to the influences of social interaction like a fallen apple is subject to the Law of Gravity Writing this book on the subject of military sociology was also inspired because of my unique position in the U S Army As a military sociologist and company grade officer I have the practical experience and educational background to talk about the social facts that sustain troop cohesion support and morale Mechanisms are established in the military to encourage individuals who are different in many regards to think and fight as one team The United States military is only great because we have great family friends and comrades that support us as individuals and as the American military
