 The New Male Sexuality is destined to be a classic of the nineties and beyond Hercules and the King of Portugal Dian
 Fox-Hindley,2019-01-08 Hercules and the King of Portugal investigates how representations of masculinity figure in the
 fashioning of Spanish national identity scrutinizing ways that gender performances of two early modern male icons Hercules
 and King Sebastian are structured to express enduring nationhood The classical hero Hercules features prominently in
 Hispanic foundational fictions and became intimately associated with the Hapsburg monarchy in the early sixteenth century
 King Sebastian of Portugal 1554-78 both during his lifetime and after his violent death has been inserted into his own land's
 charter myth even as competing interests have adapted his narratives to promote Spanish power The hybrid oral and written
 genre of poetic Spanish theater as purveyor and shaper of myth was well situated to stage and resolve dilemmas relating
 both to lineage determined by birth and performance of masculinity in ways that would ideally uphold hierarchy Dian Fox's
 ideological analysis exposes how the two icons are subject to political manipulations in seventeenth century Spanish theater
 and other media Fox finds that officially sanctioned and sometimes popularly produced narratives are undercut by dynamic
 social and gendered processes Hercules and Sebastian slip outside normative discourses and spaces to enact nonnormative
 behaviors and unproductive masculinities Social, Political and Cultural Dimensions of Health Kevin Dew,Anne
 Scott,Allison Kirkman,2016-05-09 This book comprehensively explores social political and cultural dimensions of health in
 contemporary society It addresses many issues and pertinent questions including the following Are we over diagnosed and
 over medicated How can patients participate in their own care Do pharmaceutical companies coerce us into medication
 regimes What drives inequalities in health outcomes What is the experience of health care for indigenous communities Why
 do different countries have such different health care systems How do we respond to life changing conditions Can we achieve
 a good death How do new genetics shape our identities Is public health a force of liberation or disempowerment The book
 incorporates the range of levels of influence on health covering individual patient experiences the health professions
 multinational corporations the state global organisations as well as examining trends in social organisation cultural
 expression and technological developments It volume provides an accessible yet in depth overview and discussion of the
 sociology of health The chapters include an illustrative case study and further readings relating to the topic *Now and
