Even more than Bob does she sees herself as a sexual being Both characters grow increasingly complex as they gain experience of the world While their relationship ends or appears to end each of them moving toward a different way of living in the world we can say ultimately not that love conquers all but that it endures whether or not we will it despite the world and despite ourselves This is a pre feminist novel in that while feminism has not yet become a movement in the years most of this story occurs many of the issues that feminism is concerned with are depicted in rudimentary form in this book **Eros in Orbit** Joseph Elder, 1973
