Sexual Aberrations

Pat Caplan

Sexual Aberrations:

Our Original Scenes Tomas Geyskens, 2005 Freud's ideas on infantile sexuality can only be understood as constructions that are necessary to understand the psychopathological formations of adults. These constructions of infantile sexuality therefore must not be considered to be speculations about infant behaviour as such because in infancy sexuality is obviously a rather marginal problem and because consequently only their nachträglich effects reveal the significance of our infantile sexual experiences. In the psychoanalytic cure these infantile experiences are never remembered as such. The idea that what is repressed in adults can be observed in infants does not take into account this notion of Nachträglichkeit while Freud's theory cannot be understood without it. The relation between the pathological and the infantile bridges the gap between pathology and normality because pathology is caused by universally human problems or weak points infantile sexuality and following our interpretation of the death instinct the infant's radical Hilflosigkeit. In psychoanalysis therefore the analysis of the different pathologies has inevitably an anthropological claim. To understand what it means to be human says Freud we must analyse the extreme paradigmatic answers to this problem that we all are ourselves. The analysis of different pathologies will highlight the different aspects of our infantile experience and its nachträglich effects. In this perspective the difference between normality and pathology can only be a quantitative not a qualitative difference. In this way Freud transformed the study of psychopathology into a clinical anthropology i.e. a clarification of the specifically human in human nature by analysing its pathological manifestations.

Aberrations of Sexual Life, After the Psychopathia Sexualis Richard Krafft-Ebing, 1959

The Sexual Life of Our Time in Its Relations to Modern Civilization Ivan Bloch, 2021-04-22 The author's aim in writing this book was to write a complete Encyclopædia on the sexual sciences and it will probably be acknowledged by all who study its pages that the author has accomplished his intention in a very scholarly manner and in such form as to be of great value to the professions for whom this translation is intended. The subject is no doubt one which appeals to and affects the interests of all adult persons but the publishers have after very serious and careful consideration come to the conclusion that the sale of the English translation of the book shall be limited to members of the legal and medical professions. To both these professions it is essential that a knowledge of the science of Sex and the various causes for the existence of abnormals should be ascertained so that they may be guided in the future in their investigations into and the practice of attempts to mitigate the evil which undoubtedly exists and to bring about a more healthy class of beings. It is the first time that the subject has been so carefully and fully gone into in the English language and it is believed that the very exhaustive examination which the author has made into the matter and the various cases to which he has called attention will be of considerable use to the medical practitioner and also to the lawyer in criminal and quasi criminal matters and probably in matrimonial disputes and cases of insanity.

The Encyclopædia of Sexual Behaviour Albert Ellis, Albert Abarbanel, 2013-10-22 The Encyclopædia of Sexual Behaviour Volume Two is an encyclopedia of sexual behavior and covers

topics ranging from the linguistic aspects of sex to sex life in Latin America sex in the literature and sexual love Laws on marriage and family and on sex crimes are also discussed along with sexual perversions and the art of loving Comprised of 52 chapters this volume first deals with Judaism s attitudes and teachings on sex particularly with regard to the sexuality of women nudity and prostitution The reader is then introduced to the connection between language and sex sex life in regions such as Latin American the Orient and the Soviet Union and the portrayal of sex in literature Subsequent chapters explore sexual love as opposed to altruistic love marriage and family living menopause and the menstrual cycle movement and feeling in sex the interrelationship of music and sex and the effects of nutrition and health on sexuality Other chapters focus on phallicism and sexual symbolism planned parenthood around the world the psychology of pornography human reproduction and sex in relation to race and Protestantism This book will be of interest to psychologists and psychiatrists

Anthropological Studies on the Strange Sexual Practices of All Races and All Ages Iwan Bloch,2001-06 The celebrated compendium of sexual oddities a no holds barred treatment of sexual practices throughout the world and throughout time The work makes excellent reading though it may be criticized for lacking any substantial synthesis of its components and for being unsympathetic to homosexuals and masturbators Iwan Bloch 1872 1922 the father of sexual science took his medical degree from Wuurzburg in 1896 and soon published his *Ursprung der Syphilis* 1901 which made him the foremost exponent of the so called Morbus Americanus theory that syphilis originated in America His *Beitrage zur Aetiologie der Psychopathia Sexualis* was an important follow up of Krafft Ebing and several other works brought him recognition as a pioneer sexologist Book jacket

The Sexual Life of Our Time in Its Relations to Modern Civilization Iwan Bloch,1909 **Freud and the Problem of Sexuality** Bradley Ramos,2024-03-01 While contemporary studies have paid renewed attention to the psychoanalytic theory of sexuality and routinely reference Sigmund Freud they seldom engage directly with his work Freud and the Problem of Sexuality returns to Freud s writings to argue that there is still something revolutionary and novel to be found there something that will come to challenge both philosophical and popular understandings of sexuality In lively accessible prose Bradley Ramos revisits some of the most difficult even troubling aspects of Freud s work and sheds fresh light on foundational concepts such as Trieb drive or instinct perversion infantile sexuality and the Oedipus complex Reading Freud alongside Jean Laplanche Louis Althusser and Jacques Derrida we can begin to see why sexuality becomes for us as it did for Freud a problem in and by its nature However to take this problem of sexuality seriously Ramos argues we must dare to do what most refuse renounce our persistent fantasies and assumptions about sexuality

The Sexual Life of Our Time in Its Relations to Modern Civilization; In Two Volumes Iwan Bloch,2025-08-19 Reproduction of the original The Antigonos publishing house specialises in the publication of reprints of historical books We make sure that these works are made available to the public in good condition in order to preserve their cultural heritage

Sexual Aberrations Wilhelm Stekel,1952 The Emergence of Sexuality Arnold Ira Davidson,2001 Moving between

philosophy and history Arnold Davidson elaborates a powerful new method for considering the history of concepts and the nature of scientific knowledge a method he calls historical epistemology He applies this method to the history of sexuality

Sexualities Alessandra Lemma, Paul E. Lynch, 2015-06-05 *Sexualities Contemporary Psychoanalytic Perspectives* presents a broad selection of contemporary psychoanalytic thinking on sexuality from a wide range of psychoanalytic traditions Sexuality remains at the heart of much psychoanalytic theory and practice but it is a complex and controversial subject Edited by Alessandra Lemma and Paul E Lynch this volume includes a range of international contributions that examine contemporary issues and trace common themes needed to understand any sexuality including the basics of sexuality and the myriad ways in which sexuality is lived The clinical examples provided here demonstrate contemporary psychoanalytic techniques that uncover meanings that are both fresh and enlightening and address heterosexuality homosexuality gender and perversion from a psychoanalytic perspective Divided into four parts the book includes the following Historical context Foundational concepts Contemporary elaborations Homosexuality Perversion revisited Throughout *Sexualities Contemporary Psychoanalytic Perspectives* the reader will find psychoanalytic wisdom that is transferrable to work with patients of all sexualities and will see that the essentials of sexuality may be more similar than they are different for homo and hetero sexuality Psychoanalysts and psychoanalytic psychotherapists as well as academics interested in the subjects of psychoanalysis gender sexuality or homosexuality will find this book an invaluable resource Alessandra Lemma PhD is Director of the Psychological Therapies Development Unit at the Tavistock and Portman NHS Foundation Trust She is a Fellow of the British Psychoanalytic Society and Visiting Professor in the Psychoanalysis Unit University College London She is a Consultant Adult Psychotherapist at the Portman Clinic where she specializes in working with transsexuals She has published extensively on psychoanalysis the body and trauma Paul E Lynch MD is on the faculty of the Boston Psychoanalytic Society and Institute the Massachusetts Institute for Psychoanalysis and the China American Psychoanalytic Alliance He teaches about psychoanalysis gender and sexuality and has been a popular speaker on issues of homosexuality and psychoanalysis He is also a Clinical Instructor of Psychiatry at the Tufts University School of Medicine

An American Obsession Jennifer Terry, 2010-12-15 Drawing on original research from medical texts psychiatric case histories pioneering statistical surveys first person accounts legal cases sensationalist journalism and legislative debates Jennifer Terry has written a nuanced and textured history of how the century old obsession with homosexuality is deeply tied to changing American anxieties about social and sexual order in the modern age Terry's overarching argument is compelling that homosexuality served as a marker of the abnormal against which malleable tenuous and often contradictory concepts of the normal were defined One of the few histories to take into consideration homosexuality in both women and men Terry's work also stands out in its refusal to erase the agency of people classified as abnormal She documents the myriad ways that gays lesbians and other sexual minorities have coauthored resisted and transformed the most powerful and authoritative

modern truths about sex Proposing this history as a useable past *An American Obsession* is an indispensable contribution to the study of American cultural history

Abnormal Michel Foucault, 2016-09-01 Three decades after his death Michel Foucault remains one of the towering intellectual figures of the last half century His works on sexuality madness the prison and medicine are enduring classics From 1971 until his death in 1984 Foucault gave public lectures at the famous Collège de France These seminal events attended by thousands created the benchmarks for contemporary social enquiry The lectures comprising *Abnormal* begin by examining the role of psychiatry in modern criminal justice and its method of categorising individuals who resemble their crime before they commit it Building on the themes of societal self defence developed in earlier works Foucault shows how defining normality became a prerogative of power in the nineteenth century shaping the institutions from the prisons to the family meant to deal with monstrosity whether sexual physical or spiritual The Collège de France lectures add immeasurably to our appreciation and understanding of Foucault's thought

Three Essays on the Theory of Sexuality Sigmund Freud, 2017-01-24 The first edition of this classic work from 1905 shows a radically different psychoanalysis Available for the first time in English the 1905 edition of *Three Essays on the Theory of Sexuality* presents Sigmund Freud's thought in a form new to all but a few ardent students of his work This is a Freud absent the Oedipal complex which came to dominate his ideas and subsequent editions of these essays In its stead is an autoerotic theory of sexual development a sexuality transcending binary categorization This is psychoanalysis freed from ideas that have often brought it into conflict with the ethical and political convictions of modern readers practitioners and theorists The non Oedipal psychoanalysis Freud outlined in 1905 possesses an emancipatory potential for the contemporary world that promises to revitalize Freudian thought The development of self is no longer rooted in the assumption of a sexual identity instead the imposition of sexual categories on the infant mind becomes a source of neurosis and itself a problem to overcome The new edition of *Three Essays* presents us with the fascinating possibility that Freud suppressed his first and best thoughts on this topic and that only today can they be recognized and understood at a time when societies have begun the serious work of reconceptualizing sexual identities

The Routledge Guidebook to Foucault's The History of Sexuality Chloe Taylor, 2016-11-03 Michel Foucault's *The History of Sexuality* is one of the most influential philosophical works of the twentieth century and has been instrumental in shaping the study of Gender Feminist Theory and Queer Theory But Foucault's writing can be a difficult book to grasp as Foucault assumes a familiarity with the intellectually dominant theories of his time which renders many passages obscure for newcomers to his work The Routledge Guidebook to Foucault's *The History of Sexuality* offers a clear and comprehensive guide to this groundbreaking work examining The historical context in which Foucault wrote A critical discussion of the text which examines the relationship between *The History of Sexuality* *The Use of Pleasure* and *The Care of The Self* The reception and ongoing influence of *The History of Sexuality* Offering a close reading of the text this is essential reading for anyone studying this enormously influential work

The Cultural Construction of

Sexuality Patricia Caplan, 1987 First Published in 1987 Routledge is an imprint of Taylor Francis an informa company *The Cultural Construction of Sexuality* Pat Caplan, 2013-11-05 First Published in 1987 Illustrates the argument that sexuality is not a thing in itself but a concept that can only be understood with reference to economic political and social factors

Sexuality Joseph Bristow, 2010-11-30 Theories of sexuality and desire are commonly used in literary and cultural studies In this illuminating study Joseph Bristow introduces readers to the fundamental critical debates surrounding the topic This fully updated second edition includes a historical account of sexuality from the Victorians to the present discussions of the most influential theorists including Freud Lacan Bataille Baudrillard Cixous Deleuze Irigaray and Kristeva a new and extended discussion of queer and transgender theory race ethnicity and desire a new preface summarising changes in the field since the first edition a new glossary annotated further reading section and bibliography Considering all of the major movements in the field this new edition is the ideal guide for students of literary and cultural studies **Three**

Contributions to the Theory of Sex Sigmund Freud, Abraham Arden Brill, 1916 *Three Contributions to the Theory of Sex* Sigmund Freud, Abraham Arden Brill, 1920
