LOST and PROFOUND Mark McKirdy, 2015-03-03 LOST and PROFOUND The Rejected Book Reviews by Famous People is a unique and hilarious collection of unpublished book reviews seemingly written by household names who have reached the top in film television journalism science music sport art business politics and literature Included among the reviewers are George W Bush David Letterman Madonna Gore Vidal Shirley MacLaine Arnold Palmer Elton John Gloria Steinem David Suzuki Walter Cronkite Salvatore Sammy the Bull Gravano Jimmy Swaggart and Monica Lewinsky All the books reviewed are real and the astonishing diversity of interests of the celebrities demonstrates that shallow perception can never be disguised as deep thought no matter how cleverly expressed As revealed in the book's Introduction Mark McKirdy acquired this collection when he successfully bid for a small dusty box at a Sotheby's auction in 2013 Upon his return to Oxford University where he was the anthropologist in residence he opened the box and like Howard Carter marveling at the treasures he'd just unearthed from Tutankhamun's tomb in 1922 the author was holding a golden collection of book reviews by many of the world's most significant people Each review had apparently been commissioned by the prestigious literary journal The London Review of Books and each for reasons never revealed received a soul crushing rebuff by way of a large red Rejected stamp As with all well written satire LOST and PROFOUND will give readers pause for thought seconds for chuckling minutes of laughing out loud and hours of fun and if the celebrities mentioned in the book didn't actually write the reviews cited they probably wish they had

Across the Secular Abyss William Sims Bainbridge, 2007-01-01 Across the Secular Abyss draws upon the best social scientific evidence to understand profound religious changes occurring in advanced societies today as previously separate fields of science converge leaving progressively less room for faith It finds that the positive functions of religion have been exaggerated are declining and are replaceable by benefits from new Transhumanist technologies however serious concerns are raised whether atheism is compatible with long term survival of the human species given falling birth rates
