The Complete Yoga of Emotional-Sexual Life Avatar Adi Da Samraj, 2008-10-16 The core practices of the emotionally and sexually balanced teachings on love intimacy and sexual relationships from the Realized Master Avatar Adi Da Samraj Teaches how to overcome the emotional

patterning that hinders healthy sexual relationships Presents a solitary yogic discipline to restore the bipolar integrity of the individual Shows how to entirely transcend emotional sexual patterns In all the domains of human life we now understand the need for an integration of body mind and spirit But despite this comprehension of the holistic nature of existence much of the teaching offered on sexuality even sacred sexuality concentrates on the physical practice to the detriment of emotional intimacy Avatar Adi Da Samraj explains that our emotional sexual life can only be made right through the process of restoring the bipolar balance of the body and by transcending the ego the illusory sense of separate existence He advocates that sexual practice initially become a solitary yogic discipline an embracing and reclaiming of one's own body to restore the bipolar integrity that is at the core of every human being Once this bipolar integrity is established he shows how a sexual practice of true intimacy free of clinging attachment is possible He also teaches that an unconscious early childhood reaction to the mother and father governs the emotional sexual life a reaction that must be understood and transcended The emotional sexual practices taught by Avatar Adi Da are centered in the understanding that love breaks the heart and show that learning how to have intimacy without ego based attachment is where profound practice begins **Yoga Journal**

Radebe,2018-11-29 This book in a nutshell explains what yoga is and how it works followed by an outline of its history and how it was developed in the East and adopted and adapted in the West The book describes health and how it is measured since a few medical books have their own definition of health saturated and described in the Western context It verifies how most people fail to define and measure their own state of health since they only think that they are unhealthy when something is wrong which has been influenced by what they have been socialised to think through the Western biomedical system This book takes a moment to compare and contrast the Eastern definition opposed to the Western point of view Furthermore it defines health in terms of energy systems Chapter four focuses on energy and recharging to maintain balance and free flowing quality and good volume for the state of health Finally the last two chapters discuss how yoga relates with other body energy systems and how yoga and energy therapies relate to everyday life At the end of the book there is a series of exercises which you can do to activate and cultivate your own energy and level of existence If yoga is new to you I hope that this book will inspire you to find spice in your life and begin to practice if you are already a practitioner I hope it will
