increasing both engagement and positive attitudes towards the training The current study measured the effectiveness by applying the bystander approach to sexual harassment training using bystander language in an interactive tabletop exercise Pre and post tests results found that participants in the engagement condition had higher satisfaction scores and a greater magnitude of change between and post test scores than in the non engagement condition However the results could only support a general trend when looking at the use of bystander versus accusatory language

web of 107 fluid mechanics 6 ed kundu cohen and dowling exercise 4.1 let a one-dimensional velocity field be $u = u(x)$ with $v = 0$ and $w = 0$ the density varies as $2 \cos \pi x$ find an expression for $u(x)$ if $u(0) = 1$ solution 4.1 here $u = u(r, \theta)$ and the density field is given so a solution for $u(x, y)$ might be found from the
