Sexual Orientation And Human Rights In American Religious Discourse:

Sexual Orientation & Human Rights in American Religious Discourse Saul M. Olyan, 1998 **Sexual Orientation and Human Rights in American Religious Discourse** Saul M. Olyan, Martha C. Nussbaum, 1998-07-02 Sexual orientation is a topic of intense debate within America's religious traditions. These discussions have had a significant impact on the formation of public policy as speakers who locate themselves squarely within religious traditions have articulated positions on both sides in recent arguments concerning gays in the military, civil rights protections for gays and lesbians, gay marriage, parenting and foster parenting, and benefits for partners of gay and lesbian employees of major corporations and institutions. This volume, which stems from a 1995 conference at Brown University, aims to promote both academic and public understanding of the different positions that exist on sexual orientation and its public policy dimensions within four major American religious traditions. Writers from within the Jewish community, the Roman Catholic Church, Mainline Protestant churches, and African American churches explore the history and tradition of their communities on same-sex orientation, discuss the moral stance they advocate, and consider the legal and public policy implications of that stance. For each of these traditions, two opposing views are represented, and a respondent frames the issue in a larger context. The book concludes with essays by Michael McConnell and Andrew Koppelman exploring how our society might find a *modus vivendi* in a state position of neutrality on the moral status of homosexuality. This book will appeal to a broad range of readers interested in these crucial issues and in the role the religious communities play in these debates while helping to foster the climate for a more reasoned and civil dialogue.

The Catholic Church, Morality, and Politics Charles E. Curran, Leslie Griffin, 2001 A collection of articles that looks at the interconnected relationships involving religion, morality, and public policy from a variety of opinions and voices.

Rethinking Sexual Identity in Education Susan Birden, 2004-10-22 Responding to wide-spread abuse of lesbian, gay, bisexual, transgender, and questioning persons (LGBTQs) in education, *Rethinking Sexual Identity in Education* examines the heterosexism inherent in both educational theory and practice, conceptualizing as *mis-educative* compulsory heterosexuality's stigmatization of out LGBTQs as outsiders. Reflecting upon the Outsiders Society Virginia Woolf envisioned in *Three Guineas* (1938) for daughters of educated men, this work re-names and re-conceives as *Out Siders* those people who side with the out in order to mitigate compulsory heterosexuality's *mis-educative* effects. Examining how *Out Siders* already bring theory and action to bear on sexual identity, Birden names and explicates six praxes used to educate about sexual identity. These praxes in re Sexual Identity range from ignoring or denigrating non-heterosexuality to queering discourse by de-centering normative gender roles. The author utilizes autobiographical and qualitative research narratives of LGBTQs' experiences in schooling, higher education, and community education to challenge the theoretical and practical weaknesses of these praxes in re Sexual Identity. Finding each to be lacking to test the practicality of each praxis, finding each to be lacking, Birden constructs an *Out Siders Praxis*. The significance of this proposed *Out Siders Praxis* lies in its

educative resistance against cynicism and powerlessness that silence oppressed LGBTQ voices and in its theoretical soundness as a guide for developing curricula that Out Siders can teach and learn in order to transform heterosexist practices and environments Birden's Out Siders Praxis affirms ethical values of liberty experimentation and discourse across difference while advocating that Out Siders invent and intervene with the attitude of artists
