The Language of Sex Education Georgia Carr, 2025-01-09 This book offers a deep dive into sex education pedagogy in the Australian context taking a close look at the language used to teach the key topics of consent and respect It examines questions students ask how teachers accommodate different beliefs in their classrooms and how students learn about more values based topics including consent respectful relationships and gender and sexuality diversity It also considers what teaching and assessment looks like over the course of a school term and what makes a successful student In short it answers the question how is sex education actually taught The Language of Sex Education provides the first book length treatment of the language of sex education offering a detailed account of pedagogy from the perspective of Systemic Functional Linguistics The study is situated in the Australian context though has broader relevance to places such as New Zealand North America and the United Kingdom whose sex education is historically and culturally comparable to that of Australia The book provides descriptions of the key topics of consent and respect illustrating how teachers impart technical knowledge and how they support students to adopt and challenge the nuanced values needed when engaging with sex education It does this through new descriptions of key linguistic resources of technicality and iconization that synthesize the central knowledge and values of the field Through these descriptions and analyses this book not only provides a detailed account of sex education pedagogy but also offers new insights into the role of language in building fields and building communities

Sex(uality) Education for Trans and Gender Diverse Youth in Australia Barrie Shannon, 2022-02-02 This book examines young trans and gender diverse Australians views of school based sex education The analysis is informed by a queer epistemology that acknowledges the systematic and institutional erasure of trans subjectivities through highly medicalised systems of categorisation Drawing on primary qualitative data the author emphasises the accounts of trans and gender diverse young people as they relate to sex education at school and how they undertake informal learning about sex gender and identity in other areas of their lives Ultimately the book problematises the assumption that the sex education classroom is the most appropriate vehicle for social justice education in relation to queer issues Queer issues and sex education tend to be packaged together discursively deliberately or by association in dominant media narratives However this discourse constrains queer identities to the realm of sex and health and therefore does not engage with the social citizenship of queer people Further this limits the capacity of schools and teachers to meaningfully

explore diversity in the classroom as sex education is front and centre in the so called culture wars about gender sexuality youth and schools

A History of Abortion and Contraception in Queensland, Australia, 1960-1989 Cassandra Byrnes, 2024-06-03 This book looks at the recent history of sex contraception and abortion in Australia's most conservative state Queensland. In western nations there has largely been a consistent increase in available contraception and access to abortion from the 1960s onwards yet there are a few geographical exceptions that resisted this trend including Queensland. Cassandra Byrnes highlights the multifarious ways sexuality and reproduction were continually constructed and challenged during the second half of the twentieth century and follows the responses of key groups to changing laws and attitudes in a time of local and global sexual and social revolutions. She explores interactions between identities of gender sexuality class age marital status and geography to illustrate how specific sexed bodies became liminal sites for legal and medical debate. This Queensland case study is contextualised within international debates concerning women's reproductive rights and will be of interest to students and scholars interested in the history of reproductive rights gender and sexuality.

Affective Sexual Pedagogies in Film and Television Kyra Clarke, 2017-02-17 Popular film and television hold valuable potential for learning about sex and sexuality beyond the information based model of sex education currently in schools. This book argues that the representation of complicated or messy relationships in these popular cultural forms makes them potent as affective pedagogical moments. It endeavours to develop new sexual literacies by contemplating how pedagogical moments that is fleeting moments which disrupt expectations or create discomfort might enrich the available discourses of sexuality and gender especially those available to adolescents. In Part One Clarke critiques the heteronormative discourses of sex education that produce youth in particularly gendered ways noting that rationality is often expected to govern experiences that are embodied and arguably inherently incoherent. Part Two explores public intimacy contemplating the often overlapping and confused boundaries between public and private.
