Monat-Haller, 1982 *Sexuality and Disabilities* Deborah P Valentine, Romel W Mackelprang, 2013-02-01 Individuals with disabilities are often desexualized in our society yet they have the same need for intimacy self worth and social belonging as people without disabilities *Sexuality and Disabilities* addresses persons with physical sensory intellectual and cognitive disabilities and their concerns in the areas of intimacy family issues sexuality and sexual functioning It offers suggestions for professionals who work with persons with these disabilities to help them work more competently with disabled persons in the sexuality arena These concrete ideas are excellent for staff training and education and for enhancing professional development for those working with persons with physical disabilities The contributing authors create an awareness that all people need individualized consideration and that the special needs of all individuals are important especially for those who may have previously been left to discover things on their own usually unsuccessfully *Sexuality and Disabilities* focuses on a wide range of disabilities including physical developmental and learning disabilities mental retardation and conditions that may have an impact on people later in life such as strokes heart disease or other chronic illness Chapters discuss education and support issues for both practitioners and clients Some of the topics examined include components of a staff training program on sexuality and disability specific recommendations for sexuality education and counseling with people with spinal cord injuries and other acquired severe neurological disabilities a program model serving parents with mental retardation and their children specific ways educational programming social work intervention and policy efforts can address the special learning needs of people with cognitive impairments sources of support and stress for families caring for developmentally disabled children an analysis of special vulnerabilities and challenges relating to sexual victimization that confront people with disabilities An extremely helpful tool for human service practitioners *Sexuality and Disabilities* is also a valuable resource for graduate and undergraduate students who have an interest in working with people with physical cognitive or mental disabilities and helping them explore this basic facet of their lives **Sexuality Counseling** Kay Frances

Schepp, 2013-08-21 First published in 1986 Sex education is a necessary component of sexuality counseling A practitioner needs to be a sensitive effective educator in order to help people remedy sex related problems and prevent future ones This program is about professional counseling and assumes that the reader has training or intends to obtain it in an established helping profession **The Myth of the Normal Curve** Curt Dudley-Marling, Alex Gurn, 2010 The Myth of the Normal Curve provides a much needed critique of commonly and even scientifically accepted notions of normality For too long we have supported an ideology of normality without much interrogation of the subject This book provides that interrogation Lennard J Davis Professor of English and Disability Studies University of Illinois at Chicago Book Jacket *Already Doing It* Michael

Gill, 2015-03-27 Why is the sexuality of people with intellectual disabilities often deemed risky or inappropriate by teachers parents support staff medical professionals judges and the media Should sexual citizenship depend on IQ Confronting such questions head on *Already Doing It* exposes the sexual ableism that denies the reality of individuals who despite the restrictions they face actively make decisions about their sexual lives Tracing the history of efforts in the United States to limit the sexual freedoms of such persons using methods such as forced sterilization invasive birth control and gender segregated living arrangements Michael Gill demonstrates that these widespread practices stemmed from dominant views of disabled sexuality not least the notion that intellectually disabled women are excessively sexual and fertile while their male counterparts are sexually predatory Analyzing legal discourses sex education materials and news stories going back to the 1970s he shows for example that the intense focus on stranger danger in sex education for intellectually disabled individuals disregards their ability to independently choose activities and sexual partners including nonheterosexual ones who are frequently treated with heightened suspicion He also examines ethical issues surrounding masturbation training that aims to regulate individuals sexual lives challenges the perception that those whose sexuality is controlled or rejected should not reproduce and proposes recognition of the right to become parents for adults with intellectual disabilities A powerfully argued call for sexual and reproductive justice for people with intellectual disabilities *Already Doing It* urges a shift away from the compulsion to manage deviance better known today as harm reduction because the right to pleasure and intellectual disability are not mutually exclusive In so doing it represents a vital new contribution to the ongoing debate over who in the United States should be allowed to have sex reproduce marry and raise children *National Library of Medicine Current Catalog* National Library of Medicine (U.S.), **Current Catalog** National Library of Medicine (U.S.), 1983 First multi year cumulation covers six years 1965 70 *Case Studies in Mental Health Treatment* Robert Kalina, 2021-05-13 The key aims of this text are to illustrate the use of various types of mental health treatments and to provide in depth examples of common psychological disorders supported by case studies The 34 journal articles in this book authored by practicing psychotherapists psychiatrists psychoanalysts and counselors describe the treatment of individual clients In most cases the authors discuss a client s psychological problem the treatment used with the client and the outcome This book is designed for use in courses in clinical counseling and abnormal psychology each article is followed by 1 a list of psychological terms for classroom discussion and 2 questions that call for students opinions on various aspects of the case *All God's Children* Gene Newman, Joni Eareckson Tada, 1993 A specialist in physical education collaborates with the bestselling author of *When Is It Right to Die* on a handbook for leaders and laypeople who minister to those who are mentally retarded learning disabled hearing and or visually impaired or otherwise physically disabled Provides a foundation for establishing a much needed area of ministry in the church Moody *SIECUS Report*, 2000 **Sexuality, Rape, and Mental Retardation** Deborah W.
