**Oxford Textbook of Palliative Medicine** Nathan Cherny,Marie Fallon,Stein Kaasa,Russell K. Portenoy,David C. Currow,2015-04-30 The definitive Oxford Textbook of Palliative Medicine now in its fifth edition has again been thoroughly updated to offer a truly global perspective in this field of extraordinary talent and thoughtfulness Updated to include new sections devoted to assessment tools care of

patients with cancer and the management of issues in the very young and the very old this leading textbook covers all the new and emerging topics since its original publication in 1993 In addition the multi disciplinary nature of palliative care is emphasized throughout the book covering areas from ethical and communication issues the treatment of symptoms and the management of pain This fifth edition of the Oxford Textbook of Palliative Medicine is dedicated to the memory of Professor Geoffrey Hanks pioneer in the field of palliative medicine and co editor of the previous four editions Winner in the Medicine category of the British Medical Association Book Awards this is a truly comprehensive text no hospital hospice palliative care service or medical library should be without this essential source of information      Nursing Patients with Cancer Nora Kearney, Alison Richardson, 2006-01-01 Nursing Patients with Cancer Principles and Practice is a major new text a comprehensive evidence based source book that provides a detailed foundation for adult cancer nursing It explains the essential social and scientific basis of modern cancer management and equips nurses with the key skills and knowledge required to work in cancer care teams The content is based upon assessment and intervention of patient and family needs and aims to prepare nurses to work with cancer patients and their families across a range of settings back cover      *Cancer* Vincent T. DeVita, Theodore S. Lawrence, Steven A. Rosenberg, 2010 Introducing the first volume of a new series Cancer Principles Practice of Oncology Annual Advances in Oncology This series of annual volumes will focus on the most significant changes in oncologic research and practice that have taken place during the preceding year Each volume identifies scientific and clinical areas in oncology that are rapidly changing and show a high potential for affecting the management of cancer patients in the future These areas may reflect current controversies in oncology and every effort is made to provide clear direction for the practicing oncologist      *Your Cancer Road Map* Kim Thiboldeaux, 2021-06-22 No one should have to face cancer alone Each year 1 8 million people are diagnosed with cancer in the United States Upon learning this difficult news individuals also have a minefield of complex information to navigate regarding treatment plans insurance coverage clinical trials and more Your Cancer Road Map Navigating Life with Resilience is a compassionate comprehensive guide for cancer patients their families and caregivers designed to take the guesswork out of these crucial decisions every step of the way For more than 35 years the Cancer Support Community CSC has been a trusted resource demystifying the emotional physical financial and logistical challenges related to cancer From CSC CEO Kim Thiboldeaux Your Cancer Road Map is a comprehensive guidebook providing advice and comfort at every point on the cancer journey from the moment of diagnosis to survivorship and beyond Your Cancer Road Map covers hard to talk about topics such as treatment options finances how cancer can affect your fertility or sexuality survivor care hospice care and end of life planning In the CSC tradition the book ensures that people impacted by cancer can live their lives to the fullest and enables them to gain a sense of control during what can be an overwhelming and chaotic time Now more than ever patients need the tools to participate fully in their healthcare and communicate their preferences and priorities to their healthcare team so that they can make the best

decisions for themselves and their loved ones while living with the highest possible quality of life Filled with incredible personal stories from people who could be your friends or neighbors as well as celebrities and influencers plus workbook pages checklists recommended resources and more Your Cancer Road Map will be a powerful companion for anyone with questions about cancer

Handbook of Psychotherapy in Cancer Care Maggie Watson, David W. Kissane, 2011-05-03 This new book by international experts in psycho oncology has arisen from the teaching academies offered by the International Psycho oncology Society It distills the wisdom and experience from the training manuals dedicated to individual psychological therapies and combines them into an accessible handbook for clinicians in cancer care today The editors have brought together leading researchers and therapists who provide accounts of the prominent models of psychotherapy currently being used in cancer care the key themes they address and the essential techniques needed to apply each approach successfully Helpful clinical illustrations are woven throughout the book to make overt the strategies found in each model Provides practical guidance about how to deliver a range of individual group couple and family interventions that have proven utility in cancer care Describes comprehensively each model of psychotherapy as taught by experts delivering the International Psycho Oncology Society s Educational Academy on cancer care for patients and their families Features practical suggestions on therapy delivery from the world s leading proponents of each therapy Serves as a valuable tool to assist teaching and to facilitate research into psychological interventions in oncology palliative care and bereavement Functions as a readily accessible resource for clinicians struggling to support someone effectively through its provision of insight into the common challenges and traps that arise when providing patients with emotional support This practical handbook will help not only psychiatrists psychologists and social workers but also physicians surgeons general practitioners and nurses interested in better understanding and supporting the patients and families they care for

Theories Guiding Nursing Research and Practice Joyce J. Fitzpatrick, Geraldine McCarthy, 2014-06-06 This book has its origins in courses taught by the editors and their collaborators for doctoral students It therefore addresses the need to focus on how theories can be applied in the real world of clinical practice and the research based on it Introductory and concluding sections make the case for the importance of theoretical frameworks when developing practice and research settings Eighteen chapters cover individual theoretical approaches While some such as the theory of human caring and transformational leadership theory will be familiar to many readers in the UK others cover new territory SCORE 4 5 stars John Adams honorary research associate Faculty of Nursing and Midwifery Royal College of Surgeons in Ireland Nursing Standard This is the first book to clearly and fully demonstrate the process of using theory to guide nursing research and professional practice It describes a step by step format for evaluating nursing theory s applicability to research a format that links theory both middle range and grand theory to research on a wide range of clinical populations and care delivery systems The book describes how theory analysis models are used to examine various nursing phenomena as they relate to nursing research and professional practice

and provides key examples of how this is accomplished The book takes the reader through the process of using a theory to guide research from inception of a research question to evaluation of future research International experts in theory related nursing research describe twelve theories that have previously been applied to research and practice and six theories that can be applied to future research and practice Using a consistent analytic framework each chapter applies a specific theory from either nursing psychology sociology or management to a particular clinical population or care delivery issue These encompass clinical administrative and educational nursing settings The consistent format facilitates ease of comparison across different theories Generous use of figures and tables further demonstrates the complex relationships between and among concepts embedded in the theories Key Features Demonstrates a systematic format for evaluating middle range and grand nursing theory s applicability to research Links theory to clinical practice at patient population and care delivery levels Provides a useful template for students of nursing disciplinary knowledge development Presents the scholarship of international researchers of theory related nursing Includes theories from nursing psychology sociology and management

**Medical Care of Cancer Patients** Sai-Ching Jim Yeung,Carmen P. Escalante,Robert F. Gagel,2009 Recent therapeutic advances in cancer treatment indicate that cancer is becoming a chronic disease rather than a killer This comprehensive text is the first to define and address the broad spectrum of acute and chronic internal medicine disorders that occur in cancer patients and cancer survivors as side effects of the disease itself or of the treatment regimens The authors cover nononcologic aspects of internal medicine such as anorexia obesity bone loss diabetes depression pain fatigue congestive heart failure skin disorders and pneumonia This book is conceived as a companion to standard internal medicine and oncology texts a comprehensive reference resource for internists caring for cancer patients and oncologists in practice The text is extensively indexed for easy access and retrieval of information *The American Cancer Society's Principles of Oncology* The American Cancer Society,2018-03-20 Developed by the American Cancer Society this new textbook designed for a wide range of learners and practitioners is a comprehensive reference covering the diagnosis of cancer and a range of related issues that are key to a multidisciplinary approach to cancer and critical to cancer control and may be used in conjunction with the book *The American Cancer Society's Oncology in Practice Clinical Management* Edited by leading clinicians in the field and a stellar contributor list from the US and Europe this book is written in an easy to understand style by multidisciplinary teams of medical oncologists radiation oncologists and other specialists reflecting day to day decision making and clinical practice Input from pathologists surgeons radiologists and other specialists is included wherever relevant and comprehensive treatment guidelines are provided by expert contributors where there is no standard recognized treatment This book is an ideal resource for anyone seeking a deeper understanding of cancer prevention screening and follow up which are central to the ACS's worldwide mission on cancer control **Sexual Dysfunction: Beyond the Brain-Body Connection** R. Balon,2011-10-11 During the last years human sexuality has been the focus of interest and study

by various disciplines In this volume a multidisciplinary team of international experts discuss contemporary issues of human sexuality from updates on diagnosis to the management of various sexual dysfunctions Reviews of the management of several female sexual dysfunctions the impact of cancer on sexual functioning the impact of trauma on sexual desire and function as well as the newest trends in sex therapy androgen deprivation treatment of sexual behavior and autogynephilia are discussed in detail Further the complex interplay between the field of human sexuality and the Internet psychological and cultural aspects of infertility are reviewed A large amount of clinical material on topics rarely covered in other volumes will prove invaluable reading to clinicians from various disciplines such as psychiatry psychology urology gynecology sexology and sex therapy Journal of the National Cancer Institute ,2005 **DeVita, Hellman, and Rosenberg's Cancer** Vincent T. DeVita, Steven A. Rosenberg, Theodore S. Lawrence, 2018-11-16 Publisher's Note Products purchased from 3rd Party sellers are not guaranteed by the Publisher for quality authenticity or access to any online entitlements included with the product Now updated online for the life of the edition DeVita Hellman and Rosenberg's Cancer Principles Practice of Oncology 11th Edition keeps you up to date in this fast changing field Every quarter your eBook will be updated with late breaking developments in oncology including new drugs clinical trials and more **Sexual Health, Fertility, and Relationships in Cancer Care** Maggie Watson, David Kissane, 2020-03-25 Sexual Health Fertility and Relationships in Cancer Care provides clinical management guidelines for the impact of cancer and oncology treatments on sexual health fertility and relationships Employing a practical toolkit format this volume addresses a spectrum of key topics including provision of onco fertility and sexual health support LGBTQ issues support for adolescents and young people effective psycho educational psycho sexual interventions and managing relationships for individuals and couples Part of the Psycho oncology Care Companion Guides for Clinicians series this concise pocket guide is an ideal resource for cancer medical specialists psycho oncologists in training specialist nurses nurse consultants and allied health professionals to use as a quick reference in everyday practice Pitched at intermediate to advanced level skills this companion guide can be used as a standalone or alongside existing oncology and psycho oncology training programs **Psycho-Oncology** Jimmie C. Holland, 2010-03-22 Psycho Oncology was the first comprehensive text in the field of psychosocial oncology and remains the gold standard today Written by 67 internationally known psychiatry and palliative care experts the resource is truly an essential reference for all providers of palliative care Joining Oxford Medicine Online this resource offers the best quality content in an easy to access format Online only benefits include downloading images and figures to PowerPoint and downloading chapters to PDF Cancer Nursing Jessica Corner, Christopher D. Bailey, 2009-03-16 The needs of cancer patients and their families are complex Yet still more complex are the powerful social and cultural forces that shape the delivery of cancer care and the way in which it experienced Cancer Nursing Care in Context addresses this by adopting a unique approach that situates cancer care in the context of society's attitudes to the disease and the broader everyday needs of both patients and their carers By combining evidenced based

information a critical view of care and treatment and first hand accounts of having cancer and caring for people with cancer the book provides a new perspective how best to deliver the care that patients truly require This second edition includes new chapters on prevention diagnosis symptoms self help and self management and living with cancer long term It also Addresses significant changes in cancer care including expansion of nursing roles the establishment of cancer networks and cancer collaborative projects Considers NICE guidance on Supportive and Palliative care Incorporates material on prevention and early detection Includes evidence tables based on relevant literature Cancer Nursing Care in Context is an invaluable resource for all those involved in the provision of cancer care and support to patients and their families
