Sexuation Renata Salecl, 2000-07-24 A Lacanian investigation of sexuality and sexual difference **Sexuation** Renata Salecl, 2000-07-24 A Lacanian investigation of sexuality and sexual difference **Current Critical Debates in the Field of Transsexual Studies** Oren Gozlan, 2018-03-13 Current Critical Debates in the Field of Transsexual Studies introduces new thinking on non conforming gender representation addressing transsexuality as a subjective experience that highlights universal dilemmas related to how we conceive identity and exploring universal questions related to gender its objects objections and obstacles This book seeks to disassemble prejudicial orientations to the challenges and the everydayness of transsexuality and build new understanding and responses to issues including medical biases the problem of authenticity and the agency of the child Oren Gozlan leads an examination of three central pressures transformation of a medical model the social experience of becoming transgender and the question of self representation through popular culture The chapters reframe several contemporary dilemmas such as authenticity pathology normativity creativity the place of the clinic as a problem of authority the unpredictability of sexuality the struggle with limits of knowledge a demand for intelligibility and desire for certainty The contributors consider sociocultural theoretical therapeutic and legal approaches to transsexuality that reveal its inherent instability and fluidity both as concept and as experience They place transsexuality in tension and transition as a concept as a subject position and as a subjectivity The book also reflects the way in which political and cultural change affects self and other representations of the transsexual person and their others asking how does the subject metabolize the anxieties that relate to these transformations and facilitations How can the subject respond in contexts of hostility and prohibition Offering a much needed interdisciplinary exploration Current Critical Debates in the Field of Transsexual Studies will appeal to psychoanalysts and psychotherapist as well as psychologists and scholars of gender studies cultural studies and sociology **Antigone, in Her Unbearable Splendor** Charles Freeland, 2013-06-01 A study of Lacan's engagement with the Western philosophical traditions of ethical and political thought in his seventh seminar and later work **Asexuality and Freudian-Lacanian Psychoanalysis** Kevin Murphy, 2022-12-05 Asexuality and Freudian Lacanian Psychoanalysis Towards a Theory of an Enigma proposes that asexuality is a libidinally founded desire for no sexual desire a concept not included in psychoanalytic theory up to now Asexuality is defined as the experience of having no sexual attraction for another person as an emerging self defined sexual orientation it has received practically no attention from psychoanalytic research This book is the first sustained piece of exploratory and theoretical research from a Freudian Lacanian perspective Using Freudian concepts to understand the intricacies of human sexual desire this volume will also employ Lacanian conceptual tools to understand how asexuality might sustain itself despite the absence of Other directed sexual desire This book argues that asexuality holds a mirror to contemporary sexualized society which assumes sexual attraction and eroticism as the benchmarks for experiencing sexual desire It also argues that asexuality may be a previously

unrecognized form of human sexuality which can contribute new understandings to the range and breadth of what it means to be a sexual being This book will be of interest to anyone in the area of asexuality or sexuality psychoanalysts psychotherapists psychologists psychiatrists university lecturers researchers students or those simply curious about the possibilities of the human sex drive Lacan and Critical Feminism Rahna McKey Carusi,2020-12-29 This book takes a critical feminist approach to Lacan s fundamental concepts merging discourse and sexuation theories in a novel way for both psychoanalysis and feminism and exploring the possibility of a feminist subject within a non masculine logic In Lacan and Critical Feminism Carusi merges Lacan s theories of discourse and sexuation not only from a gender sexuality angle but also from a literary feminist and women s studies framework By drawing examples from literature film art and socio political movements to focus on discourse and sexuation the text examines how tropes impact the subject s positionality within any discourse mode The book also uses women s collective experience and action to illustrate ways that women have repositioned dominant narratives discursively This text represents essential reading for researchers interested in the relationship between Lacan and feminist theory Evolving Lacanian Perspectives for Clinical Psychoanalysis Raul Moncayo,2018-03-26 This book presents an evolving Lacanian reading of the psychoanalytic theory of narcissism of the phases within Oedipus transference and within different types of analytic treatments Sexual difference between psychical masculinity and femininity is formulated as a negative dialectic both sexes are not without having and not having the phallus across levels of logical organization and the three registers of experience Many clinical examples and vignettes are offered to illustrate Lacanian theory the permutations within sexuation as well as the various principles of Lacanian clinical practice The Lacanian multiform criterion for the practice of psychoanalysis is presented as an alternative to the post Freudian notions of a standard frame or a holding environment The criterion extends the use of psychoanalysis to a larger group of clinical socio economic and multicultural populations Finally the book explores the criteria used for the authorization of the analyst and how supervision differs from analysis and from the teacher student and lover beloved relationships **Sociology Through the Projector** Bulent Diken,Carsten Bagge Laustsen,2008-10-01 Sociology through the Projector takes issue with the question of how contemporary film can help answering the general abstract but still urgent question what is the social today This book explains the performative relation to contemporary social theory in which cinema functions as a tool for social diagnosis There is much to be learned about social theory through an encounter with films as films are part and parcel of the society they portray Increasingly more lay knowledge about social problems and facts stems from cinema as it offers to large audiences a popular and pedagogical introduction to social knowledge Social theory cannot avoid a critical engagement with cinema as cinema interprets invents displaces and distorts the object of sociological inquiry This book will provide a deeper understanding of contemporary social theory as the chosen films will work as a pedagogical route into contemporary social theory The films represent a mix of European and American blockbusters and more aesthetically orientated films The authors

question several dominant topics and concerns within social theory and film studies Firstly by cross examining a series of concepts such as identity representation memory and surveillance filming social behaviour which are of concern to both film theory and social theory Secondly by trying to develop imaginative approaches to standard social concerns such as exclusion gender roles and inequalities power infantilisation and commodification of the social and psychological bonds This book will be a great resource for students and researchers of Sociology Contemporary Social Theory Film Studies and Cultural Studies

Men's Bodies Judith Still,2019-08-07 No detailed description available for Men s Bodies *Black Men, Black Feminism* Jared Sexton,2018-03-06 A brief commentary on the necessity and the impossibility of black men s participation in the development of black feminist theory and politics Black Men Black Feminism examines the basic assumptions that have guided and misguided black men s efforts to take up black feminism Offering a rejoinder to the contemporary study of black men and masculinity in the twenty first century Jared Sexton interrogates some of the most common intellectual postures of black men writing about black feminism ultimately departing from the prevailing discourse on progressive black masculinities Sexton examines by contrast black men s critical and creative work from Charles Burnett s Killer of Sheep to Jordan Peele s Get Out to describe the cultural logic that provides a limited moral impetus to the quest for black male feminism and that might if reconfigured prompt an ethical response of an entirely different order **Lacan and Fantasy**

Literature Josephine Sharoni,2017-07-03 Eschewing the all pervading contextual approach to literary criticism this book takes a Lacanian view of several popular British fantasy texts of the late 19th century such as Bram Stoker s Dracula revealing the significance of the historical context the advent of a modern democratic urban society in place of the traditional agrarian one Moreover counter intuitively it turns out that fantasy literature is analogous to modern Galilean science in its manipulation of the symbolic thereby changing our conception of reality It is imaginary devices such as vampires and ape men which in conjunction with Lacanian theory say something additional of the truth about primarily sexual aspects of human subjectivity and culture repressed by the contemporary hegemonic discourses *The Expulsion of the Other* Byung-Chul Han,2018-01-08 The days of the Other are over in this age of excessive communication information and consumption What used to be the Other be it as friend as Eros or as hell is now indistinguishable from the self in our narcissistic desire to assimilate everything and everyone until there are no boundaries left The result is a terror of the Same lives in which we no longer pursue knowledge insight and experience but are instead reduced to the echo chambers and illusory encounters offered by social media In extreme cases this feeling of disorientation and senselessness is compensated through self harm or even harming others through acts of terrorism Byung Chul Han argues that our times are characterized not by external repression but by an internal depression whereby the destructive pressure comes not from the Other but from the self It is only by returning to a society of listeners and lovers by acknowledging and desiring the Other that we can seek to overcome the isolation and suffering caused by this crushing process of total assimilation *Peripheral Insider*

Khaled D. Ramadan, 2007 With increased mobility and transnational interaction worldwide internationalism in contemporary visual art is no longer exclusively a western issue Contemporary visual art includes works by expatriate artists who have settled in the west as well as artists outside the west reflecting on everyday events in a globalized world *Peripheral Insider* examines the conditions of expatriate artists from various angles the historical and colonial roots of the issue positions among theorists dealing with expatriate artists in the west the role of established art institutions and examples of recent developments in the field *Peripheral Insider* argues that expatriate art or internationalism in visual art is a phenomenon with a specific history closely related to colonial and post colonial experiences The contributors elucidate the book's main theme on various theoretical levels and set forth their analyses of a number of issues relevant to new interpretations of the post colonial agenda

Terror and Its Discontents Caroline Weber, 2003-01-01 Camille Desmoulins a journalist writing under the Montagnard regime of 1793-94 remarked that France's government had replaced the language of democracy with the cold poison of fear which paralyzed thought in the bottom of people's souls and prevented it from pouring forth at the tribunal or in writing How this happened how the Reign of Terror reached even into the realms of thought and language is the subject of Caroline Weber's book a revealing look into the paradoxical embargo on free expression that underpinned the Robespierrists self proclaimed despotism of liberty during the French Revolution Weber examines Jean Jacques Rousseau's and the Robespierrists articulation of a series of initiatives designed to curtail and control the dissemination of alternative political and philosophical messages in the republic Here Weber underscores the internal contradictions and limitations of an enterprise that promised universal freedom while oppressing particularism and that railed against the very language that it was compelled to adopt as a principal political tool The book then focuses on two eloquent contemporary critics of this phenomenon Desmoulins and the Marquis de Sade the infamous libertine author Weber demonstrates how Desmoulins reconfigured the Montagnard regime's rhetoric to conjure up a political system based on tolerance not terror and how Sade deftly parodied the Robespierrists brutality and hypocrisy proposing a republic based on the ruthless elimination of dissident voices and on the unabashed celebration of despotism and bloodshed A balanced account of how the discourse of totality actually restricted particular freedoms in the wake of the French Revolution this book provides a highly original and timely exposition of the political uses of rhetoric and of the links between language and power

Science and Truth, 2000

Absolute Recoil Slavoj Žižek, 2015-10-06 A contemporary philosophical masterwork from one of the world's best known public intellectuals *New York Review of Books* Philosophical materialism in all its forms from scientific naturalism to Deleuzian New Materialism has failed to meet the key theoretical and political challenges of the modern world This is the burden of philosopher Slavoj Žižek's argument in this pathbreaking and eclectic new work Recent history has seen developments such as quantum physics and Freudian psychoanalysis not to speak of the failure of twentieth century communism shake our understanding of existence In the process the dominant tradition in Western philosophy lost its

moorings To bring materialism up to date i ek himself a committed materialist and communist proposes a radical revision of our intellectual heritage He argues that dialectical materialism is the only true philosophical inheritor of what Hegel designated the speculative approach in thought Absolute Recoil is a startling reformulation of the basis and possibilities of contemporary philosophy While focusing on how to overcome the transcendental approach without regressing to na ve pre Kantian realism i ek offers a series of excursions into today s political artistic and ideological landscape from Arnold Schoenberg s music to the films of Ernst Lubitsch **Žižek through Hitchcock** Laurence Simmons,2021-05-12 Maverick Slovenian cultural theorist philosopher and psychoanalyst Slavoj i ek has made his name elaborating the complexities of psychoanalytic and Marxist theory through the exotic use of examples from film and popular culture But what if we were to take i ek s pretensions to cinephilia and film criticism seriously In this book adopting i ek s own tactic of counterintuitive observation we shall read the corpus of Alfred Hitchcock s films one of the great achievements of Western civilization and i ek s idiosyncratic citation of them in order to arrive at a position where we can identify the core commitments that inform i ek s own work From the practice of Hitchcock we shall hopefully arrive at a theory of i ek just as i ek in his collection Everything You Always Wanted to Know About Lacan But Were Afraid to Ask Hitchcock Verso 1992 arrives at a theory of Lacan from the practice of Hitchcock To achieve this goal each chapter looks at a specific film by Hitchcock and explores a specific key concept crucial to the elaboration and core of i ek s ideas Analysing the Cultural Unconscious Lilian Munk Rösing, Henrik Jøker Bjerre, Brian Benjamin Hansen, Kirsten Hyldgaard, Jakob Rosendal, 2020-01-23 What are we doing when taking psychoanalysis from the couch to the analysis of society culture and arts How is it possible to do so How is it possible to move from singular experiences to universal structures detected in culture and society Could psychoanalysis applied to art works become more sensitive to their aesthetics form Psychoanalysis is often disclaimed as non scientific since its main object the unconscious has no positive existence This book however proposes psychoanalysis to be a science of the signifier It takes as its object the signifier the signifying part of the sign insisting that it always says more or less than intended because its very materiality carries unintended messages By defining the object of psychoanalysis as the signifier this volume argues that we can speak of psychoanalysis as a science even if it is closer to semiotics than biology Analysing the Cultural Unconscious builds on this idea by arguing that the analysis of the signifier is the way to understand not only the individual unconscious but also the cultural one Replacing a person s monologue on the couch with ideology criticism or a piece of art applied psychoanalysis allows us to analyse culture and the arts in a new way uncovering the cultural unconscious

Fantasy and Political Violence Margarita Palacios, 2009-08-13 Since torture is back in the international headlines now the study by Margarita Pa cios *Fantasy and Political Violence* should be required reading Her book centered in the analysis of Chilean anticommunism of the early 1970s analyzes a pheno non which is difficult to understand the non rational side of political violence We do not yet have studies dealing with the problem as it pertains to the recent history of the United States

aside from massive journalistic revelations and legal investigations concerning what has happened. Among other things we lack a theoretical analysis such as the one undertaken here by Dr Palacios. Her focus on Chile is quite salutary because the political institutions, laws and traditions of Chile before the military coup of 1973 were at least as opposed to what happened during the dictatorship as U.S. institutions, laws and traditions were to the admittedly much less violent emergency regime from 2001 to 2008. Thus the question how in a constitutional democracy extreme violence can be possible can be raised with great advantage in this particular case study. In my view the work focuses above all on the imaginary significations that link the underlying agreement of three constituencies in such a way that the massive use of torture as well as disappearances of people in the Chilean case became possible.

The Political Psychology of the Veil Sahar Ghumkhor, 2019-11-21

Veiled women in the West appear menacing. Their visible invisibility is a cause of obsession. What is beneath the veil more than a woman? This book investigates the preoccupation with the veiled body through the imaging and imagining of Muslim women. It examines the relationship between the body and knowledge through the politics of freedom as grounded in a natural body in the index of flesh. The impulse to unveil is more than a desire to free the Muslim woman. What lies at the heart of the fantasy of saving the Muslim woman is the West's desire to save itself. The preoccupation with the veiled woman is a defense that preserves neither the object of orientalism nor the difference embodied in women's bodies but inversely insists on the corporeal boundaries of the West's mode of knowing and truth making. The book contends that the imagination of unveiling restores the West's sense of its own power and enables it to intrude where it is other, thus making it the centre and the agent by promising universal freedom all the while stifling the question of what freedom is.
