Sg Marriage And Families:

Chinese Family and Marriage in Singapore Maurice Freedman,1970 **The Contemporary Family in Singapore** Eddie C. Y. Kuo,Aline K. Wong,1979 Twelve essays on the sociology of the family in Singapore in the modern period

Marriage Dissolution in Singapore Paulin Straughan,2009-01-31 The meanings of marriage and divorce have shifted significantly in the past few decades particularly in economies in Asia where rapid economic growth has transformed the social fabric This book arises from possibly the most comprehensive study of divorce done in Singapore The study highlights the root causes of divorce and focuses on the impact of changing ideologies on marital stability Themes that surfaced in the appreciation of why some marriages fail include women s changing expectations and their roles in the family courtship expectations and the role of romantic love parenthood demands and work stressors The discussions are drawn from data collected from a large scale representative survey of a study group comprising dissolved marriages as well as a control group of intact marriages Scholars investigating marriage and family in Asia will find the rich data content useful The sociological insight makes the book a relevant read for all interested in family dynamics

Intercultural Variation in Family Research and Theory Roma S Hanks,Marvin B Sussman,2014-05-12 Intercultural Variation in Family Research and Theory sets forth 23 critical reviews in a 2 volume set that document the development of family research and theory in various societies around the world Focusing on modern research while drawing on the historical roots of theoretical and methodological approaches employed in the study of family this collection not only increases your knowledge about the status of family research in various countries but also inspires cross national research among researchers and scholars The societies being studied have been grouped by region Volume I contains the set s Introduction and contributions from the Far East the Baltic region Australia and South Africa Volume II covers the Middle East Western Europe Scandinavia and also includes the Index The materials in these two volumes are the result of the charge given to scholars of 23 societies to review the development of family theory and research in their homelands Their obligation was to provide an analytic report telling a story from their perspective of reality The book s editors now present some of the commonality of experiences and trends of the researchers and interpret country differences

and similarities from their writings *Intercultural Variation in Family Research and Theory* holds numerous suggestions for your investigations into the family field You ll find that the set adds to the body of knowledge on comparative family analysis and raises concerns and issues for future research The questions addressed in this book include how gender of the investigator influences choice of research topics how funding sources shape the research agenda what influence a researcher s career trajectory has on research topics methods and procedures why psychological and sociological frameworks and methodologies are commonly used in family research how political policy influences and dictates theory development and research what to do about the multitude of new questions that inevitably arise from such intercultural research

Singapore's Multiculturalism Chan Heng Chee, Sharon Siddique, 2019-03-15 Since independence in 1965 Singapore has developed its own unique approach to managing the diversity of Race Religion Culture Language Nationality and Age among its citizens This approach is a consequence of many factors including its very distinct ethnic makeup compared with its neighbours its ambitions as a globally oriented city state and its small physical size Each of these factors and many others have presented Singapore society with a range of challenges and opportunities and will in all likelihood continue to do so for the foreseeable future In the writing of this book the author team set themselves the task of projecting the impact of current domestic and international social trends into the future to anticipate what Singapore society might look like by around 2040 In doing so they analyse the particular path that Singapore has taken since independence in comparison with other multicultural societies and with regard to the balance between the necessity of forging a new national identity after British rule and departure from Malaysia and the need to ensure that Singapore s ethnic minority populations remain socially enfranchised They further consider how current trends may develop over the next couple of decades what new challenges this may present to Singapore society and what might be the likely responses to such challenges In this book Singapore is a case study of a global city facing the challenges of developed world modernity in frequently acute ways *Interethnic Marriage in Singapore* Riaz Hassan, Examines an important aspect of inter ethnic relations namely inter ethnic marriage in Singapore one of Southeast Asia s most ethnically heterogenous societies With chapters on the sociological significance sociological factors and types of such marriage traditional sociocultural organization and ethnic marrying out rates and an assessment of findings and research possibilities Routledge Handbook of Families in Asia Stella R. Quah, 2015-03-24 Research on the family has expanded considerably across Asia but studies tend to be fragmented focusing on narrow issues within limited areas cities towns small communities and may not be accessible to international readers These limitations make it difficult for researchers students policy makers and practitioners to obtain the information they need The Routledge Handbook of Families in Asia fills that gap by providing a current and comprehensive analysis of Asian families by a wide range of experts in a single publication The thirty two chapters of this comparative and multi disciplinary volume are organized into nine major themes conceptual approaches methodological issues family life in the context of culture family

relationships across the family life cycle issues of work and income stress and conflict family diversity family policy and laws and environmental setting of homes Each chapter examines family life across Asian countries studying cultural similarities and differences and exploring how families are changing and what trends are likely to develop in the future To provide a fruitful learning experience for the reader each chapter offers examples relevant data and a comprehensive list of references Offering a complete interdisciplinary overview of families in Asia the Handbook will be of interest to students academics policy makers and practitioners across the disciplines of Asian Studies Sociology Demography Social Work Law Social Policy Anthropology Geography Public Health and Architecture *International bibliography of research in marriage and the family* Joan Aldous, 1967 [Marriage Migration, Family and Citizenship in Asia](#) Tuen Yi Chiu, Brenda S.A.
