Sg T A Corporate Finance:

Handbook of Singapore — Malaysian Corporate Finance Tan Chwee Huat, Kwan Kuen-Chor, 2014-05-20 Handbook of Singapore Malaysian Corporate Finance discusses topics that are relevant to the acquisition of funds by Singaporean and Malaysian corporations. The book is comprised of 19 chapters that cover the domestic sources of corporate funding and various aspects of international finance. The coverage of the text includes financial institutions and markets, exchange rate systems and policies, and the role of Singaporean and Malaysian stock exchanges. The book also deals with the taxation aspects of corporate finance, the futures market, and financing from overseas. The text will be of great use to financial managers, bankers, and professional investors who want to be more aware of the Singaporean and Malaysian corporate finance.

Corporate Financial Distress and Bankruptcy Edward I. Altman, Edith Hotchkiss, 2010-03-11 A comprehensive look at the enormous growth and evolution of distressed debt, corporate bankruptcy, and credit risk default. This Third Edition of the most authoritative finance book on the topic updates and expands its discussion of corporate distress and bankruptcy, as well as the related markets dealing with high yield and distressed debt, and offers state-of-the-art analysis and research on the costs of bankruptcy, credit default prediction, the post-emergence period, performance of bankrupt firms, and more.

Financing of Business in Singapore Chwee Huat Tan, 1996 This book provides some basic local information on the sources of financing in Singapore. The topics covered include an introduction to the various sources of financing for business, factoring, account receivable financing, and leasing, various business assistance schemes provided by the government, franchising, and support provided by the National Productivity Board, raising funds through public listing, and raising venture capital.

Financial Law in the Netherlands Marcel C. A. van den Nieuwenhuijzen, 2010-09-24 The Netherlands is one of a handful of countries in which bank enterprise and national financial law give rise to a large number of international financial transactions. It is important then for practitioners in other countries to gain more than a notional understanding of the specific features of Dutch financial law, as well as a clear working knowledge of how Dutch financial law interacts with supranational regulatory and policy regimes affecting financial transactions. Toward this end, this very useful book provides a practical but nevertheless thorough survey of Dutch financial law, with lucid explanations of such topics as the following: specific rules applicable to investment institutions; specific rules applicable to debt instruments offering securities in both primary and secondary markets; set-off and calculation of obligations of market participants; netting structures for custody and book entry; transfer of securities; obtaining and terminating listings; mandatory bids; competing bids; friendly and unfriendly bids under public offering regulations; alternative investment funds and fund governance; meaning, jargon, and function of derivatives; forwards, futures, options, swaps, etc.; securities repurchase and lending transactions; covered bond regulations; caretaking duties in private and public law; structure of legal proceedings of a prospectus liability claim; unfair commercial practices; rules; case law in insider trading and market manipulation; and securities litigation in Dutch.

private criminal and administrative law Written in clear easy to follow English this book makes Dutch financial law accessible to lawyers business persons and others whose work entails financial transactions in the Netherlands It also serves as an admirable text for students and academics in the field of financial law **Trade Credit and Risk Management** Lucia

Gibilaro,2018-12-18 This book offers managers a complete analysis of the various issues of credit risk management for trade credit financing instruments supported by applications to various types of markets and presents an analysis on risks associated with trade credit in supply chains Trade credit finance is characterized by strong attractiveness deriving from risk mitigation but the plurality of sources of credit risk default and dilution risk requires the implementation of a credit risk management system that exploits the broad knowledge developed by financing supply relationships Consequently financiers could be hindered from developing a full understanding of the underwritten risks and are thus unable or only partially able to evaluate their full potential to expand financial relationships over the credit capability of a single counterparty with respect to the supplier debtor pair The richness of the information available in trade credit financing is not an obstacle for the development of a modern risk management framework but it must be calibrated to avoid distortions in the implementation In addition risk analysis in the supply chain is not limited to the crises of individual members but must assess the effects of such crisis on the entire supply chain and assess the specific risks of contagion and the favorable conditions for the propagation This book offers managers a complete analysis of the various issues of credit risk management for trade credit financing instruments supported by applications to various types of markets and presents an analysis on risks associated with trade credit in supply chains **Financing for Entrepreneurs and Businesses** Chwee Huat Tan,2001 *Understanding*

Market, Credit, and Operational Risk Linda Allen,Jacob Boudoukh,Anthony Saunders,2009-02-04 A step by step real world guide to the use of Value at Risk VaR models this text applies the VaR approach to the measurement of market risk credit risk and operational risk The book describes and critiques proprietary models illustrating them with practical examples drawn from actual case studies Explaining the logic behind the economics and statistics this technically sophisticated yet intuitive text should be an essential resource for all readers operating in a world of risk Applies the Value at Risk approach to market credit and operational risk measurement Illustrates models with real world case studies Features coverage of BIS bank capital requirements Competition Culture and Corporate Finance Terry Harris,2023-04-24 This book introduces a measure of firms competition culture based on a textual analysis and natural language processing NLP of firms 10 K filings Using this measure the book explores the relationship between competition culture and various phenomena in corporate finance specifically institutional ownership structure stock return performance idiosyncratic stock price crash risk meeting beating analysts earnings expectations and earnings management activity for a large sample of US based financial and non financial firms In particular the book provides evidence that transient institutional ownership intensifies firms competition culture while dedicated institutional ownership lessens it In addition the book s findings suggest that firms with greater

levels of competition culture achieve higher levels of short term stock return performance experience greater incidence of idiosyncratic stock price crashes and are more prone to meet beat analysts forecast and engage in accruals based earnings manipulation Finally the book examines the role played by competition culture in financial firms i e banks Specifically the book explores the effect of competition culture on bank lending and shows that banks with greater levels of competition culture are generally more prone to engage in procyclical lending activity The findings of the book have significant policy implications and will be of interests to regulators accounting standard setters managers and those charged with firm governance career academics and researchers graduates and those generally interested in the role played by corporate culture in the related fields of finance economics and accounting *Corporate Finance* ,2001 **Lessons in Corporate**
