Government Policy and Critical Success Factors of Small Businesses in Singapore Harold Siow Song Teng, 2011-09-22 One of the main economic players responsible for Singapore's economic success is its small and medium sized enterprises or SMEs Their overall success has helped propel the country and its people forward From economic policies to politics Singapore is a planned and regulated economy Singapore's economic success story is actually the result of a form of capitalism carefully calibrated and controlled by the government An important element or aspect of good critical success factors CSFs emerges from the role being played by the government The existence of good government or public policies that are pro business is vital for the success of firms Despite the fact that government policies and CSFs are widely studied in areas around the world including in Singapore there is no comprehensive prediction model available to test if firms have potential to be successful or are more prone to failures Much research investigates the non financial factors contributing to success versus failure of small firms but empirical tests of the predictability of these factors are less common This book which is primarily quantitative positivist in nature will attempt to fill this gap

Journal of Small Business and Entrepreneurship, 1986 **The Making of Women Entrepreneurs in Hong Kong** Priscilla Pue Ho Chu, 2003-12-01 This book provides a detailed account of Chinese

industrial entrepreneurs and describes and explains the phenomena of women entrepreneurship in Hong Kong. It addresses two main issues: first, the characteristics of Chinese entrepreneurship and women entrepreneurs; second, the factors that constitute the making of Chinese women entrepreneurs in Hong Kong. From in-depth personal interviews, Priscilla Chu examines the entrepreneur as a person and as a member of family organization and society. Having thus established the characteristic features of Chinese entrepreneurship in general and female entrepreneurship in particular, the author builds a model to summarize the making of female entrepreneurs in Hong Kong, a model which is significantly different from that for male and Western counterparts. The study analyses the distinct Chinese entrepreneurship in relation to familism, Chinese work ethics, family and organizational conditions, and societal and cultural contexts. *A General History Of The Chinese In Singapore* Chong Guan Kwa, Bak Lim Kua, 2019-06-21. A General History of the Chinese in Singapore documents over 700 years of Chinese history in Singapore from Chinese presence in the region through the millennium-old Hokkien trading world to the waves of mass migration that came after the establishment of a British settlement and through to the development and birth of the nation. Across 38 chapters and parts, readers are taken through the complex historical mosaic of Overseas Chinese social, economic and political activity in Singapore and the region, such as the development of maritime junk trade, plantation industries and coolie labour, the role of different bangs, clan associations and secret societies, as well as Chinese leaders, the diverging political allegiances including Sun Yat-sen's revolutionary activities and the National Salvation Movement leading up to the Second World War, the transplanting of traditional Chinese religions, the changing identity of the Overseas Chinese and the developments in language and education policies, publishing arts and more. With *Pride in our Past, Legacy for our Future* as its key objective, this volume aims to preserve the Singapore Chinese story, history and heritage for future generations, as well as keep our cultures and traditions alive. Therefore, the book aims to serve as a comprehensive guide for Singaporeans, new immigrants and foreigners to have an epitome of the Singapore society. This publication is supported by the National Heritage Board's Heritage Project Grant. Related Link s **Journal of Small Business and Entrepreneurship**, 1985 [Competitiveness of the Singapore Economy](#) Mun Heng Toh, 1998. Dialogues and interviews with managers and CEOs of industries in the private and public sectors are also included. **Proceedings of the 1998 Academy of Marketing Science (AMS) Annual Conference** John B.
