The Revelation of St. John the Divine - Volume 2
Herb Fitch, 2011-11-28. This is the second book of two volumes which completes Herb Fitch's interpretation on The Revelation of St. John the Divine. It was transcribed word for word from the tapes of classes 14 through 25 of the Revelation Seminar he gave in 1970. Over the centuries, John's Revelation was in plain sight yet not understood, and the reason is because only the Christ Mind in man can reveal the Truth of Being. Not until the year 1970 did a man who also experienced the Mind which was in Christ Jesus sit still in meditation over many months until at last the entire message of the Revelation was revealed once again. That man was Herb Fitch. For those of you who have learned to make that contact with Spirit within, this book will now take you further on the Spiritual path. This book will show you how to let that Spirit take over your life. In other words, it will help you to die out of humanhood and be a transparency for Christ, bringing to you an actual awareness of your own Christhood. It is suggested that you find a quiet place and read only one chapter at a time until something calls to you from these pages. Then put these writings down and walk away, find a place and sit down to meditate on what has stirred you within. I can tell you with a certainty born of experience that you can walk in another Dimension right here and right now.

a Kingdom an inner Temple not made with hands incomprehensible to the human mind It is the Dimension in which your Eternal Self walks It is the Kingdom in which your Spiritual identity resides It is an inner Presence the Spirit closer than breathing nearer than hands and feet and it must take over your entire living experience both within and without Only then will you be obeying the message You must be born of the Spirit *Walking Shadows* Ib Johansen,2015-08-25 *Walking Shadows* focuses on the American fantastic and the American grotesque attempting in this manner for the first time to establish an overview of and a theoretical approach to two literary modes that have often been regarded as essential to an understanding of the American cultural canon The central importance of these two literary forms has been pointed out earlier by important theorists such as Stanley Cavell David Reynolds and William Van O Connor A number of literary works from the beginning of the nineteenth to the end of the twentieth centuries are taken up in order to illustrate the inherent links or family resemblances between the two modes with special reference to the way in which a Bakhtinian reading may facilitate our appreciation of their status within the canon These excursions into the House of Fantastic and Grotesque Fiction may be of interest not only to hardcore aficionados but also to philosophically minded readers in general in particular perhaps to those who have paid acute attention to debates on late twentieth and early twenty first century post structuralism and deconstruction where the classic positions of Foucault Derrida et al still appear to be relevant **Your Baby's First Year Week by Week** Glade B.
