David J Conway, 2019-05-06 This book is written to bridge the gap between science and our old and new beliefs It is a twelve step bridge that holds within subjects such as the science of numbers energy attraction and infinity how thoughts create our reality science and the universe the illusion of time the powerful presence of the now and manifestation When your consciousness awakens within the present moment you begin to realize that there is a massive infinite empire of intelligence beyond thought and that thought is only the tip of the iceberg of that intelligence Each step on the bridge holds infinity and truths perhaps beyond our own comprehension but once over the bridge everything makes perfect sense This book shows us how to not only use our thoughts to create our reality but also turn sixty thousand thoughts into one powerful thought that creates manifestation Each subject is infinite The choice is yours how far down that rabbit hole do you want to go Welcome to the journey of awakening     The World's Work ,1910     **The Bridge to Reality** Paul Ferrini,1990 A heart centred approach to A Course in Miracles and the process of inner healing Sharing his experiences of spiritual awakening Paul emphasises self acceptance and forgiveness as cornerstones of spiritual practice Presented with beautiful photos this book conveys the essence of The Course as it is lived in daily life     **Shadows Rising (World of Warcraft: Shadowlands)**
