Shadow Of Scotus Philosophy And Faith In Pre Reformation Scotland:

The Shadow of Scotus Alexander Broadie,1995 A unique study of Pre Reformation Scottish philosophers and philosophy The greatest of the philosophers was John Duns Scotus but there were others such as John Ireland John Mair of Haddington and George Lokert of Ayr Focusing on the concepts of will intellect and faith Professor Broadie investigates the philosophy of these men and the relationships between their ideas He places them within the framework of the medieval dispute between nominalists and realists which so characterised philosophy and theology in the Middle Ages Scotus account of the primacy of will over intellect was demonstrably influenced by his Franciscan inheritance Will is the faculty of freedom However how can our acts be free if God has known from eternity that we will perform them This question is examined in relation to John Ireland s major theological work *The Mirror of Wisdom* Professor Broadie analyses the concept of faith as presented by John Mair and his Scottish contemporaries and their doctrine that giving assent as an act of faith involves two stages an act of intellect by which hesitant assent is given and an act of free will by which hesitancy is replaced by certainty **Scottish Philosophy in the Seventeenth Century** Alexander Broadie,2020 Scottish philosophy of the seventeenth century was an important part of a wider European philosophical discourse After situating such thought in its political and religious contexts the contributors to this volume investigate the writings of a variety of Scottish thinkers in the areas of logic metaphysics politics ethics law and religion *Scottish Philosophical Theology* David Fergusson,2012-10-05 This volume concentrates on the period from the beginning of the 18th century to the latter part of the 20th It is impossible to depict a single school of philosophical theology in Scotland across three centuries yet several strains have been identified that suggest some recurrent themes or intellectual habits These include the following the mutually beneficial cross fertilisation of the disciplines of philosophy and theology the tendency to eschew powerful philosophical systems that might threaten to imprison theological ideas a stress on both the providential limitations and reliability of human reason a suspicion of reductive theories of a materialist inclination and a determination to inspect critically the proposals of theology and to place these in positive relation to other disciplines *The Scottish Invention of America, Democracy and Human Rights* Alexander Leslie Klieforth,Robert John Munro,2004-03-02 *The Scottish Invention of America Democracy and Human Rights* is a history of liberty from 1300 BC to 2004 AD The book traces the history of the philosophy and fight for freedom from the ancient Celts to the creation of America asserting the roots of liberty originated in the radical political thought of the ancient Celts the Scots struggle for freedom John Duns Scotus and the Arbroath Declaration 1320 a tradition that influenced Locke and the English Whig theorists as well as our Founding Fathers particularly Jefferson Madison Wilson and Witherspoon Author Alexander Klieforth argues the Arbroath Declaration 1320 and its philosophy was the intellectual foundation of the American Revolution and Declaration of Independence 1776 Thus the work is a revolutionary alternative to the traditional Anglocentric view that freedom democracy and human rights descended only from John Locke and England of the 1600s The work is the

first historical analysis to locate and document the origin of the doctrine of the consent of the governed in the medieval scholar John Duns Scotus c 1290s four centuries before Locke and the English Whigs and in the evolutionary progress of mankind The work contends that the Arbroath Declaration 1320 and its philosophy was the intellectual foundation of the American Revolution and Declaration of Independence 1776 After showing the Scottish influence on the U S Constitution Bill of Rights and the new Federal government the Braudelian style work traces the development of Scottish style freedom and human rights through the French Declaration of the Rights of Man and of the Citizen influenced by Jefferson Lincoln s Gettysburg Address that transformed Jefferson s Declaration and Eleanor Roosevelt s role in creating the U N Universal Declaration of Human Rights the foundation of the modern human rights struggle More information about this book is available at the authors website www.braveheartsoul.com [Philosophy of John Duns Scotus](#) Antonie Vos,2006-06-30 John Duns Scotus is arguably one of the most significant philosopher theologians of the middle ages who has often been overlooked This book serves to recover his rightful place in the history of Western philosophy revealing that he is in fact one of the great masters of our philosophical heritage Among the fields to which Scotus has made an immense contribution are logic metaphysics philosophy of mind and action and ethical theory The Philosophy of John Duns Scotus provides a formidable yet comprehensive overview of the life and works of this Scottish born philosopher Vos has successfully combined his lifetime of dedicated study with the significant body of biographical literature resulting in a unique look at the life and works of this philosopher theologian **Why Scottish Philosophy Matters** Alexander Broadie,2000 In this text Broadie shows how the insights of early Scottish philosophy for example by Scotus and Mair led to important perceptions in modern thinking and to the recognition of an unmistakably Scottish strand in European thought **The Cambridge Companion to the Scottish Enlightenment** Alexander Broadie,Craig Smith,2019-09-26 Provides a comprehensive introduction to the full range of achievements of the Scottish thinkers who so profoundly influenced western culture *The Cambridge Companion to Duns Scotus* Thomas Williams,2003 Table of contents **Eucharistic Doctors** Owen F. Cummings,2005 Spanning two millennia with particular attention to the post Reformation period and including key thinkers both Catholic and non Catholic Eucharistic Doctors argues that the Eucharist makes the Church The thirty Eucharistic doctors included in this volume are not doctors in the formal sense of the term but in the broad Christian tradition of eucharistic thought Ranging from the patristic age to contemporary time and embracing both the Eastern and Western Churches they include Ignatius of Antioch Hippolytus Ambrose John Chrysostom Augustine Maximus the Confessor Thomas Aquinas Wyclif Luther Calvin Thomas Cranmer George Herbert Bellarmine Jeremy Taylor Schleiermacher Newman and many more Although they represent different geographical locations time periods languages and traditions they all have this in common a recognition of the Eucharist as central to the Christian faith Book jacket [Covenant and Eschatology](#) Michael Scott Horton,2002-01-01 In this innovative work in theological method and hermeneutics Michael S Horton uses the motif of the covenant as a way of binding

together God's word and God's act Seeking an integration of theological method with the content of Christian theology Horton emphasizes God's covenant as God's way of working for redemption in the world Horton maintains a substantial dialogue with important philosophical figures and Christian theologians ultimately providing scholars and serious students a significant model for approaching and understanding Christian theology

Kind Neighbours: Scottish Saints and Society in the Later Middle Ages Tom Turpie, 2015-08-31 In *Kind Neighbours* Tom Turpie explores devotion to Scottish saints and their shrines in the later middle ages He provides fresh insight into the role played by these saints in the legal and historical arguments for Scottish independence and the process by which first Andrew and later Ninian were embraced as patron saints of the Scots *Kind Neighbours* also explains the appeal of the most popular Scottish saints of the period and explores the relationship between regional shrines and the Scottish monarchy Rejecting traditional interpretations based around church led patriotism or crown patronage Turpie draws on a wide range of sources to explain how religious political and environmental changes in the later middle ages shaped devotion to the saints in Scotland

[Introduction to Medieval Theology](#) Rik Van Nieuwenhove, 2022-03-24 This classic book now in a second expanded edition is an invitation to think along with major theologians and spiritual authors men and women from the time of St Augustine to the end of the fourteenth century who profoundly challenge our post modern assumptions Medieval theology was radically theocentric Trinitarian Scriptural and sacramental yet it also operated with a rich notion of human understanding In a post modern setting when modern views on autonomous reason are increasingly questioned it is fruitful to re engage with pre modern thinkers who did not share our modern and post modern presuppositions Their different perspective does not antiquate their thought on the contrary it makes them profoundly challenging and enriching for theology today This survey introduces readers to key theologians of the period and explores themes of the relationship between faith and reason the mystery of the Trinity soteriology Christian love and the transcendent thrust of medieval thought

An Introduction to Medieval Theology Rik van Nieuwenhove, 2012-04-19 Medieval theology in all its diversity was radically theo centric Trinitarian Scriptural and sacramental It also operated with a profound view of human understanding in terms of intellectus rather than mere ratio In a post modern climate in which the modern views on autonomous reason are increasingly being questioned it may prove fruitful to re engage with pre modern thinkers who obviously did not share our modern and post modern presuppositions Their different perspective does not antiquate their thought as some of the cultured despisers of medieval thought might imagine On the contrary rather than rendering their views obsolete it makes them profoundly challenging and enriching for theology today This book is more than a survey of key medieval thinkers from Augustine to the late medieval period it is an invitation to think along with major theologians and explore how their thought can deeply challenge some of today's modern and post modern key assumptions

British Travellers and the Encounter with Britain, 1450-1700 John Cramsie, 2015 Encounters with a multicultural Britain in the Tudor and Stuart periods written with an eye to debates about immigration and

ethnicity in today's Britain This book recovers the encounter with a multicultural Britain by British travellers in the Tudor and Stuart periods When William Camden writing in the sixteenth century set out to write the history of Britannia he deliberately took to the roads to discover it first hand and those diverse cultures guided and informed his journeys Here John Cramsie offers original perspectives on Camden's multicultural Britain through the study of British travellers and their narratives We meet characters such as the Tudor traveller John Leland who intended to tell the peoples of England and Wales about themselves chronicle how they came to settle the towns villages valleys and mountaintops they called home record the marks they left in the landscape and celebrate the noble histories and cultures they created Dozens eventually hundreds of Britons shared the same passion to meet their island neighbours and relate their experiences The individuals studied in this book include actual as well as armchair travellers and those who blurred the boundaries between them Their letters diaries journals and histories range from the epic poignant and matter of fact to the exotic preposterous and hateful the sources include actual and imaginative narratives and those which combined both elements Travellers painted Britain with in Leland's words native colours that were rich vibrant and above all complex Their remarkable journeys are the story of how Britons over two centuries met interacted and attempted or not to understand one another Written with an eye to debates about immigration and ethnicity in today's Britain the book emphasizes the long history of making and remaking the island's cultural mosaic The encounter with Britain's native colours has been a burden of history and opportunity for millennia not simply for our own times JOHN CRAMSIE is Associate Professor Department of History Union College NY [Fifty Key Medieval Thinkers](#) Gillian Rosemary Evans, 2002 Focusing on individuals whose ideas shaped intellectual life between 400 and 1500 this book is an accessible guide to those religious philosophical and political concepts central to the medieval worldview *T. F. Torrance's Reconstruction of Natural Theology* Alexander J. D. Irving, 2019-07-15 T F Torrance's proposal for natural theology constitutes one of the most creative and provocative elements in his work By re-envisioning natural theology as the cognitive structure of theology determined by God's self-revelation in Jesus Christ and not as the task of philosophically reflecting on the nature or existence of God aside from religious presuppositions Torrance moves through and beyond Barth's resistance to natural theology This book establishes Torrance's unique reconstruction of natural theology within its proper intellectual context providing a fresh analysis of this important methodological innovation as it emerges from Torrance's realist epistemology As Irving demonstrates in Torrance's distinctive conception of science he operated with an approach to cognition that functions via a realist synthesis of experience and understanding and in Torrance's theological science this synthesis of experience and understanding is the synthesis of revealed theology and natural theology The author argues that this reconstruction of natural theology expresses a dramatic vision for human agency within theological cognition adding the necessity of the human knowing subject to the priority of the divine revealer Finally this book marries Torrance's accomplishments in reconstructing natural theology to his Christocentric theological method in which God is both revealed

and known in the person of Jesus Christ fully God and fully human

Mediaeval Commentaries on the Sentences of Peter Lombard, 2015-01-27 The work published in this third and final volume of Brill's handbook on the tradition of the Book of Sentences breaks new ground in three ways First several chapters contribute to the debate concerning the meaning of medieval authority and authorship For some of the most influential literature on the Sentences consisted of study aids and compilations that were derivative or circulated anonymously Consequently the volume also sheds light on theological education on the ground the kind of teaching that was dispensed by the average master and received by the average student Finally the contributors show that Peter Lombard's textbook played a much more dynamic role in later medieval theology than hitherto assumed The work remained a force to be reckoned with until at least the sixteenth century especially in the Iberian Peninsula Contributors are Claire Angotti Monica Brinzei Franklin T Harkins Severin V Kitanov Lidia Lanza Philipp W Rosemann Chris Schabel John T Slotemaker Marco Toste Jeffrey C Witt and Ueli Zahnd

Noctua - volume IX/3 (2022)

Irene Binini, 2022-07-02 *Orthodox Mysticism and Asceticism* Constantinos Athanasopoulos, 2020-08-27 The scholarly contributions gathered together in this volume discuss themes related to the cultural social and ethical dimension of St Gregory Palamas works They relate his mystical philosophy and theology to contemporary debates in metaphysics philosophy of language ethics philosophy of culture political philosophy epistemology and philosophy of religion and theology among others The book considers a variety of topics of special interest to Christian theologians philosophers and art historians including church and state relations similarities and differences between Palamas contemporary phenomenologists and philosophers of language and hesychast influences on late Byzantine iconography
