Illness Havi Carel,2018-08-06 What is illness Is it a physiological dysfunction a social label or a way of experiencing the world How do the physical social and emotional worlds of a person change when they become ill Can there be well being within illness In this remarkable and thought provoking book Havi Carel explores these questions by weaving together the personal story of her own illness with insights and reflections drawn from her work as a philosopher Carel s fresh approach to illness raises some uncomfortable questions about how we all whether healthcare professionals or not view the ill challenging us to become more thoughtful *Illness* unravels the tension between the universality of illness and its intensely private often lonely nature It offers a new way of looking at a matter that affects every one of us Revised and updated throughout the third edition of this groundbreaking volume includes a new chapter on organ transplantation *Illness The Cry of the Flesh* will prove essential reading to those studying philosophy medical ethics and medical anthropology as well as

*Secrets of the Nile* Tasha Alexander,2022-10-04 In a brilliant homage to Agatha Christie critically acclaimed author Tasha Alexander sends Lady Emily to Egypt during British colonial rule to investigate a crime that leads back to the era of the Pharaohs In *Secrets of the Nile* Lady Emily and her husband Colin Hargreaves have joined his formidable mother on a holiday to visit the exotic treasures of Egypt Their host Lord Bertram Deeley is a renowned amateur British collector of antiquities who has invited his closest friends on a lavish cruise up the Nile to his home at Luxor But on the first night of their journey he suddenly collapses after offering a welcome toast a victim of the lethal poison cyanide Who amongst this group of his nearest and dearest would want to kill their generous host Emily and Colin s investigation soon reveals that even his closest friends had reasons to want him dead was it the archeologist whose dig Deeley was poised to fund until he suddenly withdrew support The powerful politician whose career Deeley had secretly destroyed The dyspeptic aristocratic English spinster whose hired travelling companion seems determined to protect her employer Or could it be Mrs Hargreaves herself who may have spurned the advances of Lord Deeley when they were both younger A key clue may lie with several ancient ushabtis exquisite three thousand year old sculptures that played a role in a hidden story from the time of Ancient Egypt one of a sister s unshakeable loyalty to her brother a tale of betrayal and revenge In an unforgettable finale Emily and Colin gather their fellow travelers together to unmask a killer whose motive is as shocking as it is brilliant

*Grasping Shadows* William Chapman Sharpe,2017-08-04 What s in a shadow Menace seduction or salvation Immaterial but profound shadows lurk everywhere in literature and the visual arts signifying everything from the treachery of appearances to the unfathomable power of God From Plato to Picasso from Rembrandt to Welles and Warhol from Lord of the Rings to the latest video game shadows act as central players in the drama of Western culture Yet because they work silently artistic shadows often slip unnoticed past audiences and critics Conceived as an accessible introduction to this elusive phenomenon *Grasping Shadows* is the first book that offers a general theory of how all shadows function in texts and visual media Arguing that shadow images take shape within a common cultural field where visual and verbal meanings overlap William Sharpe ranges widely among classic and modern works revealing the key motifs that link apparently disparate works such as those by Fra Angelico and James Joyce Clementina Hawarden and Kara Walker Charles Dickens and Kumi Yamashita Showing how real world shadows have shaped the meanings of shadow imagery *Grasping Shadows* guides the reader through the techniques used by writers and artists to represent shadows from the Renaissance onward The last chapter traces how shadows impact the art of the modern city from Renoir and Zola to film noir and projection systems that capture the shadows of passers by on streets around the globe Extending his analysis to contemporary street art popular songs billboards and shadow theatre Sharpe demonstrates a practical way to grasp the dark side that looms all around us

every magazine cover and everybody knows her name      Harper's New Monthly Magazine ,1855      **Naturalism and Protectionism in the Study of Religions** Juraj Franek,2020-02-06 How should we study religion Must we be religious ourselves to truly understand it Do we study religion to advance our knowledge or should the study of religions help to reintroduce the sacred into our increasingly secularized world Juraj Franek argues that the study of religion has long been split into two competing paradigms reductive naturalist and non reductive protectionist While the naturalistic approach seems to run the risk of explaining religious phenomena away the protectionist approach appears to risk falling short of the methodological standards of modern science Franek uses primary source material from Greek and Latin sources to show that both competing paradigms are traceable to Presocratic philosophy and early Christian literature He presents the idea that naturalists are distant heirs not only of the French Enlightenment but also of the Ionian one Likewise he argues that protectionists owe much of their arguments and strategies not only to Luther and the Reformation but to the earliest Christian literature This book analyses the conflict between reductive and non reductive approach in the modern study of religions and positions the Cognitive Science of Religion against a background of previous theories ancient and modern to demonstrate its importance for the revindication of the naturalist paradigm
