**Shadow Theatres and Shadow Films** Lotte Reiniger, 1970      **Shadow Puppets, Shadow Theatres, and Shadow Films** Lotte Reiniger, 1975      Shadow Theatres and Shadow Films Lotte Reiniger (Filmregisseurin), 1970      *Chinese Shadow Theatre* Fan Pen Li Chen, 2007-06-21 In her study of Chinese shadow theatre Fan Pen Li Chen documents and corrects misconceptions about this once popular art form Drawing on extensive research and fieldwork she argues that these plays served a mainly religious function during the Qing dynasty and that the appeal of women warrior characters reflected the lower classes high tolerance for the unorthodox and subversive Chinese Shadow Theatre includes several rare transcriptions of oral performances including a didactic play on the eighteen levels of Hell and Investiture of the Gods a sacred saga and translations of three rare hand copied shadow plays featuring religious themes and women warrior characters Chen examines the relationship between historical and fictional women warriors and those in military romances and shadow plays to demonstrate the significance of both printed works and oral transmission in the diffusion of popular culture She also shows that traditional folk theatre is a subject for serious academic study by linking it to recent scholarship on drama popular religion and popular culture      *Out of the Shadows* Fiona Robinson, 2022-02-08 Out of the Shadows is an innovative picture book biography about an unsung hero of early animation Lotte Reiniger 1899 1981 was a German film director and animator best known for The Adventures of Prince Achmed which was released in 1926 and is the oldest surviving animated movie It came out a full 11 years before Disney s Snow White As a little kid Reiniger loved reading fairy tales and fell in love with puppetry At school she learned about Scherenschnitte or papercuts which helped her create her signature style of silhouettes She grew up to make more than 40 films throughout her long career most of which were fairy tales that used her stop film animation technique of hand cut silhouettes Reiniger is now seen as the foremost pioneer of silhouette animation and the inventor of an early form of the multiplane camera With art inspired by Reiniger s cut paper style and a text that uses a fairy tale motif that mimics her movies author illustrator Fiona Robinson s Out of the Shadows is a sweeping tribute to one of most important figures of animation whose influence still resonates today Every spread offers an exceptional visual experience regularly amplifying aspects of the narrative Horn Book Magazine Starred Review      The Semiotics of Light and Shadows Piotr Sadowski, 2017-12-28 Lighting and shadows are used within a range of art forms to create aesthetic effects Piotr Sadowski s study of light and shadow in Weimar cinema and contemporaneous visual arts is underpinned by the evolutionary semiotic theories of indexicality and iconicity These theories explain the unique communicative and emotive power of light and shadow when used in contemporary indexical media including the shadow theatre silhouette portraits camera obscura photography and film In particular Sadowski highlights the aesthetic and emotional significance of shadows The cast shadow as an indexical sign maintains a physical connection with its near present referent such as a hidden person stimulating a viewer s imagination and provoking responses including anxiety or curiosity

The cinematic shadow plays a stylistic role by enhancing image texture depth of field and tonal contrast of cinematic moments. Such enhancements are especially important in monochromatic films and Sadowski interweaves the book with accounts of seminal Weimar cinema moments. Sadowski's book is distinctive for combining historical materials and theoretical approaches to develop a deeper understanding of Weimar cinema and other contemporary art forms. *The Semiotics of Light and Shadows* is an ideal resource for both scholars and students working in linguistics, semiotics, film, media and visual arts.

*Women Artists, Feminism and the Moving Image* Lucy Reynolds, 2019-08-22

What is the significance of gendered identification in relation to artists moving image? How do women artists grapple with the interlinked narratives of gender discrimination and gender identity in their work? In this groundbreaking book, a diverse range of leading scholars, activists, archivists and artists explore the histories, practices and concerns of women making film and video across the world, from the pioneering German animator Lotte Reiniger to the influential African American filmmaker Julie Dash and the provocative Scottish contemporary artist Rachel Maclean. Opening with a foreword from the film theorist Laura Mulvey and a poem by the artist film maker Lis Rhodes, *Women Artists, Feminism and the Moving Image* traces the legacies of early feminist interventions into the moving image and the ways in which these have been reconfigured in the very different context of today. Reflecting and building upon the practices of recuperation that continue to play a vital role in feminist art practice and scholarship, essays discuss topics such as how multiculturalism is linked to experimental and activist film history, the function and nature of the essay film, feminist curatorial practices and much more. This book transports the reader across diverse cultural contexts and geographical contours, addressing complex narratives of subjectivity, representation and labour, while juxtaposing cultures of film, video and visual arts practice often held apart. As the editor Lucy Reynolds argues, it is at the point where art, moving image and feminist discourse converge that a rich and dynamic intersection of dialogue and exchange opens up, bringing to attention practices which might fall outside their separate spheres and offering fresh perspectives and insights on those already established in its histories and canons.

Film and Fairy Tales Kristian Moen, 2013-05-07 Far from a realm of pure fantasy helping people to escape harsh realities fairy tales and the films that rooted themselves in their tropes and traditions played an integral role in formulating and expressing the anxieties of modernity as well as its potential for radical magical

transformation In Film and Fairy Tales Kristian Moen examines the role played by fairy tales in shaping cinema its culture and its discourse during its most formative years Well established by the feerie of the nineteenth century as popular entertainment and visual spectacle the wonders of mutability offered by fairy tale fantasies in the early films of Melies situated cinema itself as a realm of enchantment rife with enthralling and disturbing possibilities Through an analysis of early film theorists and a detailed case study of Tourneur s 1918 film The Blue Bird Moen shows how the spectacles and tropes of the fairy tale continued to shape ideas of cinema s place in modern life Stars like Mary Pickford and Marguerite Clark who not only played fantasy roles but presented their off screen personae in deliberately fantastic terms and the transformative claims of modernity expressed through visions such as Orientalist fairylands are analysed to show the extent to which fairy tales were used to negotiate different experiences of modernity the giddy adventures of social mobility consumer culture and identity transformation the threats and anxieties of cultural change impermanence and mutability Moen traces the evolution of the fairy tale in film to its self aestheticising peak in Snow White and the Seven Dwarfs alongside ironic allusions in films like Hitchcock s Rebecca and Howard Hawks Ball of Fire concluding with an examination of how fairy tale visions of fantastic transformation have seen a resurgence in contemporary cinema from Tim Burton to Harry Potter In the process he shows how cinema made fairy tales modern and fairy tales helped make cinema what it is today
