The Routledge Handbook of Classics and Queer Theory Ella Haselswerdt, Sara H. Lindheim, Kirk

Ormand, 2023-09-29 New directions in queer theory continue to trouble the boundaries of both queerness and the classical leading to an explosion of new work in the vast and increasingly uncharted intersection between these disciplines which this interdisciplinary volume seeks to explore This handbook convenes an international group of experts who work on the classical world and queer theory The discipline of Classics has been involved with and implicated in queer theory from the start By placing front and center the rejection of heteronormativity queer theory has provided Classics with a powerful tool for analyzing non normative sexual and gender relations in the ancient West while Classics offers queer theory ancient material such as literature visual arts and social practices that challenges a wide range of modern normative categories The collection demonstrates the vitality of this particular moment in queer classical studies featuring an expansive array of methodologies applied to the interdisciplinary field of Classics Embracing the indeterminacy that lies at the core of queer studies the essays in this volume are organized not by chronology or genre but rather by overlapping categories under the following rubrics queer subjectivities queer times and places queer kinships queer receptions and ancient pasts queer futures The Routledge Handbook of Classics and Queer Theory offers an invaluable collection for anyone working on queer theory especially as it applies to premodern periods it will also be of interest to scholars engaging with the history of sexuality both in the ancient world and more broadly The Photo-miniature, 1910 *The New Photo-Miniature*, 1910

Shadows Roberto Casati, 2004-08-10 In this original wide ranging and endlessly thought provoking work of popular nonfiction a leading science writer uncovers the pervasive presence of shadows in our world For Plato shadows were the symbol of our limitations For Galileo they knocked the Earth from the center of the cosmos They are a source of fear and a symbol of ignorance and they loom large in art and design mythology and folklore physics and metaphysics and architecture and urban planning From shadows puppets and the psychology of shadows to the role of shadows in astronomy and the influence of shadows on the architectural profiles of our cities Roberto Casati awakens our fascination in this tour de force of investigation and imagination The Photo-beacon, 1894 The Shadow Stone Richard Baker, 2012-08-14 Experience New York Times best selling author Richard Baker's classic novel set in the high fantasy world of the Forgotten Realms Accosted by bullies on a forest trail Aeron had no way of knowing that the confrontation would change his life forever Accused of a crime for which he bears no blame he is pursued deep into the forests of the Maerchwood First rescued and then tutored by the mysterious Storm Walker he discovers a previously undreamed of talent for magic and his life is swept up in the study of the arcane arts until the very principles of magic and indeed the future of Faer n come under attack from the unspeakably evil influences of the Shadow Stone Phantasmatic Shakespeare Suparna Roychoudhury, 2018-10-15 Representations of the mind have a central place in Shakespeare's artistic imagination as we see in Bottom struggling to articulate his dream

Macbeth reaching for a dagger that is not there and Prospero humbling his enemies with spectacular illusions Phantasmatic Shakespeare examines the intersection between early modern literature and early modern understandings of the mind's ability to perceive and imagine Suparna Roychoudhury argues that Shakespeare's portrayal of the imagination participates in sixteenth century psychological discourse and reflects also how fields of anatomy medicine mathematics and natural history jolted and reshaped conceptions of mentality Although the new sciences did not displace the older psychology of phantasms they inflected how Renaissance natural philosophers and physicians thought and wrote about the brain's image making faculty The many hallucinations illusions and dreams scattered throughout Shakespeare's works exploit this epistemological ferment deriving their complexity from the ambiguities raised by early modern science Phantasmatic Shakespeare considers aspects of imagination that were destabilized during Shakespeare's period its place in the brain its legitimacy as a form of knowledge its pathologies its relation to matter light and nature reading these in concert with canonical works such as King Lear Macbeth and The Tempest Shakespeare Roychoudhury shows was influenced by paradigmatic epistemic shifts of his time and he in turn demonstrated how the mysteries of cognition could be the subject of powerful art **Matthew 1-13** Manlio Simonetti, Thomas C. Oden, 2014-02-19 The Gospel of Matthew stands out as a favorite biblical text among patristic commentators including Origen Hilary of Poitiers Jerome Theodore of Heraclea Cyril of Alexandria John Chrysostom Augustine and more In this ACCS volume the rich abundance of patristic comment provides a feast of ancient interpretation of the First Gospel Shadow Storm Jennifer Aitken, 2022-11-27 When an ancient dagger plunges him into a parallel dimension can a young man claim his true identity before he's slain by vicious enemies Lucius Xavier is terrified Waking from a dense mind fog with no control over the body he's occupying and being pursued by killers he feels like a spectator at his own execution Now fused with an alternate version of himself he's petrified when the powerful other's consciousness fades and leaves him at the mercy of a deadly secret society Aided by an unexpected ally Lucius clutches at his missing pieces of memory to understand why his captors believe he possesses mystic powers and the keys to Atlantis And with a prophecy claiming he's fated to save the universe he'll need to master his new abilities before the world falls to evil At war with his own being can Lucius fulfil his destiny and rescue humanity Shadow Storm is a fast paced YA fantasy If you like dark comedy exploring alternative worlds and journeys of self discovery then you'll love Jennifer Aitken's vivid adventure
