Shadows in the Grass Robert O. Collins. 1983-01-01 The Borderlands of South Sudan C. Vaughan, M. Schomerus, L. de Vries, Lotje de Vries, 2013-12-10 Moving beyond the current fixation on state construction the interdisciplinary work gathered here explores regulatory authority in South Sudan's borderlands from both contemporary and historical perspectives Taken together these studies show how emerging governance practices challenge the bounded categorizations Ghosts of Empire Kwasi Kwarteng, 2012-01-01 This fascinating book shows how the later years of the British Empire were characterised by accidental oversights irresponsible opportunism and uncertain pragmatism History of South Sudan Øystein H. Rolandsen, M. W. Daly, 2016-07-04 South Sudan is the world s youngest independent country This book provides a general history of the new country The First Sudanese Civil War S. Poggo, 2008-12-22 This book is a comprehensive investigation discussion and analysis of the origins and development of the first civil war in the Sudan which occurred between 1955 and 1972 It was the culmination of ethnic racial cultural religious political and economic problems that had faced the Sudan since the Turco Egyptian conquest of the country in 1821 The hostilities between the Northern and Southern regions of the Sudan also involved foreign powers that had their own geopolitical interests in the country The first Sudanese civil war is a classic example of intra regional and inter regional conflicts in Africa in the 20th A Tapestry of African Histories Nicholas K. Githuku, 2021-10-18 In A Tapestry of African Histories With Longer Times and Wider Geopolitics contributors demonstrate that African historians are neither comfortable nor content with studying continental or global geopolitical social and economic events across the superficial divide of time as if they were disparate or disconnected Instead the chapters within the volume reevaluate African history through a geopolitically transcendent lens that brings African countries into conversation with other pertinent histories both within and outside of the continent The collection analyzes the pre and post colonial eras within African countries such as Kenya Malawi and Sudan examining major historical figures and events struggles for independence and stability contemporary urban settlements social and economic development as well as constitutional legal and human rights issues that began in the colonial era and persist to this day South Sudan's Endless Sorrows Lul Gatkuoth Gatluak, 2023-11-28 About the Book In depth comprehensive and extensively researched South Sudan's Endless Sorrows chronicles the complex history of South Sudan and its long bitter struggle for freedom South Sudan's long battle with colonization and invasion of foreign powers began as early as the twelfth century and has continued up until the twentieth century when the struggle for liberation came to a long period of bloody civil unrest and war To this day South Sudan still struggles to find its own identity voice and freedom With a devout love of his homeland and the people he holds dear Gatluak's history of South Sudan doubles as a heart wrenching plea for intervention compromise and peace in the country that has been ransacked by violence for centuries About the Author Lul Gatkuoth Gatluak is a South Sudanese American born in the Puldeng village near Bilpam at the border of South

Sudan and Ethiopia Lul has always had a drive and passion for education after moving to the United States he received his high school diploma his associate s degree in Liberal Arts from Minneapolis Community and Technical College a bachelor of arts in Criminal Justice from Metropolitan State University with a minor in English and a bachelors of science in Communication Studies at Minnesota State University Mankato with a minor in Sociology Lul also hold a master's degree in Public Administration at Hamline University Besides this book Lul has also written several articles 1901-1984 Alfred F. Havighurst, 2004-07-08 The most comprehensive bibliography of printed books articles and standard texts on twentieth century England Missions, States, and European Expansion in Africa Chima J. Korieh, Raphael Chijioke Njoku, 2007-11-21 Missions States and European Expansion in Africa aims to explore the ways Christianity and colonialism acted as hegemonic or counter hegemonic forces in the making of African societies As Western interventionist forces Christianity and colonialism were crucial in establishing and maintaining political cultural and economic domination Indeed both elements of Africa's encounter with the West played pivotal roles in shaping African societies during the nineteenth and twentieth centuries This volume uses a wide range of perspectives to address the intersection between missions evangelism and colonial expansion across Africa The contributors address several issues including missionary collaboration with the colonizing effort of European powers disagreements between missionaries and colonizing agents the ways in which missionaries and colonial officials used language imagery and European epistemology to legitimize relations of inequality with Africans and the ways in which both groups collaborated to transform African societies Thus Missions States and European Expansion in Africa transcends the narrow boundaries that often separate the role of these two elements of European encounter to argue that missionary endeavours and official colonial actions could all be conceptualized as hegemonic institutions in which both pursued the same civilizing mission even if they adopted different strategies in their The State of Post-conflict Reconstruction Naseem Badiey, 2014 Naseem Badiey examines encounter with African societies the local dynamics of the emerging capital city of Juba Southern Sudan during the historically pivotal transition period following the 2005 Comprehensive Peace Agreement CPA Focusing on the intersections of land tenure reform and urban development she challenges the dominant paradigm of post conflict reconstruction and re conceptualizes state building as a social process underpinned by negotiation Badiey explores local resistance to reconstruction programmes debates over the interpretation of peace settlements and competing claims to land and resources not as problems to be solved through interventions but as negotiations of authority which are fundamental to shaping the character of the state While donors and aid agency officials anticipated clashes between the Government of Sudan and the Sudan People's Liberation Movement SPLM following the CPA they did not foresee internal divisions that impeded reconstruction in Southern Sudan raising serious questions about the viability of an independent state In Juba local elites interpreted the CPA in line with their economic and political interests using claims to land authority and political power to challenge the SPLM s agenda for urban

reconstruction In revealing how local actors strategically interpreted the framework of land rights in Southern Sudan the book offers a basis for understanding the challenges that confront the nascent South Sudan's state builders and their international partners in the future NASEEM BADIEY is Assistant Professor of International Development and Humanitarian Action at California State University Monterey Bay The Road to the Two Sudans Souad Ali, Richard Lobban, 2014-03-17 Parallel with the previous volume of conference papers in 2008 Sudan's Wars and Peace Agreements most of these selected and thematic articles were originally presented as papers at the 31st meeting of the Sudan Studies Association SSA at Arizona State University in 2012 Since that time the Comprehensive Peace Agreement of 2005 provided for the self determination referendum of 2011 that resulted in the independence of the new Republic of South Sudan The previous book presaged this present volume as the perhaps inevitable outcome of endless conflicts with no serious effort to make unity attractive As this book goes to press the new Republic of South Sudan is itself wracked with violent conflict The hopes to build a new democratic and civil society in the south from the many inherited problems have now devolved to dysfunction itself Reading this book will realistically help in understanding these Roads taken The editors and authors have created a multi faceted account which reveals the complex foundations of these conflicts between north and south and recently within the south itself While Khartoum struggles onward with the Islamist project regional conflicts and grave economic problems Juba stumbles with corruption armed rebellion and a grave humanitarian crisis The half full glass of dreams of social and economic development supported by oil revenue has been replaced by a glass half empty with new varieties of political dysfunction in which both nations have grave problems in security and economic stability in a generally troubled regional neighborhood State Failure and State Weakness in a Time of Terror Robert I. Rotberg, 2004-05-13 The threat of terror which flares in Africa and Indonesia has given the problem of failed states an unprecedented immediacy and importance In the past failure had a primarily humanitarian dimension with fewer implications for peace and security Now nation states that fail or may do so pose dangers to themselves to their neighbors and to people around the globe preventing their failure and reviving those that do fail has become a strategic as well as a moral imperative State Failure and State Weakness in a Time of Terror develops an innovative theory of state failure that classifies and categorizes states along a continuum from weak to failed to collapsed By understanding the mechanisms and identifying the tell tale indicators of state failure it is possible to develop strategies to arrest the fatal slide from weakness to collapse This state failure paradigm is illustrated through detailed case studies of states that have failed and collapsed the Democratic Republic of the Congo Sierra Leone the Sudan Somalia states that are dangerously weak Colombia Indonesia Sri Lanka Tajikistan and states that are weak but safe Fiji Haiti Lebanon Politics and Violence in Eastern Africa David M. Anderson, Øystein H. Rolandsen, 2017-10-02 Over the fifty years between 1940 and 1990 the countries of eastern Africa were embroiled in a range of debilitating and destructive conflicts starting with the wars of independence but then incorporating rebellion secession and local insurrection

as the Cold War replaced colonialism The articles gathered here illustrate how significant widespread and dramatic this violence was In these years violence was used as a principal instrument in the creation and consolidation of the authority of the state and it was also regularly and readily utilised by those who wished to challenge state authority through insurrection and secession Why was it that eastern Africa should have experienced such extensive and intensive violence in the fifty years before 1990 Was this resort to violence a consequence of imperial rule the legacy of oppressive colonial domination under a coercive and non representative state system Did essential contingencies such as the Cold War provoke and promote the use of violence Or was it a choice made by Africans themselves and their leaders a product of their own agency This book focuses on these turbulent decades exploring the principal conflicts in six key countries Kenya Uganda Sudan Ethiopia Somalia and Tanzania This book was published as a special issue of the Journal of Eastern African Studies *Images of Empire M.W.* Daly, Jane Hogan, 2005-11-01 This book highlights the richness of photographic sources for the study of one European colonial entity in Africa the Anglo Egyptian Sudan Photographs from the extraordinary Sudan Archive of the University of Durham illustrate important aspects of the colonial experience and provide both important information in their own right and essential context for the study of the period An introductory essay surveys the era the documentary sources for its study and the nature of the photographic record The book will serve as both a model and an inspiration for the discovery collection conservation and use of photographs as sources for the study of other outposts of the British Empire Robert Edgerton, 2009-03-25 Africa's Armies traces the military history of sub Saharan Africa from the pre colonial era to the present Robert Edgerton begins this sweeping chronicle by describing the role of African armies in pre colonial times when armed forces or militias were essential to the maintenance and prosperity of their societies During the colonial era African soldiers fought with death defying courage earning such respect as warriors that they were often recruited into the colonial armies not simply to enforce colonial rule in Africa but to fight for the European homelands as well After independence swept through Africa African military men seized political power in country after country ruling dictatorially for their own benefit and for that of their kinsmen and cronies The author describes the post colonial civil wars that have devastated much of sub Saharan Africa catastrophes marked by genocide famine disease economic collapse and steadily declining life expectancy He closes by describing the role that Africa's military forces can and must play if the future is to bring better times to the **The War of Destiny** Dominic Ukelo,2019-05-16 Ethnic violence is a global problem that has continent s many peoples claimed many millions of lives Violence have been fuelled by ethnic tensions between groups of culturally different background Identifying the causes of these ethnic tensions would resulted to find solutions to reduce them and greatly contribute to a peaceful coexistent globally Global leaders need to understand the historical propensities in order to resolve the insurgency issues which is the result of ethnic tension Understanding the grassroots of conflict in the WBG region the Republic of South Sudan would help the country and others who are vulnerable to the same tensions to avoid the conflict The

War of Destiny is the first to document the threats that were facing the Fertit community and how they survived the well planned atrocities Therefore the book considered to be historical The book is especially relevant today and one that students social scenes researchers political and military leaders and interested citizens at all levels should read Also the War of Destiny should become must reading book for officers and elites in the Republic of South Sudan and other parts of the world where the possibility of ethnic conflicts among communities exist Because the lesson learned from this book is applicable in order to prevent the ethnic conflicts and build a sustainable peaceful coexisting around the world Christopher Prior, 2017-03-01 For Africans rank and file colonial officials were the most visible manifestation of British imperial power But in spite of their importance in administering such vast imperial territories the attitudes of officials who served between the end of the nineteenth century and the Second World War as well as what shaped such attitudes have yet to be examined in any systematic way In this original and revisionist work Prior draws upon an enormous array of private and official papers to address some key questions about the colonial services How did officials education and training affect the ways that they engaged with Africa How did officials relate to one another How did officials seek to understand Africa and Africans How did they respond to infrastructural change How did they deal with anti colonial nationalism This work will be of value to students and lecturers alike interested in British imperial and African history The Oxford History of **Anglicanism, Volume V** William L. Sachs, 2017-12-15 The Oxford History of Anglicanism provides a global study of Anglicanism from the sixteenth century to the twenty first The five volumes in the series look at how Anglican identity was constructed and contested since the English Reformation of the sixteenth century and examine its historical influence during the past six centuries They consider not only the ecclesiastical and theological aspects of global Anglicanism but also the political social economic and cultural influences of this form of Christianity that has been historically significant in Western culture and a burgeoning force in non Western societies since the nineteenth century Written by international experts in their various historical fields each volumes analyses the varieties of Anglicanism that have emerged The series also highlights the formal political institutional and ecclesiastical forces that have shaped a global Anglicanism and the interaction of Anglicanism with informal and external influences which have both moulded Anglicanism and been fashioned by it Volume five of The Oxford History of Anglicanism considers the global experience of the Church of England in mission and in the transitions of its mission Churches towards autonomy in the twentieth century The Church developed institutionally yet more than the institutional history of the Church of England and its spheres of influence is probed The contributors focus on what it has meant to be Anglican in diverse contexts What spread from England was not simply a religious institution but the religious tradition it intended to implant The volume addresses questions of the conduct of mission its intended and unintended consequences It offers important insights on what decolonization meant for Anglicans as the mission Church in various global locations became self reliant This study breaks new ground in describing the emergence of an Anglicanism

shaped more contextually than externally It illustrates how Anglicanism became enculturated across a broad swath of cultural contexts The influence of context and the challenge of adaption to it framed Anglicanism's twentieth century Cooperation and Empire Tanja Bührer, Flavio Eichmann, Stig Förster, Benedikt Stuchtey, 2017-08-01 While the study of indigenous intermediaries is today the focus of some of the most interesting research in the historiography of colonialism its roots extend back to at least the 1970s The contributions to this volume revisit Ronald E Robinson's theory of collaboration in a range of historical contexts by melding it with theoretical perspectives derived from postcolonial studies and transnational history In case studies ranging globally over the course of four centuries these essays offer nuanced explorations of the varied complex interactions between imperial and local actors with particular attention to those shifting and ambivalent roles that transcend simple binaries of colonizer and colonized The Anthropological Lens Christopher Morton, 2020-02-08 Sir Edward Evan Evans Pritchard 1902 1973 is widely considered the most influential British anthropologist of the twentieth century known to generations of students for his seminal works on South Sudanese ethnography Witchcraft Oracles and Magic Among the Azande OUP 1937 and The Nuer OUP 1940 In these works now classics in the anthropological literature Evans Pritchard broke new ground on questions of rationality social accountability kinship social and political organization and religion as well as influentially moving the discipline in Britain away from the natural sciences and towards history Yet despite much discussion about his theoretical contributions to anthropology no study has yet explored his fieldwork in detail in order to get a better understanding of its historical contexts local circumstances or the social encounters out of which it emerged This book then is just such an exploration of Evans Pritchard the fieldworker through the lens of his fieldwork photography Through an engagement with his photographic archive and by thinking with it alongside his written ethnographies and other unpublished evidence the book offers a new insight into the way in which Evans Pritchard s theoretical contributions to the discipline were shaped by his fieldwork and the numerous local people in Africa with whom he collaborated By writing history through field photographs we move back towards the fieldwork experiences exploring the vivid traces lived realities and local presences at the heart of the social encounter that formed the basis of Evans Pritchard's anthropology
