In the Shadow of the General Sudhir Hazareesingh, 2012-07-26 The French writer Francois Mauriac once predicted that when de Gaulle will be here no longer he will still be here This insight has proved prophetic In contemporary France Charles de Gaulle has become a figure of legend consistently acclaimed as the nation's pre-eminent historical figure Central to this popularity is the recognition of his pivotal role as the founder and then the leader of the Resistance movement during the Second World War Once might be tempted to conclude that it is the man who became mythical not the institutions he created But here the paradoxes abound For one thing his personal popularity sits oddly with his social origins and professional background Neither the nobility nor the Catholic Church nor the Army is particularly well regarded in France today in their different ways they all symbolize antiquated traditions and values So why then do the French nonetheless identify with celebrate and even revere this austere and devout nobleman who remained closely wedded to military values throughout his life In the Shadow of the General resolves this mystery and explains how de Gaulle has to come occupy such a privileged position in the

French imagination Sudhir Hazareesingh's story of how an individual life transformed into national myth also tells a great deal about the French collective self in the twenty first century its fractured memory its aspirations to greatness and its manifold anxieties Alongside the tale of de Gaulle's legacy a much broader narrative unfolds the story of modern France

presents us with universal truths about the difficulties experienced within family relationships and takes us behind the curtain of celebrity and the fixed smiles of publicity photos in a way few books ever do I had a most unusual upbringing being the child of a celebrity My childhood was a unique situation that only people who had experienced it could comprehend My father was a superstar and singer in Europe in the 1950s and 60s He and I recorded a song called The Man and The Child that sold over a million records in France alone when I was just eleven years old thus making me a celebrity too When superstardom set in a crazy atmosphere had overtaken our household as fame creates pressure fear of loss and resentment My father s estate became an open house to international celebrities who came to visit Despite the fame and fortune that became part of my life I ran away from home before the age of sixteen with the man who later became my first husband I have spent my entire life attempting to release the pain of my upbringing
