Shakespeare As Prompter The Amending Imagination In Theatre And Therapy:

Shakespeare as Prompter Murray Cox, Alice Theilgaard, 1994 Prompting is the thematic thread that pervades the pages of this book. Its primary connotation is that of the prompter who is urgently called into action at moments of anxiety when narrative begins to fail. The central dynamic issue concerns the amending imagination as a prompting resource which through creativity and the aesthetic imperative can be invoked in this therapeutic space when the patient through fear, resistance or distraction is unable to continue with his story. Psychotherapy can be regarded as a process in which the patient is enabled to do for himself what he cannot do on his own. Shakespeare as the spokesman for all other poets and dramatists prompts the therapist in the incessant search for those resonant rhythms and mutative metaphors which augment empathy and make for deeper communication and which also facilitates transference interpretation and resolution. The cadence of the spoken word and the different laminations of silence always call for more finely tuned attentiveness than the therapist unprompted can offer. The authors show how Shakespeare can prompt therapeutic engagement with inaccessible patients who might otherwise be out of therapeutic reach. At the same time they demonstrate that the clinical off stage world of therapy can also prompt the work of the actor in his on stage search for representational precision. **Applied**

Creative Supervision Across Modalities Anna Chesner, Lia Zografou, 2013-12-21 This book takes a theoretical look at creative supervision, discussing the background philosophy and creative technique and demonstrates through a series of chapters written by experienced practitioners from a variety of disciplines that creative approaches to supervision are applicable and beneficial across modalities. Shakespeare Comes to Broadmoor Murray Cox, 1992-01-01 Between 1989 and 1991 several of Shakespeare's tragedies were performed in the central hall of Broadmoor Hospital. This book sets these important events on record. It offers insights into the impact of such drama in such a setting upon actors and audience. It includes interviews with the directors and the actors playing the title roles as well as a description of the hospital and its community of patients and staff. The performances were given by actors from The Royal Shakespeare Company, Hamlet and Romeo and Juliet, The Royal National Theatre, King Lear and the Wilde Community Theatre Company, a local amateur drama group. Measure for Measure. An account is given of workshops which took place after the performances. And a collage of comment by actors and audience is presented as a stream of corporate consciousness. The final section of the book has a more academic timbre including chapters on performance and projective possibilities, the nature and scope of dramatherapy.

and contributions on the place of drama in custodial settings by specialists from a variety of disciplines
