Shakespeare's plays reveal themselves to be as full of mysteries as any Agatha Christie novel Is it summer or winter in Elsinore Do Bottom and Titania make love Does Lady Macbeth faint or is she just pretending How does a man putrefy within minutes of his death Is Cleopatra a deadbeat Mum And why doesn't Juliet ask O Romeo Montague wherefore art thou Montague As Watts and Sutherland explore these and other puzzles Shakespeare's genius becomes ever more apparent Speculative critical good humoured and provocative their discussions shed light on apparent anachronisms performance and stagecraft linguistics Star Trek and much else Shrewd and entertaining these essays add a new dimension to the pleasure of reading or watching Shakespeare Few modern academics are doing quite so much as Professor Sutherland to connect the common reader with great books Independent *Subject Index of the Modern Books Acquired by the British Museum in the Years ...* British Museum, 1922 **The Publisher**, 1903 *Subject Index of Modern Books Acquired* British Library, 1922

Blood and Home in Early Modern Drama Ariane M. Balizet, 2014-04-24 In this volume the author argues that blood was crucially a means by which dramatists negotiated shifting contours of domesticity in 16th and 17th century England Early modern English drama vividly addressed contemporary debates over an expanding idea of the domestic which encompassed the domus as well as sex parenthood household order the relationship between home and state and the connections between family honor and national identity The author contends that the domestic ideology expressed by theatrical depictions of marriage and household order is one built on the simultaneous familiarity and violence inherent to blood The theatrical relation between blood and home is far more intricate than the idealized language of the familial bloodline the home was itself a bloody place with domestic bloodstains signifying a range of experiences including religious worship sex murder birth healing and holy justice Focusing on four bleeding figures the Bleeding Bride Bleeding Husband Bleeding Child and Bleeding Patient the author argues that the household blood of the early modern stage not only expressed the violence and conflict occasioned by domestic ideology but also established the home as a site that alternately reified and challenged patriarchal authority **The Oxford Handbook of Shakespeare and Performance** James C. Bulman, 2017 Presents the most current

approaches to Shakespeare in performance including how experimental modes of performance ensure Shakespeare's contemporaneity how and why audiences respond to performances as they do how technology has revolutionized our access to Shakespeare and cultural appropriation in productions for international audiences **William Godwin and the Theatre** David O'Shaughnessy, 2015-10-06 William Godwin is one of the most important figures of the Romantic period He wrote four plays at the end of the 18th beginning of the 19th centuries This book has two main objectives to provide the first comprehensive discussion of these four plays and to consider the notion of theatricality in relation to Godwin's political project **The Arden Research Handbook of Shakespeare and Adaptation** Diana E. Henderson, Stephen O'Neill, 2022-03-24 The Arden Research Handbook of Shakespeare and Adaptation explores the dynamics of adapted Shakespeare across a range of literary genres and new media forms This comprehensive reference and research resource

maps the field of Shakespeare adaptation studies identifying theories of adaptation their application in practice and the methodologies that underpin them It investigates current research and points towards future lines of enquiry for students researchers and creative practitioners of Shakespeare adaptation The opening section on research methods and problems considers definitions and theories of Shakespeare adaptation and emphasises how Shakespeare is both adaptor and adapted A central section develops these theoretical concerns through a series of case studies that move across a range of genres media forms and cultures to ask not only how Shakespeare is variously transfigured hybridised and valorised through adaptational play but also how adaptations produce interpretive communities and within these potentially new literacies modes of engagement and sensory pleasures The volume s third section provides the reader with uniquely detailed insights into creative adaptation with writers and practice based researchers reflecting on their close collaborations with Shakespeare s works as an aesthetic ethical and political encounter The Handbook further establishes the conceptual parameters of the field through detailed practical resources that will aid the specialist and non specialist reader alike including a guide to research resources and an annotated bibliography
