This searchable resource enables users to browse by author, essay and volume, search by play, theme and topic, and save and bookmark their results.

The Pragmatics of Early Modern Politics: Power and Kingship in Shakespeare's History Plays Ursula Kizelbach, 2014-10-10. Early modern kings adopted a new style of government, Realpolitik, as spelled out in Machiavelli's writings. Tudor monarchs, well aware of their questionable right to the throne, posed as great dissimulators, similarly to the modern prince who must learn from the fox and the lion. This book paints a portrait of a successful politician according to early modern standards. Kingship is no longer understood as a divinely ordained institution but is defined as goal-oriented policy making, relying on conscious acting and the theatrical display of power. The volume offers an intriguing discussion on kingship in pragmatic terms, as the strategic face-saving behaviour of Shakespeare's kings. It also demonstrates how an

efficient or inefficient management of the king's political face could decide his success or failure as a monarch and how the Renaissance world of Shakespeare's history plays is combined with modern theories of communication politeness and face. Many studies in historical pragmatics or historical stylistics purport to expose language use in social context but they fall short when measured against this study. The author approaches Shakespeare with concepts from literary studies and linguistic pragmatics and weaves them together seamlessly with social history. The result is a treasure trove of insights.

Jonathan Culpeper, Lancaster University, Exploring Machiavellian politics from the perspective of linguistic pragmatics and sociological role theory.

Urszula Kizelbach's study sheds interesting new light on Shakespeare's stage kings. Her discussion of the strategic uses of polite speech is a particularly welcome addition to our thinking about Shakespeare's English history plays.

A promising new voice in European Shakespeare studies.

Andreas Heule, Munich University

Shakespeare and the Politics of Commoners Chris Fitter, 2017

Shakespeare and the Politics of Commoners is a highly original contribution to our understanding of Shakespeare's plays. It breaks important new ground in introducing readers lay and scholarly alike to the existence and character of the political culture of the mass of ordinary commoners in Shakespeare's England as revealed by the recent findings of the new social history. The volume thereby helps to challenge the traditional myths of a non-political commons and a culture of obedience. It also brings together leading Shakespeareans who digest recent social history with eminent early modern social historians who turn their focus on Shakespeare. This genuinely cross-disciplinary approach generates fresh readings of over ten of Shakespeare's plays and locates the impress on Shakespearean drama of popular political thought and pressure in this period of perceived crisis. The volume is unique in engaging and digesting the dramatic importance of the discoveries of the new social history thereby resituating and revaluing Shakespeare within the social depth of politics.

Shakespeare Survey: A Sixty-Year Cumulative Index Peter Holland, 2009-05-14

A single volume cumulative index covering the past six decades of Shakespeare Survey.

Drama and the Politics of Generational Conflict in Shakespeare's England Stephannie Gearhart, 2018-03-15

Drama and the Politics of Generational Conflict in Shakespeare's England examines the intersection between art and culture and explains how ideas about age circulated in early modern England. Stephannie Gearhart illustrates how a variety of texts including drama by Shakespeare, Jonson, and Middleton placed elders and youths' voices in dialogue with one another to construct the period's ideology of age and shape elder-youth relations.

Reviewing **Shakespeare Survey Shakespeare And Politics**: Unlocking the Spellbinding Force of Linguistics

In a fast-paced world fueled by information and interconnectivity, the spellbinding force of linguistics has acquired newfound prominence. Its capacity to evoke emotions, stimulate contemplation, and stimulate metamorphosis is really astonishing. Within the pages of "**Shakespeare Survey Shakespeare And Politics**," an enthralling opus penned by a very acclaimed wordsmith, readers set about an immersive expedition to unravel the intricate significance of language and its indelible imprint on our lives. Throughout this assessment, we shall delve into the book's central motifs, appraise its distinctive narrative style, and gauge its overarching influence on the minds of its readers.
