Lure Lure, 2010-12-27 Cara Cahill has been trying to avoid her special gift since she was a child and realized she was different from everyone else Born in Ireland to a mortal Mother and an incubus Father Cara was bestowed with a special ability to sense the Supernatural beings around her by their colourful auras Her gift soon became a curse as she realized that all the beings she could sense were drawn to her whether she liked it or not Now a grown woman traveling around the Irish countryside with a runaway faerie and a disgruntled leprechaun Cara discovers an unlikely group of Supernaturals who are on the hunt for her When they are inevitably drawn to her she is forced into an uneasy alliance with three werewolves and two vampires They believe that a recent earthquake that was followed by a raven's eerie cry was the first sign of Ragnarok the end of the world The ancient Norse god Loke has been released from his imprisonment in the underworld and is biding his time while his army of demons and giants gathers and awaits the final war to be waged Cara scrambles to uncover the reason why an ancient god is so interested in finding her while keeping her apprehensive team of misfits working together fighting off demon attacks avoiding hostile supernatural encounters and protecting her heart from a vampire who is the only

Fagan, 2011-02-17 Were the Romans who watched brutal gladiatorial games all that different from us This book argues they were not *The Lure of Authoritarianism* Stephen J. King, Abdeslam M. Maghraoui, 2021-12-22 The works collected in *The Lure of Authoritarianism* consider the normative appeal of authoritarianism in light of the 2011 popular uprisings in the Middle East Despite what seemed to be a popular revolution in favor of more democratic politics there has instead been a slide back toward authoritarian regimes that merely gesture toward notions of democracy In the chaos that followed the Arab Spring societies were lured by the prospect of strong leaders with firm guiding hands The shift toward normalizing these regimes seems sudden but the works collected in this volume document a gradual shift toward support for authoritarianism over democracy that stretches back decades in North Africa Contributors consider the ideological socioeconomic and security based justifications of authoritarianism as well as the surprising and vigorous reestablishment of authoritarianism in these regions With careful attention to local variations and differences in political strategies the volume provides a nuanced and sweeping consideration of the changes in the Middle East in the past and what they mean for the future
