M A Maksimovichliterator:

Literary Scholarship in Late Imperial Russia (1870s-1917) Andy Byford, 2017-12-02 The turn of the twentieth century was a decisive moment in the institutionalisation of Russia's literary scholarship. This is the first book in the English language to provide an in-depth analysis of the emergence of Russia's literary academia in the pre-Revolutionary era. In particular, Byford examines the rhetoric of self-representation of major academic establishments devoted to literary study, the canonisation of exemplary literary historians and philologists Buslaev, Grot, Veselovskii, Potebnia, Ovsianiko, Kulikovskii, and attempts by Russian literary academics of this era to define their work as a distinct form of scholarship, *nauka*. By analysing a range of academic rituals from celebrations of institutional anniversaries to professors' inaugural lectures, and by dissecting the discourse of scholars' obituaries, commemorative speeches, and manuals in scholarly methodology, Byford reveals how the identity of literary studies as a discipline was constructed in Russia. He provides not only a unique insight into fin de siècle Russian literary scholarship but also an original approach to academic institutionalisation more widely.

The Imperial Russian Project Alfred J. Rieber, 2018-01-18 A pioneer in the field of Russian and Soviet studies in the West, Alfred J. Rieber's five-decade career has focused on increasing our understanding of the Russian Empire from Peter the Great to the coming of the First World War. The Imperial Russian Project is a collection of Rieber's lifetime of work focusing on three interconnected themes of this time period: the role of reform in the process of state building, the interaction of state and social movements, and alternative visions of economic development. This volume contains Rieber's previously published classic essays, edited and updated, as well as newly written works that together provide a well-integrated framework for reflection on this topic. Rieber argues that Russia's style of autocratic governance not only reflected the personalities of the rulers but also the challenges of overcoming economic backwardness in a society lacking common citizenship and a cohesive ruling class. The Imperial Russian Project reveals how, during the nineteenth century, the tsar was obliged to operate within a changing and more complex world, reducing his options and restricting his freedom of action.

Nightmare: From Literary Experiments to Cultural Project Dina Khapaeva, 2012-11-13 What is a nightmare as a psychological experience, a literary experiment, and a cultural project? Why has experiencing a nightmare under the guise of reading a novel, watching a film, or playing a video game become a persistent requirement of contemporary mass culture? By answering these questions, which have not been addressed by literary criticism and cultural studies, we can interpret anew the texts of classic authors. Charles Maturin, Nikolai Gogol, Fyodor Dostoevsky, Thomas Mann, Howard Phillips Lovecraft, and Victor Pelevin carry out bold experiments on their heroes and readers as they seek to investigate the nature of nightmare in their works. This book examines their prose to reveal the unstudied features of the nightmare as a mental state and traces the mosaic of coincidences leading from literary experiments to today's culture of nightmare consumption.

Gogol From the Twentieth Century Robert A. Maguire, 2022-03-08 The description for this book, *Gogol From the Twentieth Century: Eleven Essays*, will

be forthcoming **A History of Old Russian Literature** Vladimir Vladimirovich Kuskov, 1980 Ivan Sergeevich Gagarin Jeffrey Bruce Beshoner, 2002-05-10 Ivan Sergeevich Gagarin analyzes questions of nationality and religious identity in nineteenth century Russian history as reflected in the life of Jesuit priest Ivan Gagarin A descendent of one of Russia's most ancient and politically powerful families Father Ivan Gagarin SJ 1814-1882 dedicated his life to creating a union between the Orthodox and Catholic churches that would preserve the dogmatic and traditional beliefs of both Traditional understandings of Russian identity have emanated from the perspective of the dominant Orthodox religion this captivating study uses the unionist work of Gagarin to illumine Russia's national identity from the perspective of Roman Catholicism Seeing his unionist proposals as necessary for the preservation of Russian stability Gagarin found himself in frequent opposition to the Orthodox Church While Gagarin believed that Church union would preserve Russia from the threats of communism and revolution the Russian Orthodox Church believed that union would mean the sacrifice of religious truth ecclesial independence and religious orthodoxy Jeffrey Beshoner's even handed analysis reveals that the Roman Catholic Church presented its own share of barriers to attempts at church union Ivan Sergeevich Gagarin examines Roman Catholic attitudes of superiority vis vis the Orthodox Church and argues that the nineteenth century Roman Catholic Church simply did not possess the humility or respect for Eastern beliefs that church union required Despite the failure of his unionist activity Gagarin exerted important influence on such contemporary and later Roman Catholic and Russian thinkers as Pope Pius IX Alexei Khomiakov and Vladimir Solov'ev As the collapse of communism has permitted Russia to again seek its national identity in Russian Orthodoxy Gagarin's ideas and perspectives on the relationship between national and religious identity continue to prove relevant *A Double Garland* Thomas P. Hodge, 2000 Thomas P Hodge has produced the first literary historical study of the art song enterprise in Russia's Golden Age *A Double Garland* investigates the interrelationship of poetry and music in Russia specifically the relations between poets and composers from 1800 to 1850 Hodge focuses on three major composers of art songs Alyab'ev Verstovskii and Glinka He surveys their choices of text and after some preliminary metrical and structural analysis proceeds to a detailed consideration of the dynamics of poet composer interaction from various points of view Hodge presents both the major and minor poets of this period in the context of Russian musical life Based on extensive archival research this study will appeal to specialists in Russian poetry and musicologists *Dostoevsky and the Novel* Michael Holquist, 2015-03-08 What place do Dostoevsky's works occupy in the history of the novel To answer this question Michael Holquist focuses on the formal aspects of Dostoevskian narrative The author argues that the novel is a genre that constantly seeks its own identity we still do not know what it is since the uniqueness of its members defines the class to which it belongs This anomaly explains the central role of the novel for Russians perplexed as they were in the nineteenth century by idiosyncrasies that hindered development of a coherent national identity Michael Holquist shows that the generic impulse of the novel to explore the mysteries of individual biography met and fused in Dostoevsky's works with the national quest of the

Russians for an identity of their own The paradox of the writer's achievement consists in the degree to which his meditations on the significance of being without a past are grounded in history Originally published in 1977 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Ilnytskyj, 2024-07-22 Russian culture and Slavic Studies maintain that Gogol is an incontrovertible Russian writer To call him a Ukrainian is to encounter deep skepticism Oddly the grounds of his Russianness are rarely made explicit and even less often examined critically This book address these problems It shows for example how scholars assume that language and theme make Gogol Russian How others call him Russian by denying Ukrainians status as a separate nation while still others avoid explanations altogether by representing him as a typical Russian in a national culture and literature This book challenges such paradigms situating Gogol within an imperial culture where Russian and Ukrainian elites shared intellectual pursuits but clashed over rival national projects It reveals Gogol as a Ukrainian Russian language Imperial Writer a person who embraced an emergent Ukrainian movement while remaining a loyal imperial subject This book will appeal to Russianists and Ukrainianists anyone interested in questions of identity cultural politics and colonialism It provides ample context and background making it suitable for students Readers who enjoy Taras Bulba will be drawn to the chapter that dispels the myth of its Russianness *Hunting Nature* Thomas P.
