US Tank and Tank Destroyer Battalions in the ETO 1944-45 Steven J. Zaloga, 2011-03-15 Overshadowed by the United States Army's armored divisions the separate tank and tank destroyer battalions had the difficult mission of providing armored support for US infantry divisions in the 1944 45 campaigns This book details the organizational structures and deployment of these units the standard tank battalions tank battalions light tank battalions mine exploder and tank battalions special self propelled and towed tank destroyer battalions It also covers the tactics used by these units in their attempts to assist the infantry as well as providing a listing of all the battalions that took part in the Northwest Europe campaign

M3 Medium Tank vs Panzer III Gordon L. Rottman, 2013-02-20 This was a duel between the stalwart of the Wehrmacht armored divisions the Panzerkampfwagen III and the American's as yet untested M3 Grant In reality both would prove unequal to the task as they floundered amidst the rugged hills and ravines of the Tunisian landscape This book charts the design and development of these two disparate rivals

their vastly different armament and armor as well as their tactical concepts Analysing the strengths and weaknesses of these two opponents this book explores the successes and failures of the Grant and Panzer III as they clashed at the critical battles of North Africa Moreover it is an insight into the lives of the tank crews themselves as they struggled with the twin horrors of tank warfare and the fight for survival amidst some of the most inhospitable terrain on earth US Marine Corps 1941-45 Gordon L. Rottman, 2012-09-20 While the US Marine Corps was one of the smallest of American armed services in World War II its contribution to the final victory cannot be overstated The US Marine Corps may have only comprised 5 percent of America s armed forces but it suffered 10 percent of all World War II combat casualties Above all the amphibious nature of the war in the Pacific imposed on the Marine Corps greater tasks than any it had ever before been called upon to perform This title details the organization weapons and equipment of the US Marines of World War II **M18 Hellcat vs Panther** William E. Hiestand, 2025-08-28 This fully illustrated study examines the bloody battle between the US Army s M18 tank destroyer and Germany s formidable Panther tank at Arracourt in September 1944 In response to Germany s Blitzkrieg victories of 1939-41 the US Army created a dedicated tank destroyer force intended to encircle and destroy the massed attacking armored divisions Fast relatively well armed but weakly armored the M18 was designed from the start as a tank destroyer unlike the M10 and M36 By September 1944 the German Army s armored divisions fielded the Panther tank alongside the PzKpfw IV In this book William Hiestand notes that the Panther s combination of long range firepower impressive armour and good mobility won it a fearsome reputation but shows how the M18 proved to be a very able opponent when the two types clashed on a foggy September morning during the battle of Arracourt Fully illustrated with specially commissioned artwork and mapping alongside archive photographs this lively study examines the origins development strengths and limitations of the two AFVs as well as their crews training doctrine and combat effectiveness It also provides a detailed account of the momentous battle between the US 704th Tank Destroyer Battalion and the German Panzer Brigade 113 at Arracourt where the two types clashed in a surprising encounter that challenges our preconceptions about armored warfare in World War II *Professional Journal of the United States Army*, 1987 **Military Review**, 1993 **German 88mm Gun vs Allied Armour** David Campbell, David Greentree, 2021-02-18 Few weapons developed a more deadly reputation than the German 88 in the role of anti tank gun its long reach and lethal hitting power making it a significant problem for every type of British and later American armour Despite its individual potency it was almost always utilized as part of a comprehensive system of defences that relied on a mix of weapons carefully deployed in anticipation of the enemy s likely avenue and method of attack Used in this way the 88 became a particularly deadly part of the Afrika Korps attempts to shatter British armoured power in the Western Desert Initially extremely successful over the course of 1941 and 1942 in Operations Battleaxe and Crusader the Allies tactics and vehicles such as the American made M3 and the Crusader III eventually evolved to deal with the 88 s awesome power This detailed new book tells the story of that evolution and provides

an in depth treatment of this key weapon of World War II **Encyclopedia of Military Technology and Innovation**
