Massimiliano Fuksas:

Massimiliano Fuksas Massimiliano Fuksas, 2025-12 Massimiliano Fuksas always says that he would like to be able to design an architecture without time and space he has certainly been searching for it for fifty years This book presents a rich collection of ideas concepts and intentions stripped of any context scale or other details that might limit their expression From this we can conclude that the author has indeed succeeded This collection features architectures that are detached from both time and space creating a transcendent realm where his deepest concerns and sensitivities reside He says that his projects always begin with drawing and painting which have been his passions since childhood When tackling a new project he observes nature for inspiration He continues to paint for material differentiating it from drawing architecture Even when he lectures students at university he instinctively starts painting He prefers not to delegate the creative phase as he wants to control the entire process to express his vision Initially he worked only with his signs later adding model creation starting with a parallelepiped and exploring its form by creating voids and studying the resulting relationships *Fuksas*
