Shakespeare on the German Stage: Volume 1, 1586-1914 Simon Williams, 2004-11-11 Professor Williams focuses on the classical period of German literature and theatre when Shakespeare's plays were first staged in Germany in a relatively complete form and when they had a potent influence on the writings of German drama and dramatic criticism

Great North American Stage Directors Volume 1 Cheryl Black, 2024-01-25 This volume assesses the contributions of David Belasco, Arthur Hopkins and Margaret Webster whose careers shaped the artistic and specialist identity of the Broadway director. Their work spans almost a century and captures the rapidly changing social and cultural landscape of 20th century America. While their aesthetic styles differed greatly they were united in their mastery of theatre craft and their impact on theatrical collaboration. The essays in this volume explore how these directors established and exploited Broadway as the epicentre of theatre in the United States, blended the role of producer and director and managed the tensions between commercial success and artistic ambition. The Great North American Stage Directors series provides an authoritative account of the art of directing in North America by examining the work of twenty-four major practitioners from the late 19th century to the present. Each of the eight volumes examines three directors and offers an overview of their practices, theoretical ideas and contributions to modern theatre. The studies chart the life and work of each director, placing his or her achievement in the context of other important theatre practitioners and broader social history. Written by a team of leading experts, the series presents the genealogy of directing in North America while simultaneously chronicling crucial trends and championing contemporary interpretation

Howard, 2008-04-15 This four-volume *Companion to Shakespeare's Works* compiled as a single entity offers a uniquely comprehensive snapshot of current Shakespeare criticism. It brings together new essays from a mixture of younger and more established scholars from around the world: Australia, Canada, France, New Zealand, the United Kingdom and the United States. It examines each of Shakespeare's plays and major poems using all the resources of contemporary criticism, from performance studies to feminist historicist and textual analysis. Volumes are organized in relation to generic categories: namely, the histories, the tragedies, the romantic comedies and the late plays, problem plays and poems. Each volume contains individual essays on all texts in the relevant category as well as more general essays looking at critical issues and approaches more widely relevant to the genre. It offers a provocative roadmap to Shakespeare studies at the dawning of the twenty-first century. This companion to Shakespeare's tragedies contains original essays on every tragedy from *Titus Andronicus* to *Coriolanus*, as well as thirteen additional essays on such topics as Shakespeare's Roman tragedies.

Anthropocene Theater and the Shakespearean Stage William H. Steffen, 2023 *Anthropocene Theater and the Shakespearean Stage* revises the anthropocentric narrative of early globalization from the perspective of the non-human world in order to demonstrate Nature's agency in determining ecological economic and colonial outcomes. It welcomes readers to reimagine theater history in broader terms and to account for more non-human and atmospheric players in the otherwise anthropocentric history of Shakespearean performance. This book analyses plays horticultural manuals cosmetic recipes Puritan polemics and travel writing in order to demonstrate how the material practices of the stage both catalyze and resist early forms of globalization in an ecological arena. William Steffen addresses the role of an understudied ecological performance history in determining Shakespeare's iconic cultural status and models how non-human players have undermined Shakespeare's authoritative role in colonial discourse. Finally, this book makes a celebratory argument for the humanities in the age of climate change and invites interdisciplinary engagement a research community that is compelled to find strategies for cultivating a hopeful tomorrow amidst unprecedented anthropogenic environmental changes. **Lives of Shakespearian Actors, Part IV, Volume 1** Gail Marshall, Tetsuo Kishi, Christy Desmet, Janice Norwood, 2024-05-17 Features three female actors who were significant in their development of new and innovative ways of performing Shakespeare

Schoch, 1998-08-20 This book explores the revivals of Shakespeare's history plays during the Victorian period as staged by the famous actor-manager Charles Kean. Between 1852 and 1859 Kean produced celebrated productions of Henry V Henry VIII King John Macbeth and Richard II renowned for their unprecedented attention to antiquarian detail in sets costumes and properties many of which are shown in the book's illustrations. These productions provided audiences with an unparalleled opportunity to participate in the Victorian obsession with history especially of the medieval period.
