Modern Wars The Humanitarian Challenge Report For The Independent Commission On International Humanitarian Issues:

Modern Wars ,1986 **The Implementation of International Humanitarian Law** Frits Kalshoven, Yves Sandoz, 1989-07 Humanitarian Challenges And Intervention Thomas G Weiss, 2018-05-04 There are two distinct contemporary challenges to the relief of war induced human suffering one within the institutions that make up the international humanitarian system the other on the ground in war zones Varied interests resources and organizational structures within institutions hamper the effectiveness of efforts on behalf of war victims And at the same time on the ground there are ethical legal and operational challenges and dilemmas that require actors continually to choose a course of action with associated necessary evils Humanitarian challenges and intervention concerns within the international humanitarian system combined with the domestic context of armed conflicts often yield policies that do not serve the immediate requirements of victims for relief protection of rights stabilization and reconstruction Based on compelling up to date case studies of the post Cold War experience in Central America northern Iraq Somalia the former Yugoslavia and the African Great Lakes the authors Thomas G Weiss and Cindy Collins make recommendations for a more effective international humanitarian system **The African Commission on Human and Peoples' Rights and International Law** Rachel Murray, 2000-08-18 The African Commission on Human and Peoples Rights established in 1987 was the third regional instrument after the European and American systems for the promotion and protection of human rights This book drawing on the jurisprudence and practice of the Commission challenges the applicability of international law to the African situation Following an examination of the evolution of the African Charter and the status of ratification Murray questions the opposing dichotomy approach of international law Her critical analysis covers the notion of the state the issue of personality and the application of the international law distinctions between war and peace and judicial and amicable disputes The experience and approach of the African Commission is compared with that of other regional and international bodies leading to the conclusion that a more holistic approach to international law is required if human rights are to be adequately protected In addition to making an important contribution to legal scholarship on the subject of the Commission this book will serve as a reference work a textbook and an invaluable practitioners tool **The Evolution of the Doctrine and Practice of Humanitarian Intervention** Francis Kofi Abiew, 2024-02-12 The topic of humanitarian intervention has become increasingly significant since the end of the Cold War Despite a substantial body of literature on the subject in the past recent developments justify a contemporary study of the subject This book is not only timely given the crises which have occasioned United Nations interventions over the past several years but enduring as international political structures undergo stress and reform and as international law and international relations theorists grapple with the sovereignty intervention problem It defends the emergence of a right of humanitarian intervention and argues that state sovereignty is not incompatible with

humanitarian intervention After a thorough review of historical precedents the book concludes by assessing contemporary developments in terms of sources of support for intervention on humanitarian grounds **Human Rights in Armed**

Conflict Gerd Oberleitner,2015-03-05 A comprehensive analysis of the legal challenges and practical consequences of applying international human rights law in armed conflict situations *International Dimensions of Humanitarian Law*

UNESCO,2024-01-09 Commissioned by UNESCO from the Henry Dunant Institute this volume of essays lays the foundation for an international programme for the teaching of international humanitarian law within the framework of UNESCO's plan for the development of the teaching of human rights Parts I and II deal with the development of humanitarian ideas and law within different schools of thought and cultural traditions Part III with the law of armed conflict and Part IV with the application of international humanitarian law It is hoped that the publication of this volume which in its original French edition coincided with the 40th Anniversary of UNESCO and the International Year of Peace proclaimed in 1986 by the UN General Assembly will reinforce the determination of the international community to achieve the aim of the founders of UNESCO namely to construct the defences of peace in the minds of men Self-Determination, Terrorism and the

International Humanitarian Law of Armed Conflict Elizabeth Chadwick,2023-08-28 A preliminary definition of international terrorism was agreed by the world community in 1937 Since then a World War and the Cold War have made any such modern consensus impossible In particular the UN principles of equal rights and self determination of Peoples have caused political and juridical confusion in that liberation fighters who utilize terror methods as one tactic in an overall political strategy to achieve self determination are frequently termed terrorists and are prosecuted as such In order to regulate wars of self determination under international law and to control the means and methods of warfare utilized in them international humanitarian law IHL was extended in 1977 to include armed conflicts for the right to self determination as enshrined in the Declaration on Principles of International Law concerning Friendly Relations and Co operation among States in accordance with the Charter of the United Nations Thus acts of terrorism perpetrated during armed struggles for self determination are separable from random acts of international violence and when perpetrated by states or insurgent forces during wars of self determination may be prosecuted under IHL as war crimes However although states are obliged to seek out and prosecute the perpetrators of illicit acts of warfare they rarely do so Dr Chadwick argues that should IHL be fully utilized during wars of self determination if only for purposes of guidance the separability of illicit acts of war would enable the international community to reach consensus more easily in regard to a definition of terrorism in general and a coordination of efforts to deter its occurrence **Human Rights and Criminal Justice for the Downtrodden** Morten Bergsmo,2021-08-04 This

book contains essays by leading international experts in the areas of international criminal law and international human rights law Part One of the book contains eight essays in international criminal law covering issues such as the crime of aggression terrorism and the Statute of the International Criminal Court the evolution of the law on crimes against humanity

and genocide the doctrine of universal jurisdiction and the relationship between international human rights and international criminal law jurisprudence Part Two has eight essays on economic social and cultural rights covering inter alia the right to development genetic resources for food and agriculture the right to food also in armed conflict the definition of cultural rights and business and human rights Part Three has six essays on minority rights dealing with issues such as the role of the Working Group on Minorities the Hague Oslo and Lund recommendations regarding minority questions the protection of kin minorities and the situation of the Greenlanders Part Four has fourteen essays on human rights issues such as citizenship and human rights human rights law the environment and indigenous peoples the role of human rights institutions leadership in the human rights movement the sources of fundamental rights in the European Union and human rights and traditional practices The book also contains a comprehensive bibliography of Asbjørn Eide

Contingency in International Law Ingo Venzke, Kevin Jon Heller, 2021-04-22 This book poses a question that is deceptive in its simplicity could international law have been otherwise Today there is hardly a serious account left that would consider the path of international law to be necessary and that would refute the possibility of a different law altogether But behind every possibility of the past stands a reason why the law developed as it did Only with a keen sense of why things turned out the way they did is it possible to argue about how the law could plausibly have turned out differently The search for contingency in international law is often motivated as it is in this volume by a refusal to resign to the present state of affairs By recovering past possibilities this volume aims to inform projects of transformative legal change for the future The book situates that search for contingency theoretically and carries it into practice across many fields with chapters discussing human rights and armed conflict migrants and refugees the sea and natural resources foreign investments and trade In doing so it shows how politically charged questions about contingency have always been

Democracy, Ethnic Diversity, and Security in Post-Communist Europe Anita I. Singh, 2001-06-30 Inder Singh examines why international organizations including the UN OSCE and Council of Europe advocated democratic governance based on the rule of law and respect for human and minority rights as the method by which states should try to accommodate their ethnically mixed populations She discusses how realistic this advice has been given the tension between the principle of the sovereignty of states and their international obligations and the extent to which democratization had made for ethnic and political stability in post communist Europe Inder Singh demonstrates that this advocacy of democracy to handle ethnic diversity questions the perception of nationalism as a cause of war and disorder This pathbreaking study will be of appeal to academics and policy makers interested in how the management of ethnic diversity through democracy can enhance domestic and international security

Protection of Cultural Property in the Event of Armed Conflict Jiri Toman, 2017-07-12

At the request of UNESCO Jiri Toman Acting Director of the Henry Dunant Institute in Geneva has written this detailed analysis of the 1954 Hague Convention for the Protection of Cultural Property in the Event of Armed Conflict still the only universal legal instrument in this field The author has used the materials that emerged from the preparatory work for the Convention and has taken numerous examples from UNESCO s records about the application of the Convention in conflicts over the last 40 years to illustrate this article by article commentary on the Convention itself the Regulations for its Execution and its Protocol The author establishes parallels with other international legal instruments such as the 1977 Protocols Additional to the 1949 Geneva Conventions or the other UNESCO conventions relating to cultural heritage and puts forward ideas for a more general study of the protection of cultural property in the event of armed conflict and the legal and practical ways of achieving this This work should satisfy the expectations of politicians and those responsible for culture in the countries that are States Parties to the Convention now numbering more than 80 and of those that are considering becoming parties to it given the increasing calls being made for the international community to have greater powers to defend the cultural heritage from attacks to which it is too often exposed in armed conflicts today

Beyond Charity: International Cooperation and the Global Refugee Crisis Gil Loescher,1996-08-08 With more than 18 million refugees worldwide the refugee problem has fostered an intense debate regarding what political changes are necessary in the international system to provide effective solutions in the 1990s and beyond In the past refugees have been perceived largely as a problem of international charity but as the end of the Cold War triggers new refugee movements across the globe governments are being forced to develop a more systematic approach to the refugee problem Beyond Charity provides the first extensive overview of the world refugee crisis today asserting that refugees raise not only humanitarian concerns but also issues of international peace and security Gil Loescher argues persuasively that a central challenge in the post Cold War era is to develop a comprehensive refugee policy that preserves the right of asylum while promoting greater political and diplomatic efforts to address the causes of flight He presents the contemporary crisis in a historical framework and explores the changing role of the Office of the United Nations High Commissioner for Refugees Loescher suggests short term and long term reforms that address both the current refugee crisis and its underlying causes The book also details the ways governmental structures and international organizations could be strengthened to assume more effective assistance protection and political mediation functions Beyond Charity helps frame the debate on the global refugee crisis and offers directions for more effective approaches to refugee problems at present and in the future

International Law: Achievements and Prospects Federico Mayor,Mohammed Bedjaoui,2023-12-28 The arrival of the International Law Achievements and Prospects can fairly be described as a major event in international legal publishing It has been written by international lawyers from the North the South the East and the West whose differing origins and different or even opposed academic backgrounds have ensured that the book encapsulates and brings into focus the main forms of civilization and the

principal legal systems of the world The book's most distinctive feature is its international multi cultural and polyphonic nature International Law Achievements and Prospects aims to inform and to educate to make the discipline of international law accessible to a very broad public and to promote a meeting of minds on fundamental notions key concepts and the guiding principles of international law over and beyond frontiers ideologies and doctrines In addition it is intended to provide a framework for thought to describe what international law is today to specify its nature define its purpose and show its strengths and also to point out its weaknesses All the contributing authors are or have been practitioners of international law Their contributions express a global view of international law which helps to unravel the complex reality of the contemporary world International Law Achievements and Prospects has been produced under the auspices of UNESCO its content also aspires to reflect in some measure the imprint of that Organization's sponsorship
