Modern Russia Frederick Lawrence Long,1957 The Rise and Fall of Latin Humanism in Early-Modern Russia Max J. Okenfuss,1995-08-01 The Rise and Fall of Latin Humanism in Early Modern Russia argues that between 1650 and 1789 Russia flirted with Western Europe s Latin Humanism However all levels of society especially the nobility consistently rejected the pagan authors of Latinate culture propagated by Ukrainian clergy An examination of the printing industry Latin teaching and private libraries in Russia and excursions into the thought of Russia s enlighteners demonstrate that Latin authors had little impact on Russia especially the nobility traditionally regarded as the advocate of Western educational and cultural values The book contributes to our understanding of the reforms of Peter the Great of Catherine s enlightened reputation of the origins of the intelligentsia and of the cultural ties between Russians and the peoples they annexed in early modern times The Modern Russian Theater Nicholas Rzhevsky,2008-10-27 This comprehensive and original survey of Russian theater in the twentieth century and into the twenty first encompasses the major productions of directors such as Meyerhold Stanislavsky Tovostonogov Dodin and Liubimov that drew from Russian and world literature It is based on a close analysis of adaptations of literary works by Pushkin Dostoevsky Gogol Blok Bulgakov Sholokhov Rasputin Abramov and many others The Modern Russian Stage is the result of more than two decades of research as well as the author s professional experience working with the Russian director Yuri Liubimov in Moscow and London The book traces the transformation of literary works into the brilliant stagecraft that characterizes Russian theater It uses the perspective of theater performances to engage all the important movements of modern Russian culture including modernism socialist realism post modernism and the creative renaissance of the first decades since the Soviet regime s collapse Translation and the Making of Modern Russian Literature Brian James Baer,2015-11-19 Brian James Baer explores the central role played by translation in the construction of modern Russian literature Peter I s policy of forced Westernization resulted in translation becoming a widely discussed and highly visible practice in Russia a multi lingual empire with a polyglot elite Yet Russia s accumulation of cultural capital through translation occurred at a time when the Romantic obsession with originality was marginalizing translation as mere imitation The awareness on the part of Russian writers that their literature and by extension their cultural identity were born in translation produced a sustained and sophisticated critique of Romantic authorship and national identity that has long been obscured by the nationalist focus of traditional literary studies By offering a re reading of

seminal works of the Russian literary canon that thematize translation alongside studies of the circulation and reception of specific translated texts Translation and the Making of Modern Russian Literature models the long overdue integration of translation into literary and cultural studies *Crime and Punishment in Early Modern Russia* Nancy Kollmann, 2012-10-11 This is a magisterial account of the day to day practice of Russian criminal justice in the seventeenth and early eighteenth centuries Nancy Kollmann contrasts Russian written law with its pragmatic application by local judges arguing that this combination of formal law and legal institutions with informal flexible practice contributed to the country's social and political stability She also places Russian developments in the broader context of early modern European state building strategies of governance and legal practice She compares Russia's rituals of execution to the spectacles of suffering of contemporary European capital punishment and uncovers the dramatic ways in which even the tsar himself complying with Moscow's ideologies of legitimacy bent to the moral economy of the crowd in moments of uprising Throughout the book assesses how criminal legal practice used violence strategically administering horrific punishments in some cases and in others accommodating with local communities and popular concepts of justice Modern Russian Classics Isaac Goldberg, 1919
