Johnson, Colonial American, 1715-1763 Milton Wheaton Hamilton, 1976 **The Enterprising Admiral J.**

Gwyn, 1974-05-01 The financial impact of war in the eighteenth century upon the corps of naval officers has not been systematically studied Nor have the opportunities of a naval career to exploit such sidelines as trade money lending and land purchases in the colonies where officers spent much of their time been looked at carefully The present study analyses in detail the fortune of a single naval officer Admiral Sir Peter Warren whose principal wealth came from prize money the capture of enemy vessels in wartime He emerges as a new type of entrepreneur with his feet well planted on both sides of the Atlantic equally at home in the financial circles of New York Boston Charleston Dublin and London Owing to the mobility of his naval career he became familiar with the economic prospects in these scattered places while he possessed the necessary imagination to take advantage of their commercial opportunities Mobility also enabled him to select personally the agents who served his varied interests Neither his widow nor his heirs had the same advantages nor did they possess the same degree of business sense with the result that his fortune invested internationally was eventually repatriated to England

The Struggle for Power in Colonial America, 1607-1776
William R. Nester,2017-10-11 America s colonial era began and ended dramatically with the founding of the first enduring settlement at Jamestown on May 14 1607 and the Declaration of Independence in Philadelphia on July 4 1776 During those

169 years conflicts were endemic and often overlapping among the colonists between the colonists and the original inhabitants between the colonists and other imperial European peoples and between the colonists and the mother country As conflicts were endemic so too were struggles for power This study reveals the reasons for stages and results of these conflicts The dynamic driving this history are two inseparable transformations as English subjects morphed into American citizens and the core American cultural values morphed from communitarianism and theocracy into individualism and humanism These developments in turn were shaped by the changing ways that the colonists governed made money waged war worshipped thought wrote and loved Extraordinary individuals led that metamorphosis explorers like John Smith and Daniel Boone visionaries like John Winthrop and Thomas Jefferson entrepreneurs like William Phips and John Hancock dissidents like Rogers Williams and Anne Hutchinson warriors like Miles Standish and Benjamin Church free spirits like Thomas Morton and William Byrd and creative writers like Anne Bradstreet and Robert Rogers Then there was that quintessential man of America s Enlightenment Benjamin Franklin And finally George Washington who more than anyone was responsible for winning American independence when and how it happened **Thundersticks** David J.

Silverman,2016-10-10 David Silverman argues against the notion that Indians prized flintlock muskets more for their pyrotechnics than for their efficiency as tools of war Native peoples fully recognized the potential of firearms to assist them in their struggles against colonial forces and mostly against one another as arms races erupted across North America The Epic Battles for Ticonderoga, 1758 William R.
