Waiting for the Next Ashok Sharda,2020-01-24 Feeble Creature is arrested and charged with committing a crime under several penal codes for causing disruption and chaos by inflicting unfounded fear among the masses His crime is writing and circulating four articles taking an extreme contrarian view that humankind is suffering from progeria the rarest of rare diseases known to medical science In his defense before the court of justice he says I sincerely desired to infuse the real meaning of living in the psyche of mankind so that they may battle out the death inflicted by this metaphysical ailment I conveniently call

Progeria I haven't committed any crime in doing so by expressing my conviction cautioning and alerting the commoners to take notice. It is up to them to take notice, realize and act or ignore the warning. This novel depicts the very cause that has led mankind to this lethal metaphysical ailment the author termed as metaphysical progeria. The author has also ventured to present a possible remedy who only the rarest of the rare may chance to put into application. He does this by taking readers on a short journey aboard a train, a perfect analogy for the journey of life as passengers seem ever waiting for the next assumed time projecting data internalized from dead past. The author dares to write an obituary of the metaphysical demise of mankind unravelling how he arrives at this conclusion. The author believes however that those who choose themselves still have a chance to rise from their metaphysical graves.

THE VERY LAST MOMENT IN TIME Troy Emmanuel Li, Luke Messner is a simple guy. He lives each day like it's a new day. He rides his bicycle to pick up supplies from the local market, cooks food based on his meal plan, reads books and writes on his journal. But everything he does is based on a carefully planned schedule on a calendar beside his bed. Every morning when he wakes up he checks his schedule for the day and follows everything according to plan. Then one day a letter arrived in the mail. The sender asked him to visit an art gallery and look for a specific painting. Out of curiosity he visited the gallery and saw a painting of a girl by Lucien Vanne. He didn't know the artist but admired the painting for its uniqueness. Every week after that he kept receiving letters leading him to clues about his past. Who is Lucien Vanne and what connection does he have with Luke? And who is Raegan? With shocking twists and turns this is a love story you won't soon forget.

Why We Forget and How to Remember Better Andrew E. Budson, Elizabeth A. Kensinger, 2023. One of us, Elizabeth, had the opportunity to conduct research with a gentleman named Henry Molaison, better known by his initials H M 1, who had the interior portion of his left and right temporal lobes, the part of your brain next to your temples, removed in 1953 because of epileptic seizures that were difficult to control. From a technical standpoint the surgical procedures went fine. But as he recovered the doctors and researchers soon noticed something very troubling: he was unable to form any new memories. He could read and talk and if you were having a brief conversation with him you would probably not notice anything amiss. But family members would visit and although he knew who they were he would have no memory of them coming. New doctors would introduce themselves and the next day or even the next hour he did not recall that he had met them. It was then that the doctors understood that somehow the removal of those parts of the temporal lobe caused him to become completely amnesic.
