Smith,2024-06-07 A wealthy textile titan from Carlisle Pennsylvania Frank Masland Jr was an ardent political conservative and an equally fervent conservationist who was well known and highly respected in the mid twentieth century environmental preservation community This eye opening biography charts Masland s life work telling the story of how he and fellow Republicans worked with Democrats to expand the national park system preserve wild country and protect the environment Though a conservative conservationist appears to be a contradiction in terms today this was not necessarily the case when Masland and his compatriots held sway Conservatives Masland insisted had a duty to be good stewards of the earth for present and future generations and they worked closely with members of both parties in Congress and nonpolitical conservation groups to produce landmark achievements When conservatives turned against environmentalism during the Reagan presidency Masland refused to join what historians have termed the Republican reversal During his long life of nearly a hundred years Masland used his voice influence experiences with nature and considerable wealth to champion environmental causes at the national state and local levels Engaging informative and at times eyebrow raising this portrait of a passionately anti statist nature loving Republican environmentalist documents the history of the twentieth century conservation movement and reminds us of a time when conservative Republicans could work with liberal Democrats to protect the environment
