Nature And Thy Name Is Love Wesleyan And Process Theologies In Dialogue:

Thy Nature and Thy Name is Love Bryan P. Stone, 2001 Thy Nature Thy Name is Love brings leading scholars into dialogue over points of convergence and divergence between Wesleyan and process theologies The Nature of Love Thomas Jay Oord, 2010-04-01 God is love Consequently shouldn't love exist at the center of Christian theology When love is at the center theology is understood differently than it has typically been understood Some theologians have placed faith at the center others God's sovereignty still others the Church but Dr Oord places the emphasis on love God's love for us revealed in Christ in the Church and in creation and our love for God and others as ourselves must be afforded its rightful place Beginning with the foundation of love is what differentiates the Christian faith from others a loving God Dr Oord defines love as To love is to act intentionally in sympathetic empathetic response to God and others to promote overall well being Is this not what has defined Christians throughout history *Historical Dictionary of Methodism* Charles Yrigoyen Jr., Susan E. Warrick, 2013-11-07 Methodism is growing both in numbers and influence according to the World Methodist Council there are 78 Methodist Wesleyan and related Uniting and United churches representing over 80 million people in more than 130 nations There are clear reasons for its success Among them are commitment to evangelize and nurture people with the message of God's presence love and direction That includes an appreciation for and practice of the holistic nature of the Wesleyan tradition which involves faith nurtured in the biblical narrative disciplined personal and communal spirituality and holy living vibrant preaching worship and fellowship and a faith which rejoices in personal and social reform This third edition of *Historical Dictionary of Methodism* presents the history of Methodism through a detailed chronology an introductory essay an extensive bibliography and over 500 cross referenced dictionary entries on important institutions and events doctrines and activities and especially persons who have contributed to the church and also broader society in the three centuries since it was founded This book is an ideal access point for students researchers or anyone interested in the history of the Methodist Church **The Negro's Church** Benjamin E. Mays, 2015-08-04 Benjamin E Mays 1894 1984 was President and Professor Emeritus of Morehouse College **Perfecting Grace** Mark H. Mann, 2006-11-15 Mark Mann seeks to renew discussion of the doctrine of holiness in Christian theology by using the human sciences as a tool for theological reconstruction He identifies the anthropological presuppositions of the holiness tradition and explores the ways that those presuppositions have led to particular assertions regarding the nature of Christian holiness as that doctrine is affirmed by the holiness tradition He asks to what extent holiness is possible in this life How is holiness obtained and to what extent can people gain knowledge of having achieved holiness Mann uses the resources of the neurosciences the sociology of knowledge and psychology to help answer these questions and to provide constructive theological analysis of these questions The Oxford Handbook of Methodist Studies William J. Abraham, James E. Kirby, 2009-09-24 With the decision to provide of a scholarly edition of the Works of John Wesley in the 1950s Methodist Studies emerged as a fresh academic venture Building

on the foundation laid by Frank Baker Albert Outler and other pioneers of the discipline this handbook provides an overview of the best current scholarship in the field The forty two included essays are representative of the voices of a new generation of international scholars summarising and expanding on topical research and considering where their work may lead Methodist Studies in the future Thematically ordered the handbook provides new insights into the founders history structures and theology of Methodism and into ongoing developments in the practice and experience of the contemporary movement Key themes explored include worship forms mission ecumenism and engagement with contemporary ethical and political debate

A Living Tradition Dr. Mary Elizabeth Mullino Moore, 2013-09-17 This book engages in a critical recovery and reconstruction of the Wesleyan theological legacy in relation to current theological concepts and Christian practices with the intent to present opportunities for future directions The contributors address urgent questions from the contexts in which people now live particularly questions regarding social holiness and Christian practices To that end the authors focus on historical figures John Wesley Susanna Wesley Harry Hoosier and Richard Allen historical developments such as the ways in which African Americans appropriated Methodism and theological themes such as holistic healing work and vocation and prophetic grace The purpose is not to provide a comprehensive historical and theological coverage of the tradition but to exemplify approaches to historical recovery and reconstruction that follow appropriately the mentorship of John Wesley and the living tradition that has emerged from his witness Contributors W Stephen Gunter Richard P Heitzenrater Diane Leclerc William B McClain Randy L Maddox Rebekah L Miles Mary Elizabeth Mullino Moore Amy G Oden and Elaine A Robinson

A Modern Relation of Theology and Science Assisted by Emergence and Kenosis Bradford McCall, 2018-02-28 How should we attempt to understand the relationship between theology and science in the twenty first century In this book I will attempt to answer this question by examining several previous attempts to classify this relationship I also develop my personal view of the relation thereafter discussing some Catholic contributions to this project and then revisit some of my previously published material highlighting the role of panentheism therein and noting an emergent implication from the literature the resultant possibilities for God an implication that creates space for a broadly relational perspective of the process of emergence These movements allow me to argue that kenosis and emergence can add to the discussion of understanding the theology and science relationship Herein I advocate a monistic process based view of the overlapping relationship between theology and science

Timetables of History for Students of Methodism Rex D. Matthews, 2007-06-01 Winner of the 2007 Saddlebag Selection Award from the Historical Society of The United Methodist Church as the best book published during the year on the history biography polity or theology of United Methodism or its predecessors Understanding history rests largely on a grasp of two things sequence and context Know which events came earlier and which later and you ve gone a long way toward understanding influence and causation Know what was going on in the wider world at the same time a historical event occurred and you ll better grasp the meaning and significance of that

event for the people who experienced it Yet even with the best history textbooks students have difficulty in gaining an immediate sense of sequence and context Hence the purpose of this book To lay out the most important events in the history of the Wesleyan Methodist movement to show them in their proper order and to include the most important occurrences taking place on the national and international stages at the same time Matthews presents his material in an easy to comprehend and visually appealing layout enumerating the major trends and developments in Methodist history from 1700 to 2004 Rex D Matthews is Assistant Professor in the Practice of Historical Theology at Candler School of Theology Emory University Atlanta Georgia He currently serves as co chair of the Wesleyan Studies Group of the American Academy of Religion as General Editor of the Kingswood Books series and as Managing Editor of the new electronic academic journal Methodist Review An excerpt from the Circuit Rider review This is a book for college and seminary professors for high school teachers of religion for Sunday School teachers of children youth and adults It is a book for preachers and church musicians It should be in every church library This is a book for people who think history is boring as well as for those who delight in rich historical detail and story It is a book to be savored and returned to again and again And this is a book for all who love the church and yearn to be part of perfecting its mission and its life Click here to read the entire review **A Classical**

Response to Relational Theism Brian J. Orr, 2022-02-17 The classical doctrine of God expresses that the God of the Bible is triune a se simple immutable impassible eternal and the sovereign Lord over his creation which he created from himself Modern streams of theology within the evangelical circle continue to promote a doctrine of God that sharply contrasts the classical view the traditional view of God in Christian theism Therefore a critical response to such a theology is needed This study is a comprehensive analysis and sustained critique of Thomas Jay Oord s open relational doctrine of God Oord s model substitutes process metaphysics for classical metaphysics while attempting to retain foundational Christian doctrines that were established within a classical metaphysical framework Methodist Theology Today Clive Marsh, 2006-04-01 British Methodism is reshaping itself At a time of uncertainty about the future owing to declining numbers and an ever closer relationship with the Church of England a collection of the liveliest theological minds in contemporary Methodism have written a book which shows how recent theology can be a resource for the future Methodism has always had an active concern with both evangelism and social welfare and by means of its central organization it is able to coordinate efforts in these areas The book asks challenging questions about how this may develop in the complex post modern secular world

Notebooks Schubert M. Ogden, 2018-11-06 As artists not uncommonly keep sketchbooks so thinkers often write notebooks Schubert Ogden is a thinker for whom writing notebooks has been an essential discipline throughout his long career of trying to think as a Christian systematic theologian By his own confession constantly writing down his thoughts so he could discover what he wanted to think has always been as necessary to learning how to think theologically as constantly reading in order to think fruitfully with the minds of others This volume is a selection from the indefinitely larger corpus of

Ogden's notebooks now archived in the Drew University Library All arising from his thinking as a theologian the entries selected are addressed to some of the more fundamental and therefore mainly philosophical issues now facing anyone who would do Christian theology systematically While each entry stands on its own and may well be read discretely they together make up a single many sided argument for a distinctive way of doing theology today by resolutely pursuing a comparably distinctive way of doing metaphysics and ethics

Evangelism and the Openness of God Vaughn W. Baker, 2012-12-18 In *Evangelism and the Openness of God* Vaughn Baker argues that a dynamic concept of God as articulated in open theism better serves the evangelistic mission of the church than does conventional theology Open theism affirms an ontology of love as opposed to power and it focuses on God's kenosis in creation allowing for the authentic freedom of creation influenced by divine persuasion God's genuine temporal relationship with creation one that is open synergist and non coercive provides a new perspective for evangelistic activity In this volume the author has made a valuable contribution to the integration of new developments in theology and evangelism

God and Gravity Philip Clayton, 2018-08-23 Philip Clayton is well known as a major thinker working at the interface of science philosophy and Christian theology Here for the first time a representative selection of his far reaching works have been brought together into one place After a general introduction to the breadth of Clayton's writing the book is divided into six main sections 1 Science 2 Science Faith 3 Panentheistic Reflections on Science 4 Science 5 Science Spirit and 6 Progressive Theology This introduction and reader will become the go to text for all inquiries regarding Philip Clayton's expansive theology

What's with Free Will? Philip Clayton, James W. Walters, 2020-03-10 Are humans free or are we determined by our genes and the world around us The question of freedom is not only one of philosophy's greatest conundrums but also one of the most fundamental questions of human existence It is particularly pressing in societies like ours where our core institutions of law ethics and religion are built around the belief in individual freedom Can one still affirm human freedom in an age of science And if free will doesn't exist does it make sense to act as though it does These are the issues that are presented probed and debated in the following chapters A dozen experts specialists in medicine psychology ethics theology and philosophy grapple with the multiple and often profound challenges presented by today's brain science After examining the arguments against traditional notions of free will several of the authors champion the idea of a chastened but robust free will for today one that allows us still to affirm the value of first person experience

Most Moved Mover Clark H. Pinnock, 2019-10-01 In 1994 Clark Pinnock along with four other scholars published *The Openness of God* which set out a new evangelical vision of God one centered on his open relational and responsive love for creation Since then the nature of God has been widely discussed throughout the evangelical community Now Pinnock returns with *Most Moved Mover* to once again counter the classical deterministic view of God and defend the relationality and openness of God This engaging defense of openness theology begins with an analysis of the current debate followed by an explanation of the misconceptions about openness theology and a delineation of areas of agreement between classical and openness theologians *Most Moved Mover* is for all evangelicals regardless of their viewpoint as it lays out the groundwork for future discussions of the open view of God

Theologies of Creation Thomas Jay Oord, 2014-10-02 Humans have long wondered about the origin of the universe And such questions are especially alive today as physicists offer metaphysical theories to account for the emergence of creation Theists have attributed the universe s origin to divine activity and many have said God created something from absolute nothingness The venerable doctrine of creatio ex nihilo especially emphasizes God s initial creating activity Some contributors to this book explore new reasons creatio ex nihilo should continue to be embraced today But other contributors question the viability of creation from nothing and offer alternative initial creation options in its place These new alternatives explore a variety of options in light of recent scientific work new biblical scholarship and both new and old theological traditions

Grace for All Clark H. Pinnock, John D. Wagner, 2015-03-31 Did Christ atone for the sins of humanity on the cross Does God desire all people to be saved and direct his grace toward all people for that purpose There are some Christians following a deterministic paradigm who believe this is not true They believe God has predestined some people for heaven and many or even most for hell The rising tide of Calvinism and its TULIP theology needs to be respectfully answered *Grace for All The Arminian Dynamics of Salvation* features a distinguished international panel of scholars to examine this controversy These writers address issues such as election free will grace and assurance They make compelling scriptural arguments for the universality of God s grace contending that Christ atoned for the sins of all people and that God sincerely offers forgiveness for all through Christ This book strives to uncover the biblical position on salvation We hope the reader will enjoy this stimulating series of articles on the Arminian perspective and that it will spur further writing and discussion *Grace for All The Arminian Dynamics of Salvation* is an updated and revised version of *Grace Unlimited* a 1975 collection of scholarly articles assembled by the late
