**Strategic Environmental Assessment in International and European Law** Simon Marsden, 2012-05-16 Strategic environmental assessment SEA is a regulatory requirement for development across Europe North America Australasia and elsewhere yet understanding the legal aspects is challenging This comprehensive guide provides that understanding in a clear and straightforward way The introduction considers SEA and the law explaining what SEA is why it is needed how it works and why it is required as well as examining the role of the law Part One provides an overview of international law environmental impact assessment EIA and international law including treaties customary international law and soft law relevant to SEA It analyses the Kiev SEA Protocol and related UNECE conventions the Espoo Convention on EIA in a Transboundary Context and the Aarhus Convention on Access to Information Public Participation and Access to Justice in Environmental Matters It also analyses the role of SEA in conservation conventions Part Two considers how the European legal system works including an overview of the current status of European law It examines the EIA Directive and SEA Directive together with other relevant directives and regulations such as the Habitats and Wild Birds Directives the Water Framework Directive the Public Participation for Plans and Programmes Directive and the Structural Funds Regulations Finally the volume draws conclusions about the relationship and comparisons between international and European law generally and in regulating SEA

**European Union Environmental Law** Peter G.G. Davies, 2017-07-05 This comprehensive book provides analysis and discussion on the following key issues in EU environmental law environmental competence principles and objectives implementation and enforcement nature protection impact assessment trade and the environment waste management climate change and the EU An accessible work for all students of the subject both academic or professional

**Environment and Law** David Wilkinson, 2005-07-05 This textbook provides a concise introduction for students with little or no legal background to the role of law in environmental protection It describes and explains law and legal systems the concept of the environment sources of environmental law and some of the techniques used in environmental law Interdisciplinary in approach the book explores some of the major connections between law and the disciplines of ethics science economics and politics Environment and Law offers a greater understanding of international and national environmental law and has case studies from all over the world including examples from UK US and Australian law

**British Environmental Policy and Europe** Philip Lowe, Stephen Ward, 2005-08-10 Explores the effectiveness of British organisations and groups in the environmental field in responding to the challenge of European integration

**Guide to Information on European Union Environment Policy** Dorothy Sharp, 1997

**Environmental Policy Integration** Andrea Lenschow, 2012-04-27 Integrating environmental policies into the policies of all other sectors is the core European environmental policy But there has been no thorough investigation of the political process involved This volume provides the first It analyses the process of policy integration the greening of public policy across the relevant sectors and countries It

finds significant variation from sector to sector and from country to country and analyses the reasons for this Surprisingly the UK traditionally the dirty man of Europe is far more actively engaged than environmental progressives such as Germany It identifies the obstacles to integration and offers solutions for policy formulation decision making and implementation at the relevant political levels **A Handbook of Approaches to Environmental Policy Analysis in Southern Africa** ,2000

**Policy Integration for Complex Environmental Problems** Helen Briassoulis,2017-07-05 The quest for policy integration crystallized in the 1990s as awareness was growing that the current supply of narrow sectoral and little coordinated or even overlapping and conflicting policies could not cope efficiently and effectively with contemporary complex cross cutting and interdependent socio environmental problems Combining and coordinating policies properly promises to address this institutional misfit add value to policies support planning at national and sub national levels and facilitate the transition to sustainable development more generally This book proposes a comprehensive conceptualization of policy integration and negotiates pertinent theoretical methodological and applied issues from the perspective of selected EU policies rural development regional development transport social economic environmental water resources and biodiversity policy Mediterranean desertification an exceptionally complex socio environmental problem is used as an illustrative example as the idea for this book transpired while researching the topic of policy making to combat desertification in the context of MEDACTION an EU funded research project **The Economics of Ecosystems and Biodiversity in National and**

**International Policy Making** Patrick ten Brink,2012-09-10 The Economics of Ecosystems and Biodiversity TEEB study is a major international initiative drawing attention to local national and global economic benefits of biodiversity to highlight the growing costs of biodiversity loss and ecosystem degradation the benefits of investing in natural capital and to draw together expertise from the fields of science economics and policy to enable practical actions Drawing on a team of more than one hundred authors and reviewers this book demonstrates the value of ecosystems and biodiversity to the economy society and individuals It underlines the urgency of strategic policy making and action at national and international levels and presents a rich evidence base of policies and instruments in use around the world and a wide range of innovative solutions It highlights the need for new public policy to reflect the appreciation that public goods and social benefits are often overlooked and that we need a transition to decision making which integrates the many values of nature across policy sectors It explores the range of instruments to reward those offering ecosystem service benefits such as water provision and climate regulation It looks at fiscal and regulatory instruments to reduce the incentives of those running down our natural capital and at reforming subsidies such that they respond to current and future priorities The authors also consider two major areas of investment in natural capital protected areas and investment in restoration Overall the book underlines the needs and ways to transform our approach to natural capital and demonstrates how we can practically take into account the value of ecosystems and biodiversity in policy decisions at national and international levels to promote the protection of our

environment and contribute to a sustainable economy and to the wellbeing of societies      Transboundary water governance and climate change adaptation Rieu-Clarke, Alistair, Moynihan, Ruby, 2015-12-31      **The Amazon from an International Law Perspective** Beatriz Garcia, 2011-02-21 With a vast river network and rainforests extending over eight South American countries the Amazon plays a vital role particularly in maintaining biodiversity and terrestrial carbon storage Due to its ecological characteristics the Amazon benefits not only those countries but also the international community at large However the Amazon forests are being rapidly cleared with a consequent loss of biodiversity and impact on global climate This book examines whether international law has an impact on the preservation of the Amazon by inquiring into the forms of cooperation that exist among the Amazon countries and between them and the international community and to what extent international cooperation can help protect the Amazon Given the role of this region in maintaining the balance of the global environment the book examines whether the Amazon should be granted a special legal status and possible implications in terms of international cooperation      European Access ,2000      **National Library of Medicine Current Catalog** National Library of Medicine (U.S.), 1993      EU Regulation and Transatlantic Trade Sebastiaan Princen, 2002-08-28 1 Introduction and research problem 2 A theoretical framework 3 The European leghold trap regulation 4 The European ban on the use of growth hormones in meat production 5 Genetically modified foods and food products 6 The European data protection directive 7 Summary and conclusions      **Agri-environmental Policy in the European Union** Henry Buller, Geoff Wilson, Andrea Holl, 2017-11-01 This title was first published in 2000 This volume provides a detailed examination of agri environmental policy within ten European states Individual chapters consider the agricultural and environmental policy contexts within each state and examine the range and significance of agri environmental policy proposed in addition to their spatial and territorial impact their policy making implications and their consequences for the structures institutions and actors of national farming policy both across and within national borders Drawing from ten national profiles and the data sets provided the book provides a comparative analysis of implementation trends filling a gap in the literature on this topic Taking European legislation as its starting point the comparative section of the book examines how Member States have responded to EU imperatives in their budgetary commitments in their implementation strategies and in the policy outputs that result The study identifies similarities across European nations in the territorial and agricultural focus of agri environmental policy and draws attention to the alternative      **Economic Models of Material-Product Chains for Environmental Policy Analysis** P.P. Kandelaars, 1999-07-31 A theoretical and empirical contribution to the quest for sustainability and environmental quality The book examines the physical and economic aspects of flows of materials and products as well as the policies and strategies designed to reduce the related resource depletion and environmental pollution The material product chain concept forms a general framework defined as a system of linked flows of materials and products that support the provision of a certain service Various economic models of material product

chains are studied both theoretical and applied such as static optimisation dynamic simulation and general equilibrium models Applications to metals rain gutters and window frames are described Audience Readers in universities research organizations and policy institutes interested in the environment economics and government policy

**Pond Conservation in Europe** Beat Oertli,Régis Céréghino,Jeremy Biggs,Steven Declerck,Andrew P. Hull,Maria Rosa Miracle,2010-09-24 Ponds are an exceptional freshwater resource around the world and represent thirty percent of the global surface area of standing water Furthermore the millions of ponds which exist exhibit a particularly high biodiversity and have a high potential for ecosystem functions and services Despite these impressive features ponds face many threats from a variety of human activities and receive little or no protection under European and national legislation Consequently there is an urgent need to protect consolidate and increase the pond resource in Europe In order to achieve these objectives the European Pond Conservation Network EPCN was launched 2004 in Geneva Its aim is to promote the awareness understanding and conservation of these small water bodies in the European landscape This volume of *Developments in Hydrobiology* presents a selection of 31 papers presented during EPCN conferences held in 2006 in France Toulouse and in 2008 in Spain Valencia They represent a diverse collection of themes from across the continent and North Africa and present new and original insights into topics as wide ranging as pond biodiversity human disturbance landscape ecology ecological assessment and monitoring practical management measures ecological restoration hydrology and climate change invasive species and threatened species
