Worldview David K. Naugle, 2002-07-16 Conceiving of Christianity as a worldview has been one of the most significant events in the church in the last 150 years In this new book David Naugle provides the best discussion yet of the history and contemporary use of worldview as a totalizing approach to faith and life This informative volume first locates the origin of worldview in the writings of Immanuel Kant and surveys the rapid proliferation of its use throughout the English speaking world Naugle then provides the first study ever undertaken of the insights of major Western philosophers on the subject of worldview and offers an original examination of the role this concept has played in the natural and social sciences Finally Naugle gives the concept biblical and theological grounding exploring the unique ways that worldview has been used in the Evangelical Orthodox and Catholic traditions This clear presentation of the concept of worldview will be valuable to a wide range of readers

Hofer, Paul R. Pintrich, 2012-08-21 This is the first book to provide a

comprehensive overview of the theoretical and methodological approaches to the study of personal epistemology from a psychological and educational perspective Both theory building and empirical research have grown dramatically in the past

decade but until now this work has not been pulled together in a single volume That is the mission of this volume whose state of the art theory and research are likely to define the field for the next 20 years Key features of this important new book include Pioneering Contributors The book provides current perspectives of each of the major theoreticians and researchers who pioneered this growing field as well as contributions from new researchers Diverse Perspectives The contributors represent a variety of perspectives including education educational psychology developmental psychology higher education and science and mathematics education Editorial Integration Opening and closing chapters by the editors set out key issues confronting the field

*Active Learning: Theoretical Perspectives, Empirical Studies and Design Profiles* Robert Cassidy, Elizabeth S. Charles, James D. Slotta, Nathaniel Lasry, 2019-07-11 This book represents the emerging efforts of a growing international network of researchers and practitioners to promote the development and uptake of evidence based pedagogies in higher education at something a level approaching large scale impact By offering a communication venue that attracts and enhances much needed partnerships among practitioners and researchers in pedagogical innovation we aim to change the conversation and focus on how we work and learn together i e extending the implementation and knowledge of co design methods In this first edition of our Research Topic on Active Learning we highlight two of the three types of publications we wish to promote First are studies aimed at understanding the pedagogical designs developed by practitioners in their own practices by bringing to bear the theoretical lenses developed and tested in the education research community These types of studies constitute the practice pull that we see as a necessary counterbalance to knowledge push in a more productive pedagogical innovation ecosystem based on research practitioner partnerships Second are studies empirically examining the implementations of evidence based designs in naturalistic settings and under naturalistic conditions Interestingly the teams conducting these studies are already exemplars of partnerships between researchers and practitioners who are uniquely positioned as in between straddling the two worlds As a result these publications represent both the rigours of research and the pragmatism of reflective practice In forthcoming editions we will add to this collection a third type of publication design profiles These will present practitioner developed pedagogical designs at varying levels of abstraction to be held to scrutiny amongst practitioners instructional designers and researchers alike We hope by bringing these types of studies together in an open access format that we may contribute to the development of new forms of practitioner researcher interactions that promote co design in pedagogical innovation

*Regional Perspectives of Nature-based Solutions for Water: Benefits and Challenges* Nevelina Pachova, Perlie Velasco, Antonina Torrens, Veeriah Jegatheesan, 2023-01-06 Nature based solutions NbS are solutions inspired or supported by nature They include ecosystem conservation and restoration measures as well as the creation or enhancement of natural processes in man made ecosystems such as cities Recent interest in NbS has emphasized their importance for urban water management and cities across the world have begun to experiment with them Experiences from different contexts however are not adequately captured and

understood This book aims to address this gap by compiling case studies and reviews that explore NbS for urban water management from different regions and perspectives and highlight emerging challenges and opportunities for harnessing their potential

**International Handbook of Research on Environmental Education** Robert B. Stevenson, Michael Brody, Justin Dillon, Arjen E.J. Wals, 2013-05-02 The environment and contested notions of sustainability are increasingly topics of public interest political debate and legislation across the world Environmental education journals now publish research from a wide variety of methodological traditions that show linkages between the environment health development and education The growth in scholarship makes this an opportune time to review and synthesize the knowledge base of the environmental education EE field The purpose of this 51 chapter handbook is not only to illuminate the most important concepts findings and theories that have been developed by EE research but also to critically examine the historical progression of the field its current debates and controversies what is still missing from the EE research agenda and where that agenda might be headed Published for the American Educational Research Association AERA

experiences      **Sustainable Development - the Cultural Perspective** Gerhard Banse, Gordon L. Nelson, Oliver Parodi, 2011 This current volume is a result of the Seventh and Eighth International Forum on Sustainable Technological Development in a Globalizing World The Seventh Forum was held June 9 12 2010 in Berlin The Karlsruhe Institute of Technology hosted the event which was organized around culture and sustainability What we each value as a society as a country in our culture is what we want to protect What is sustainable is only what we value This applies all the more to sustainable development which is planned for long time scales and therefore to go beyond individual sustainable technology solutions as well as economic and political cycles What we hold in high regard is the result of cultural influences Consequently we need cultural change in the sense of sustainable development in order to secure sustainability pathways in the long term The key question arising is whether and how this change can be brought about The following Introduction leads us into the specific discussion At the end of the Seventh Forum participants concluded that more specific case studies would be useful and recommended that the Eighth Forum provide a focus for case studies Since the remainder of the Eighth Forum held March 8 10 2011 in Melbourne Florida focused on Alternative Energy with oral papers not really appropriate as written papers it was decided to include the case studies in combination with those papers from Berlin to provide a holistic discussion of culture and sustainability That is the concept for this volume P 13 14      *Moral Issues in Global Perspective - Volume 1: Moral and Political Theory - Second Edition* Christine Koggel, 2006-03-02 Now available in three thematic volumes the second edition of *Moral Issues in Global Perspective* is a collection of the newest and best articles on current moral issues by moral and political theorists from around the globe Each volume seeks to challenge the standard approaches to morality and moral issues shaped by Western liberal theory and to extend the inquiry beyond the context of North America Covering a broad range of issues and arguments this collection includes critiques of traditional liberal accounts of rights justice and moral values while raising questions about the treatment of disadvantaged groups within and across societies affected by globalization Providing new perspectives on issues such as war and terrorism reproduction euthanasia censorship and the environment each volume of *Moral Issues in Global Perspective* incorporates work by race class feminist and disability theorists *Moral and Political Theory* the first of the three volumes surveys a number of traditional Western liberal approaches to moral theory human rights justice and democracy as well as contemporary critiques of these approaches With nineteen new essays three of which were written especially for this edition this volume covers the necessary theories for understanding moral issues in a global context *Moral Issues in Global Perspective* is available in three separate volumes *Moral and Political Theory* *Human Diversity and Equality* and *Moral Issues*      **Nature in Indian Philosophy and Cultural Traditions** Meera Baindur, 2015-05-19 Working within a framework of environmental philosophy and environmental ethics this book describes and postulates alternative understandings of nature in Indian traditions of thought particularly philosophy The interest in alternative conceptualizations of nature has gained significance after many thinkers pointed out

that attitudes to the environment are determined to a large extent by our presuppositions of nature This book is particularly timely from that perspective It begins with a brief description of the concept of nature and a history of the idea of nature in Western thought This provides readers with a context to the issues around the concept of nature in environmental philosophy setting a foundation for further discussion about alternate conceptualizations of nature and their significance In particular the work covers a wide array of textual and non textual sources to link and understand nature from classical Indian philosophical perspectives as well as popular understandings in Indian literary texts and cultural practices Popular issues in environmental philosophy are discussed in detail such as What is nature in Indian philosophy How do people perceive nature through landscape and mythological and cultural narratives In what ways is nature sacred in India To make the discussion relevant to contemporary readers the book includes a section on the ecological and ethical implications of some philosophical concepts and critical perspectives on alternate conceptualizations of nature *Interdisciplinary Perspectives on*

*Socioecological Challenges* Anders Siig Andersen, Henrik Hauggaard-Nielsen, Thomas Budde Christensen, Lars Hulgaard, 2023-04-07 This book explores interdisciplinary perspectives on socioecological challenges and offers innovative solutions at both a European and global level This book critically reflects on the latest scientific knowledge regarding the increasing instability of the Earth System caused by human activities during the Anthropocene and the Great Acceleration It focuses on the global and European challenges regarding climate resources bio integrity and environment The authors assess the obstacles to overcoming these challenges and examine the risks posed by path dependencies lock ins and trade offs between global and regional goals They also drill down into the complexities of the European Green Deal specifically the similarities and differences between the scientific analyses and recommendations from the European Environment Agency and the content of the Deal Finally the book looks at the Just Transition put forward by the European Green Deal The authors discuss this in a context of global and European ecological and socioecological challenges and put the question of equality recognition and democratization at the center Outlining new pathways to broaden the scope of scientific collaboration between the natural and technical sciences and the social sciences and the humanities this volume will be of great interest to students and scholars of sustainable development environmental policy and governance and environmental justice
