*Divine Scripture in Human Understanding* Joseph K. Gordon,2019-03-15 In six closely reasoned chapters Joseph Gordon presents a detailed account of a Christian doctrine of Scripture in the fullest context of systematic theology Divine Scripture in Human Understanding addresses the confusing plurality of contemporary approaches to Christian Scripture both within and outside the academy by articulating a traditionally grounded constructive systematic theology of Christian Scripture Utilizing primarily the methodological resources of Bernard Lonergan and traditional Christian doctrines of Scripture recovered by Henri de Lubac it draws upon achievements in historical critical study of Scripture studies of the material

history of Christian Scripture reflection on philosophical hermeneutics and philosophical and theological anthropology and other resources to articulate a unified but open horizon for understanding Christian Scripture today Following an overview of the contemporary situation of Christian Scripture Joseph Gordon identifies intellectual precedents for the work in the writings of Irenaeus Origen and Augustine who all locate Scripture in the economic work of the God to whom it bears witness by interpreting it through the Rule of Faith Subsequent chapters draw on Scripture itself classical sources such as Irenaeus Origen Augustine and Aquinas the fruit of recent studies on the history of Scripture and the work of recent scholars and theologians to provide a contemporary Christian articulation of the divine and human locations of Christian Scripture and the material history and intelligibility and purpose of Scripture in those locations The resulting constructive position can serve as a heuristic for affirming the achievements of traditional historical critical and contextual readings of Scripture and provides a basis for addressing issues relatively underemphasized by those respective approaches **Religious Education** ,1923

Inspiring Faith in Schools Dr David Torevell,Dr Marius C Felderhof,Mrs Penny Thompson,2013-05-28 Inspiring Faith in Schools addresses the privileging of secularism that appears to affect RE in countries influenced by modern western thought The authors argue that a more engaging form of RE would emerge if religious life were to inhabit centre stage Currently

religious faith is made to hover in the wings awaiting the call to face the inquisitorial challenge of the modern day enquirer. The consequent relationship between pupil and the Divine as the purpose of study is then already intrinsically irreligious as indicated in the Book of Job by putting God in the dock whereas it is the pupil who should be cross examining his or her life. What are the ways of exciting and engaging the young so that they begin to entertain the possibility of religious life as a genuine option for themselves. Leading scholars in philosophy and theology from the UK, Australia, Canada and the USA come together to address these questions together with RE experts. Marius Felderhof writes an Afterword summing up the challenges faced by such a re-visioning of RE.

**The Homiletic Monthly**, 1883      **The Crown of Thorns** Faith Tibble, 2025-03-20

Jesus Crown of Thorns has become one of the most ubiquitous features of Christian religious art but was the crown of history anything like the crown of popular medieval art and piety. The image that springs to mind is that of a bloodied, beaten Jesus wearing a cruelly fashioned woven crown made of sharp thorns. But this image is deeply misleading based on a fundamental misunderstanding and mistranslation of the Gospels. Faith C Tibble rectifies this misunderstanding showing how The Crown of Thorns underwent a yet unrecognized artistic evolution. Tibble tracks the artistic progression of the Crown of Thorns from when it was first depicted in the 4th century until the 11th century when it begins to exhibit the artistic trends that are still recognizable today even in modern depictions in art and cinema. Through doing so Tibble adds new perspective to our understanding of the ideologies associated with medieval Christianity: victory, humility, perseverance and how those ideologies are exemplified in depictions of the Crown of Thorns. Tibble demonstrates how a simple mistranslation led to a different understanding of the Gospels and an unexpected trajectory for European art with profound and unintended consequences.
