The Findhorn Community Carol Riddell, 1991. The Findhorn Foundation, one of the first successful new age communities of present times, was founded in 1962 and continues to be an important part of a world wide movement for spiritual transformation. What is it like to live in the Findhorn Community today? What is the spiritual inspiration behind its existence and how has it changed and evolved over the years? How is it organised and managed? What kind of people join it and why and what changes do they go through? In this book Carol Riddell covers all this and more including the community's development from its early patriarchal basis to its first hesitant steps into spiritual democracy, its evolving relationship with the earth and the environment and the new businesses and independent projects springing up around it. She both sets the Findhorn Community in its current global context and shows how the process of creating a contemporary spiritual identity can unfold day by day through the ordinary activities of people living and working together. Integral Polity Ronnie Lessem, Ibrahim Abouleish, Louis Herman, 2016-05-23. Releasing the genius of an individual, an enterprise and a society is a central pre-occupation of the contemporary business environment. A fascinating approach to how we can begin to tackle this challenge is presented by the authors of *Integral Polity*. Integral spirituality, integral philosophy and the integral age at an overall or holistic level of consciousness has therefore become a strong enough idea to form the genesis of a movement over the course of the last half century. Taking as a starting point the ground breaking work of the Trans4m Centre for Integral Development, this book applies such an integral notion to the realms of business, economics and enterprise. To be successful an integral approach must recognise the nuances of its environment; an integral approach in India is different from that in Indonesia or Iceland and they may in fact complement rather than conflict. Therefore this book also provides a fascinating alignment of such integrality with and between different southern and eastern, northern and western worlds. Using case studies ranging across the globe, this review of a newly integral theory and practice provides a new lease of life to what may increasingly be perceived as the self seeking, insulated and occasionally violent and corrupt realm of the political.
