Joseph Butler: Fifteen Sermons and other writings on ethics David McNaughton, 2017-02-10 Joseph

Butler's *Fifteen Sermons* 1729 is a classic work of moral philosophy which remains widely influential. The topics Butler discusses include the role of conscience in human nature, self-love and egoism, compassion, resentment and forgiveness, and love of our neighbour and of God. The text of the enlarged and corrected second edition is here presented together with a selection of Butler's other ethical writings: *A Dissertation of the Nature of Virtue*, *A Sermon Preached Before the House of Lords*, and relevant extracts from his correspondence with Samuel Clarke. While this is a reader's edition that avoids cluttering Butler's text with textual variants and intrusive footnotes, it comes complete with scholarly apparatus intended to aid the reader in studying Butler's work in depth. David McNaughton contributes a substantial historical and philosophical introduction that highlights the continuing importance of these works. In addition, there are extensive notes at the end of the volume including significant textual variants and full details of Butler's sources and references, as well as short summaries of Butler's predecessors and a selective bibliography. This will be the definitive resource for anyone interested in Butler's moral philosophy.

John Muir: Nature Writings (LOA #92) John Muir, 1997-04-22 Known as the Father of the National Parks, John Muir wrote about the American West with unmatched passion and eloquence as seen in this stunning one-volume collection. In a lifetime of exploration, writing, and passionate political activism, John Muir became America's most eloquent spokesman for the mystery and majesty of the wilderness. A crucial figure in the creation of our national parks system and a far-seeing prophet of environmental awareness who founded the Sierra Club in 1892, he was also a master of natural description who evoked with unique power and intimacy the untrammelled landscapes of the American West. *Nature Writings* collects Muir's most significant and best-loved works in a single volume, including *The Story of My Boyhood and Youth* (1913), *My First Summer in the Sierra* (1911), *The Mountains of California* (1894), and *Stickeen* (1909). Rounding out the volume is a rich selection of essays including *Yosemite*, *Glaciers*, *God's First Temples*, *Snow Storm on Mount Shasta*, *The American Forests*, and *Save the Redwoods*, that highlight various aspects of his career, his exploration of the Grand Canyon, and of what became Yosemite and Yellowstone national parks, his successful crusades to preserve the wilderness, his early walking tour to Florida, and the Alaska journey of 1879.
