Critical Thinking for Multiple Learning Styles Teacher Created Resouces,2004-10-13 *Multidimensional Particle Swarm Optimization for Machine Learning and Pattern Recognition* Serkan Kiranyaz,Turker Ince,Moncef Gabbouj,2013-07-16 For many engineering problems we require optimization processes with dynamic adaptation as we aim to establish the dimension of the search space where the optimum solution resides and develop robust techniques to avoid the local optima usually associated with multimodal problems This book explores multidimensional particle swarm

optimization a technique developed by the authors that addresses these requirements in a well defined algorithmic approach After an introduction to the key optimization techniques the authors introduce their unified framework and demonstrate its advantages in challenging application domains focusing on the state of the art of multidimensional extensions such as global convergence in particle swarm optimization dynamic data clustering evolutionary neural networks biomedical applications and personalized ECG classification content based image classification and retrieval and evolutionary feature synthesis The content is characterized by strong practical considerations and the book is supported with fully documented source code for all applications presented as well as many sample datasets The book will be of benefit to researchers and practitioners working in the areas of machine intelligence signal processing pattern recognition and data mining or using principles from these areas in their application domains It may also be used as a reference text for graduate courses on swarm optimization data clustering and classification content based multimedia search and biomedical signal processing applications **The**
