elements of wild places At the same time human entanglements with wild ecologies involve extractivism the growth of resource based economies and imperial colonial expansion activities that are wreaking havoc on our planet Through an ethnographic exploration of Canada s ten UNESCO Natural World Heritage sites Inhabited reflects on the meanings of

wildness wilderness and natural heritage As we are introduced to local inhabitants and their perspectives Phillip Vannini and April Vannini ask us to reflect on the colonial and dualist assumptions behind the received meaning of wild challenging us to reimagine wildness as relational and rooted in vitality Over the three years they spent in and around these sites they learned from Indigenous and non Indigenous peoples about their entanglements with each other and with non human animals rocks plants trees sky water and spirits The stories actions and experiences they encountered challenge conventional narratives of wild places as uninhabited by people and disconnected from culture and society While it might be tempting to dismiss the idea of wildness as outdated in the Anthropocene era Inhabited suggests that rethinking wildness offers a better if messier way forward Part geography and anthropology part environmental and cultural studies and part politics and ecology Inhabited balances a genuine love of nature s vitality with a culturally responsible understanding of its interconnectedness with more than human ways of life *A Concordance to the Poems of Robert Browning* , *A Concordance to the Poems of Robert Browning* Leslie Nathan Broughton, Benjamin Franklin Stelter, 1925 **Index of Trademarks Issued from the United States Patent and Trademark Office** , 1995 *Cumulative List of Organizations Described in Section 170 (c) of the Internal Revenue Code of 1954* United States.
