without damaging antibiotics or steroids Even if you choose to go the antibiotic route The Gut Health Protocol can make the treatment more effective and can help prevent serious complications The Gut Health Protocol contains over 1200 published scientific studies summarized and explained in easy to understand language over 500 pages on paper and reviews of several treatment options Unlike many self help books nearly everything in the book is based on science not opinion The author takes all of this brilliant research and translates it to the practical application of healing and caring for our gut The book is written in such a way as allow your doctor to easily look up the scientific studies to validate the claims and treatment suggestions No need to take the author s word for anything you and your doctor can read the research It is recommended that everyone works with a doctor to determine a treatment plan Though everyone s condition is different you can be feeling much better in as little as 2 weeks naturally and without risky antibiotic treatments Be sure visit The Gut Health Protocol on Facebook there are thousands of members just like you all helping each other **Healing with the Herbs of Life** Lesley Tierra,2013-11-26
